Local Intelligence.

TUESDAY.

Mr. Sheckles has been on a flying trip to the Peck mine, being one of a party that drove the first buggy to the mountain of silver ore.

Ben. Lindenbaum and Charley Frederick have returned, to-day, from the San Francisco mountain where they have been on a hunt and recruiting their health.

Judge J. W. Kelsey and P. McAteer, from Kirkland Valley, arrived yesterday in town and left for their respective homes again to-day. Mr. K. recently sold a lot of fat beef steers to Mr. Cofer, the meat merchant, who sells excellent meat.

Rev A. M. Campbell left by this morning's stage for Los Angeles, where he is to attend the annual conference of M. E. Church South. The relations of the people of Prescott with the Reverend gentleman have been of so pleasant a nature that we heartily hope to see him return so soon as his duties will allow him.

The Rev Mr. Merrill, of the Presbyterian faith, who has been on an extended trip to San Francisco and different places in California, during the last two months, returned home, by the way of Yuma, on Sunday last, and was warmly greeted by his family and numerous friends.

Quite a number of our citizens who have been on a trip to Black Canyon returned yesterday. The parties who went down to examine the Tip-Top with a view to purchase express themselves pleased with what they saw, and more than likely, a sale will be the result of their examination.

J. W. Clark, from San Jose, California, who represents one of the Company whose interests have been represented in this section by Chas. Hansen, Esq., one of the best mining men on the Pacific coast, is here to look after the Company's interests in Bradshaw and Peck districts.

WELCOME VISITOR.—The rain that visited this section last night and this morning for a duration of several hours was a most welcome messenger. It will be the means of purifying the atmosphere, refreshing the parched earth and grasses, and giving a tone of health to the withering plants.

The walls of Dr. Day's new octagnal brick house will be completed to-morrow, and in the course of fifteen days the wood work will be finished, and the mansion ready to receive Mrs. Day should the Doctor be so fortunate as to have one sent out from the east, where, we understand, he has a host of sweethearts that are similar to the Israelites of Egypt, longing for the leeks and onions. The only difference between the two, the sweethearts are waiting for their liege and lord to return and make a selection while the Israelites wanted the onions.

CHILDRENS' ENTERTAINMENT.—The Entertainment given last evening by the Sunday school children, at the City Hall for the benefit of the Rev. Mr. Campbell, their teacher, was, taking the short time they had to rehearse and prepare for the occasion, a complete success. Each and every one did his or her part with credit and especially did Miss Groves, Miss Rush and Miss Wilkens and Mr. Z. Crow acquit themselves in an excellent manner, giving great satisfaction to the audience, as evidenced by the prolonged *encore* after each piece. The Entertainment financially was all and more than could have been expected. Something over a hundred dollars having been realized.

In examing the numerous articles in the heavy mercantile house of L. Bashford & Co this afternoon, we saw several varieties of vegetables raised at the ranch of Robert Garside in Kirkland Valley, comprising three varieties of onions and some fine heads of cabbage, also from the same Valley but raised on the farm of Mr McAteer, a beautiful sample of wheat. Agua Fria potatoes, the best now in the market, from the valuable ranch of N. Bowers, we noticed pilled up in the store room which are selling readily and will soon all be disposed of. The firm, have on hand 4000 large grain sacks which they will sell at a small advance on post, in San Francisco, and freight. They have every thing needed, and the only thing necessary for the most reluctant to be induced to make purchases is to examine their fine stock and inviