The Miner.

FRIDAY, AUGUST 10, 1877.

Official Paper of the Town of Prescott

SPECIAL NOTICES in the leading column will be charged at the rate of THIRTY CENTS per line for first insertion, and twenty cents a line for each subsequent insertion.

Local Intelligence.

TUESDAY.

The ARIZONA ENTERPRISE has been sold to Hon. Paul Weiser.

Six ox teams are en route between Verde and Prescott loaded with salt.

Yesterday Mr. Trujillo, with six wagons, arrived in town. His loads were salt which has been stored and is now for sale.

Morton for using his pistol too freely was fined by Justice Cate $100 or 50 days in the county jail.

Geo. W. Curtis, Esq., has all the bill of lumber sawed and ready to deliver for the erection of the McCrackin mill at Greenwood.

Several loads of grapes arrived yesterday evening from Salt River, and were selling on the streets this forenoon at 25 cents per pound.

MAIL.—Although our mails now arrive here in the evening, it does not change the time of departure. The mails leave here at 4 o'clock as usual.

Pine Springs in the Magollon range has a very large stream of water and is a desirable location for some one who wants a good farm, stock ranch, etc.

We learn that the settlers along the Little Colorado have excellent crops this season. Good thing that some one in the county can boast of a prospect.

Henry Randel, who killed James Mallon a few days since at Swilling's ranch, and came here and surrendered himself to the sheriff, has had and examination and set free, it appearing that the case was a justifiable homicide.

Wilson & Haskel, the contractors for building the new County buildings, have commenced hauling the stone to be used in the construction of the foundation, and are erecting a small house in which they intend keeping their lime, etc.

Geo. W. Hance, the Government wood contractor at Camp Verde, postmaster at Cienega and general rustler, has contracted with some Mexicans from New Mexico to fill his contract, while he remains at home attending to his arduous duties of P. M.

Mr. Milligan, of Round Valley, in the eastern portion of the county, has 200 acres planted to wheat this season and good judges inform us that no better crop was ever raised in Minnesota or any of the Western States than that of Mr. Milligan's.

J. R. Risdon Esq., of the firm of Risdon Tower, Pacific Iron Works, San Francisco, who has been visiting this section on business, leaves for his home to-morrow morning, carrying with him a personal knowledge of our resources in rich mines and otherwise.

John Ranger, the conductor of Bones & Spencer's coach, that brings so many nice things for their store, arrived from Ehrenberg yesterday. We advise our friends to call and see the new invoice of goods received by this firm. Everything nice, everything good.

Our efficient school teacher, Mr. Sherwin, and E. P. Clark, Territorial Auditor, have been on a trip of inspection and vacation for the last two weeks, to the South. They took in the valley of the Salinas in their rambles. They are both high up in their praises of Salt River and what they think of its future outcome.

Mr. Rose, formerly a clerk at Headquarters, has been on a trip to California to confer with parties there for the purpose of organizing a company to operate in mines, in Arizona, and has, we learn, been successful in his undertaking. May he have luck in his laudable enterprise.

This morning, by their respective counsel, J. L. B. Goodwin and P. J. Robert, Jas. Lewis and Leopold Eith, who had been convicted of murder and sentenced to be hanged on the 24th of this month, applied to the Chief Justice of the Territory for a writ of error which was granted. This will stay all proceedings in the case until next January, when the Supreme Court of the Territory will meet.

WATER YOUR DOGS.—If people must keep dogs, as about a thousand too many in Prescott, they ought in these dry times to be compelled to provide them with water. Dogs are actually going about with their tongues out, seeking water in back yards and drinking sloppings and wherever they can find it. There is water in the creek, and unless the dogs are watered we have medical authority for stating that there is danger of hydrophobia.

A few of our citizens concluded of late last evening, of enjoying themselves, and to that end they secured the City Hall, a few good musicians from the Fort Apache band, and whiled away the pleasant hours from nine until twelve o'clock, tripping the light fantastic toe to the sweet music of those excellent musicians. There were but few invited as the affair was an impromptu one, but those in attendance enjoyed themselves intensely.

GOING EAST.—F. G. Parker, the archer, and Clark Wilson, so long connected with the Post Trader's store at Fort Whipple, leave for the East to-morrow morning. Her will try and be back in two months, but Wilson, having been away from his people seventeen years, will make a longer stay, and may be gone half a year. Of course, we don't know what they are doing after, but it is generally understood there are fair girls, both in Minnesota and New Hampshire, and these are not the men to drive them back should one attempt to follow each to Arizon.

ON SPRING WAGON ROAD BOUGHT.—The Board of Supervisors met this morning for the purpose of considering S. C. Miller's position to sell to the county of Yavapai the Iron Spring Wagon Road, and after due deliberation and consideration concluded to accept the purchase and pay to Mr. Miller $6,000 in bonds, according to the act of the Legislature, upon the said Miller showing conclusively to the board that he is the owner of said Iron Spring Wagon Road, having from Prescott to Skull Valley, and upon his execution of a deed of the same to the county. Thus we have the matter settled, and we believe the county has a good property which will be hereafter a free road, and Mr. Miller complies with the requirements of the board.

FUNERAL.—The funeral of little Johnny Raible took place this afternoon from the Marina street church, and the remains were followed to the grave by a large number of sorrowful friends, who turned out to pay a last tribute to that little favorite who, but a few days since, was all life and the perfect model of health and beauty. It would be hard to describe the feelings of the whole MINER force, when the hearse passed our office bearing away the form of our little every day visitor whom we had all learned to love and laugh at his cunning expressions. Words fail to express our regret for the great blow that has been inflicted on the parents in the loss of their bright little Johnny.

The new wagon road constructed by the California & Arizona Stage Company for the county of Maricopa, from Smith's Mill to Wickenburg, on the west side of the Hassayampa river, is now completed and open to general travel, and is said to be an excellent thoroughfare for all kinds of teams, avoiding the heavy sands that prevailed in the old river route. This is a good public enterprise, and one that should have been accomplished years since.

A party of emigrants from Kansas have settled at Bear Springs, two miles northwest from Pine Springs and twelve miles east of Stoneman's Lake, and are about erecting a saw mill at that place. A large and better forest of pine does not exist in any country than at the point selected by these hardy emigrants, and it has been a wonder to us that this valuable place was not long since located by the old pioneers, many of whom knew its value well.

Joseph Fugitt, who is having some trouble over the title of the Loreno mine in Bradshaw, is in town. Mr. Fugitt settled in Arizona as early as 1860, and was one of those venturesome mail riders who traveled all the dangerous trails in the early settlement of the Territory, and is one of the very few who escaped the scalping-knife of the murderous Apaches that infested every nook and corner of the land.

THE CROPS.—It is now pretty generally conceded that the corn crop in and around Prescott for a radius of thirty miles will be almost an entire failure outside of a few ranches that have water to irrigate with, while in Maricopa county and all the eastern portion of this county, including the valley of the Verde just the opposite is the case never have been better crops raised than this season in the valley of the Salt River and a better prospect for a large yield never was known than the present on the Verde, Little Colorado and in fact the whole eastern portion of the county.

WEDNESDAY.

The thermometer still ranges at one hundred during the middle of the day.

The California & Arizona stage arrived at 3 P. M., and brought Messrs. Hobart and Duke as passengers.

The city expressman has lost his memorandum book and will pay two dollars and a half to the finder.

Mr. Mooney, the excellent tailor, has received an assortment of new material for gents' clothing unequaled in the Territory.

Robert Garside, of Kirkland Valley, dropped into town yesterday with a load of very fine potatoes, raised on his ranch, which he sold to L. Bashford & Co.

J. W. Swilling is in town having come up on a request of the Sheriff to give testimony in the case of the Territory vs. Randel who was honorably acquitted.

The different posts are to be supplied with horses to fill the places of those that have been disabled and died during a long number of years in Uncle Sam's service.

NEW LEADS.—H. T. Reed, Esq., has discovered two valuable leads in Black Canyon which are said to be immensely rich in silver and has named them after the State of Georgia and the city of Atlanta.

Frederick & Heenan, the enterprising proprietors of the Tin, Sheet-iron and Stove establishment, two doors north of the MINER office, are putting an excellent roof on the new brick building of Mr. S. Lewis.

The Messrs. Brannen brothers of the Fort Whipple Sutler store keep a well selected stock of all kinds of goods and sell as reasonable as any house in the Territory. Being good men and good merchants, we recommend them to our patrons.

Mrs. Lewis, wife of Lewis the contractor, was accidentally injured, last evening, by the careless handling of a self cocking pistol. The wound is serious. The ball entered the right breast and lodged. Dr. Day is in attendance and is doing everything possible for the sufferer.

FREIGHT TRAINS.—The trains of Howard, Randall, Young and others, are all close at hand and may be looked for at any time during the next two or three days. These several trains are loaded for merchants of Prescott and the government posts of Whipple and Verde.

Mr. Leighton, of the Perry mine, is in with his excellent *well behaved* burro train. Leighton and his associates have an excellent mine and it is our wish that it may prove to be pure metal as they go on developing their property.

Mrs. Ayres opened her dressmaking establishment, to-day, in the room adjoining Dr. W. E. Day's office, where she will be happy to wait on those who wish to purchase anything in the line of ladies' apparel or get a dress made in the latest and most fashionable style.

The Arizona Enterprise, started in Prescott in December, 1876, under the most favorable circumstances, the citizens of the Territory coming forward and supporting it liberally, has changed hands and is now owned by Mr. Paul Weiser. The paper ought, under good management, to have proved a financial success, rather than a financial ruin, which caused the sale.

Charles Keyes exhibited some fine specimens of ore yesterday from a mine recently discovered in the Black Hills, east of Agua Fria. From all we have seen from that region, we are inclined to think the time is not far off when the Black Hills of Yavapai will rival, at their namesake in Wyoming or Dakota in the richness of their mines if they can't show quite so many hostile Indians.

Mr. Sherman, the schoolmaster, is loud in praise of the products of Salt River Valley, especially of the water mellons which are plentiful in the valley. Mr. Wm. Isaacs, our former neighbor, whom he visited, has in about six hundred acres of excellent grain which will clear him a very handsome profit over and above all farming and family expenses. Mr. Isaacs has his own header, which he purchased this season and which has fully paid for itself in doing work for others besides, heading his own crop with it and having the machine, as good as new for another season.

Go to F. W. Blake's at the office of Wells, Fargo & Co., and ask for one of those vest pocket almanacs that tells all about the Home Mutual Insurance Company of California, of which he is agent. It is a very handy little book with twenty pages of memorandum blanks, a complete almanac for 1877, interest rules, land measurement, etc., and being just right to carry in your vest pocket, is not a bit in the way and always on hand when you want to consult the almanac or make a memorandum. Blake is also about ready to do business for other fire and life insurance companies. The "Central American" a St. Louis Company, and the "St. Joseph," of St. Joseph, Missouri, are among the companies of which he has the cards and circulars sent him, and of which he is asked to become agent, and only hesitates to ascertain whether the people are ready to insure their property at the rates responsible companies will be obliged to charge to cover the expenses of an actuary in coming so far in case of loss by fire.

Messrs. Shaw & Standefer are fixing up the old Antelope Restaurant building for a first-class saloon, which, when completed, will equal anything of the kind in town. Messrs Kirwagen & Sines are doing the carpenter work, which is of a superior kind, and would be a credit in the finish of a *bona fide* establishment in San Francisco. The front part has a hall entrance with two private rooms on either side. The next is the bar-room, which has counter, shelves, etc., nicely arranged and of goodly dimensions. The next room (as there are several apartments) has been rented for a lunch stand; then we come to another hall in the rear part of the building, similar to the front, with a private room on each side of said hall. The whole will be done and thrown open to the public about the 25th.

Mr. Carpenter has left with us two specimens from the Isabella mine at Humbug, filled with chloride of silver, from the appearance of which we judge the mine to be exceedingly valuable. Demint McPhee & Co. have out quite a large quantity of this rich ore, and are making arrangements to have it transported to San Francisco for reduction. This mine is in the neighborhood of the Tiptop and Swilling, a district that is showing as well as any in the Territory.

We had the pleasure of an introduction, this morning, to Dr. Williams, formerly of Sonoma county, but more recently of Kern county, Cal. The Doctor is one of California's large stock raisers, and comes here with a view of finding a good stock range for his large herds. We believe he intends examining the country along the Mogollons, and we are satisfied he will find ranges in that section which will satisfy his desires in every respect, as the water is plenty and the grasses are of a superior quality.

W. S. Hobart, Esq., a mining man from San Francisco, arrived this afternoon by stage, to look at some of our Yavapai mining properties. Mr. Rains has been here sometime prospecting, and we understand he and Mr. Hobart are operating together. Mr. J. H. Helm, who is managing the affairs of the Company recently organized to prospect the Tiger mine was expected by this stage, but did not arrive. The probabilities are that he will be in on the next stage.

Aspirants for the Sheriffality are numerous. Go slow boys, don't count your chickens before they are hatched. You can't all be elected, and you who are aspiring for something that the people do not want you for, had better ask yourselves the question whether it is wise to try and force your services on the people contrary to their desires. It seems to us that, at the proper time, the citizens will express themselves favorable to such persons as they wish to fill the place as Sheriff.

Lieutenants Thomas, Wilhelm, Whitney and Anderson, four worthy officers on duty at Headquarters, are going to give Mrs. General Kautz a complimentary party on Monday evening next, August 13th, on the occasion of her departure for the States and have invited about 200 of our citizens to be present and partake of the festivities of the evening and bid Mrs. Kautz a pleasant journey and speedy return.

N. P. Earp, who recently arrived with his family from Kansas, is resting his teams near Curtis' saw mill, and proposes in a few days to continue his journey on to San Bernardino. Mr. Earp was recently a resident of that valley and after several years experience in the Western Atlantic States, thinks it the best place he has seen to raise a family and settle them in life. He goes by the Mohave route.

Cows kept in Prescott are obliged to go so far for water that it takes two days to make the trip; so that human and bovine calves, in some instances, are out of milk about half the time.

THURSDAY.

A boat left Yuma on the 7th for Ehrenberg.

A nice new house is being erected for Mr. T. W. Otis on the hill east of the town.

Lumber trains are passing daily from the different saw mills.

Cows are drying up, and milk is on the rise. Put in a little water.

Considerable over $100,000 worth of new goods to arrive this week.

Hathaway is running the Gray Eagle Stables successfully.

The family of Frank Smith are somewhat better to-day.

Butter and eggs are scarce in the market, each selling, butter, per pound $1, and eggs $1 per dozen.

Mr. Thompson, of Thompson Valley, brought in another load of vegetables this afternoon.

J. M. Sanford goes out to the Perry mine in the morning. He has an extension and proposes to give it his personal inspections.

Col. Reynolds, the excellent Chief Quartermaster of the Department, called at the Miner office to-day.

A large train from New Mexico arrived to-day. They are to be employed by Mr. Rouiller in hauling wood to Fort Whipple.

Mr. C. A. Carpenter of Black Canyon, has lost a brown mule, and offers to pay any person who will give information that will lead to his recovery.

A company of pionicers are camping out in Chino valley. No one wishes them any harm, but all pray that they may get soaking wet in the rain before they reach home.

Mr. Smith, of Lynx Creek, one of the lucky owners in a ranch that has water wherewith to irrigate, and a large raiser of vegetables, was in town to-day.

Thunder, which is a good indication of rain, has been quite frequent this afternoon, and a few drops of rain fell about four o'clock

CLANCEY AGAIN.

Three hundred dollars reward is offered by Alex Graden, of Peeples Valley, $100 for the recovery of two stolen horses, and $200 for the delivery to him of William Clancey or John Davis. Of John Davis we have no knowledge; he is probably a stranger; but William Clancey has already acquired quite a notoriety here and is not unknown to fame in Maricopa county where his operations with some Indians were not so successful as his connection with the Cisner Brothers east of the Verde. By the way Clancey is somewhat given to literature as our readers will remember. And if not good with the pen himself has the faculty of selecting able assistance. Early last spring a correspondent of the MINER writing from Phoenix gave an account of an interview with Clancey, in which he uttered a few implied threats that stage robbing would be carried on more extensively in future than in the past, also boasted that he did rob Cisner Brothers, that he still had the $6,000 and intended to keep it, etc. The MINER remarked that "Clancey was no chicken," or something to that effect, whereupon a long, well written letter, that smelled rank of a lawyer's office, as if it had been cooked up in prospect of a fee for damages, to an unsullied reputation came to us from Phoenix signed by William Clancey; this letter we published, and our readers will remember that Mr. Clancey, or the attorney who wrote for him, regarded him as an injured innocent, a hard handed son of honest toil whom the MINER and its correspondent were seeking to fling into disrepute.

Now Mr. Clancey's friends find him posted as a horse thief which he and they will no doubt contend is simply a continuation of the persecution that has followed him during the past year, and which is likely to still pursue him until he is safely housed in the penitentiary.

The steamer Gila which sailed from Yuma on the 1st inst., for Ehrenberg, had the following number of packages marked as follows mostly for Prescott people:

M. L. Peralta, 108; S. R. 5; A. & W., 41; Tiger Mining Co., 96; F. Williams, 5; G. A. Behlow, 11; P. & P., 49; L. Lemaire, 15; Brown Bros., 24; E. Stahl, 3; A. Goldman, 6; Peck Mining Company, 11; S. L., 24; Joh Rodenberg, 11; Wells, Fargo, & Co., 11; E. P. Head, 7; W. M. R., 24; C. B. Bros., 4; Bones & Spencer, 3; J. G. Campbell, 66; J. G. Bros., 152; J. Nolt, 144; J. B. Tuttle, 2; Nathan & Co., 44; Lusk and Robinson, 1; R. H. Weaver, 18; Mary Conlon, 1; R. C. Bray, 10; Penfield, 1. Government freight, 23,786 pounds.

Some measure ought to be resorted to to relieve the farmers of this County from the operations of the Fence Law. The total failure of crops will render it absolutely impossible for many of our best farmers to raise the means to fence this season. Some think an extra session of the Legislature necessary, while others are of opinion that it will be cheaper to petition Congress to suspend the Fence Law in Yavapai County for one year, or abrogate it entirely. It would be easy enough two years hence to re-enact it if it is then thought desirable.

We are in receipt of a private letter from a friend dated at Yuma which speaks of Captain Mellon as an extra good hand for the management of boats on the Colorado. We can't see why our friend didn't write us something we don't know. Everybody knows Captain Jack Mellon can take a steamboat and tow a barge where some men couldn't navigate with a skiff. His equal never has been on the Colorado and with all the rest of his good qualities he knows how to use the traveling public. They are all his friends.

A report has reached town that two cases of small pox left Verde a few days ago in a wagon, traveling in this direction. If this report be true, it is the duty of the village parents to organize against the danger. Even though it should involve the expenditure of some money. There are some seven or eight thousand dollars collected annually, and as there is very little to show for it, we do hope they will not allow any contagious disease to invade the town and add to the already alarming condition of our sanitary affairs.

LUKE ALL SERENE.—Mr. C. A. Luke received a dispatch to-day from E. Martin, at the Hibernia Bank, that arrangements were being made for a roaster for the Bradshaw Basin Mill and Mining Company, requesting Luke to reduce expences until the roaster can arrive.

Mr. Luke has other guarantees that all demands against the company will be met, and only asks his heretofore and present opponents, in other words, his enemies to hold their horses for a while.

We would advise our friends who visit San Francisco, to put up at the Cosmopolitan Hotel, where they will be well treated by mine host, H. H. Pearson, proprietor, and have the pleasure of perusing the Arizona news through the columns of the MINER.

T. W. Boggs, of Lower Agua Fria, put in an appearance in town this afternoon, but we have not had a chance to interview him. It is safe to guess that he, like all the farmers we have seen in a month, is discouraged with the unprecedented drouth.

Doctor Semig, well and favorably known in this Territory, has been assigned to temporary duty at Camp McDermot, Nevada. The doctor was one of the unfortunates in the Modoc country, loosing a leg while on duty fighting Capt. Jack's band of renegades.

J. W. Curtis Esq., twin brother to G. W., the big lumberman, who has been here a month or two, leaves in the morning for Yuma to be gone five or six weeks.

The small pox is on the decline in Tucson. It has taken away at least one-fourth of the children of that place under 10 years of age.

J. Goldwater & Bro., the enterprising firm on the south-east corner of the plaza, have recently erected a new ware house in the rear of their store.

Mrs. Page, adjoining Juo. Hartia's blacksmith shop, has started a private boarding house, and will be pleased to recieve a few more lodgers.

Mr. Ferris, the mail contractor, between this place and Bradshaw, and that place and Wickenburg, has commenced carrying the mail from this place to Bradshaw.

Gus Rodenburg has been enjoying himself in San Francisco during the past few weeks, and is looked for home in a few days.

FRIDAY.

Readers of the MINER will find an interesting letter, in the supplement with this issue, from Dan O'Leary, now with his Hualpai scouts in the southern part of the Territory.

Messrs. Bagwell and Caldwell, two citizens living four miles south of Prescott, met in town last evening when an unpleasantness sprang up between them, resulting in both parties being bound over to keep the peace.

T. J. Butler, Territorial Treasurer, has his office for the present in the MINER building.

By command of August V. Kautz, Major Henry R. Mizner, Eighth Infantry, is relieved from the command of Camp Mohave, A. T., to date July 31, and will report in person, to his regimental commander for duty.

When an aspiring printing establishment desires to control the Territory, democratically, it were just as well that it paid that insignificant little printer's bill due J. C. Bacon. As a discharged man he is entitled to his pay, at once.

J. H. Marion came in to-day from his ranch on the Verde. He reports his sheep at Campbell & Baker's, where they arrived last night from the mountains. It was his intention to take them to Mint Valley to shear, but owing to the scarcity of feed, has concluded to drive them no further. He will therefore shear where they are.

Some weed or other poisonous matter has caused several of his, as well as those of Mr. Rhodes, who pastured near him in the mountains, to die. Marion has lost about thirty head from this cause, but thinks there will now be no more of it since they have changed ranges, and got plenty of salt.

AN EXPLANATION.—The patrons of the WEEKLY MINER, (published on Friday), which is the only edition that circulates extensively outside of the Village of Prescott, will have observed that our list of letters remaining in the Postoffice is a week older than it ought to be. What we wish to explain is, that this is no fault of ours. We have repeatedly asked the Postmaster for the list in time for the Weekly edition, and he has as often refused us under the pretext that Saturday is the only day he can find time, or that it is proper to make it out. Notwithstanding which, he usually drops it into our box a few minutes after we have gone to press on Friday, just too late for us to use it. Last Friday we waited and got it, but to-day he is sharp enough to withhold it until he is sure.

PRESCOTT.

Proposals for Building a Wagon Road from Prescott to Bradshaw City.

OFFICE OF THE BOARD OF SUPERVISORS, OF THE COUNTY OF YAVAPAI, A. T. PRESCOTT, July 24, 1877.

Sealed proposals will be received at the office of the Board of Supervisors, until 10 o'clock, a. m. Aug. 27, 1877, for the construction of a wagon road from Prescott to Bradshaw City, in Yavapai Co., Arizona, in accordance with an Act of the Legislature approved February 7th, 1877, entitled "An Act to provide for the construction of a wagon road from Prescott to Bradshaw City." Said road to be built in accordance with the maps of preliminary thereof now on file in the office of the Clerk of the Board of Supervisors. Said proposals may be made for the construction of the entire road, or for such portion thereof embraced within the sections shown by said maps of survey.

The road, or sections thereof, shall be completed on or before January 1st, 1878.

The Board reserves the right to reject any and all bids. Bids must be accompanied by a guarantee, signed by two responsible guarantors, that in case the bid is accepted, the bidder will, within 10 days after acceptance of said bid, execute a contract for the same with good and sufficient sureties, in double the amount of the contract, to be approved by said Board of Supervisors.

All prices must be written as well as expressed in figures. The name of residence and postoffice address of bidders should accompany bids.

Payment will be made in bonds of said county of Yavapai payable at the expiration of five, ten and fifteen years from the date of their issuance, and to bear interest at the rate of ten per cent per annum, payable annually on the first Monday in each year; said bonds to be in denominations of $50, $100 and $500.

By order of the Board of Supervisors.

WILLIAM WILKERSON, Clerk.
By JOHN LAMB, Deputy.

Prescott, Arizona, July 24, 1877. td

READY PAY STORE,

Lost.

The undersigned lost on Saturday, the 4th inst., in the village or immediate vicinity a gold locket, containing likeness of a sister and lady acquaintance, for the restoration of which he will pay a liberal reward. Please leave the same at the MINER office or deliver to me.

W. A. DEARING.

Prescott, August 6 1877. 1

Assessment Notice.

To Charles Keyes, H. Pettibone, L. Sivyer and Joseph Drew, owners in the Tucumsada mine, Humbug Mining District, Yavapai County, Arizona Territory.

You are hereby notified that if you do not appear within ninety days from the date of this notice and pay to Frank Schultz and John M. Derwin, your proportion of the assessment, as is required by law, the undersigned will claim a forfeiture of your interest in said mine or lode, according to the mining laws of the district.

Prescott, August 6, 1877. d90

Valuable Property for Sale.

Rare Chance.

The undersigned wishes to dispose of her property, on Cortez street, between Goodwin and Carleton, consisting of house and lot with good well and outhouses. The dwelling contains four rooms, as follows: Parlor, bedroom, dining room and kitchen, together with kitchen and household furniture. The location is a desirable one, and has valuable improvements in the way of shade and ornamental shrubbery, etc. The furniture will be sold separately if the purchaser does not wish to buy all together. The above property will be sold cheap for cash, as the owner intends leaving the Territory. For further particulars enquire on the premises, of the owner.

MRS. E. B. SILSBEE.
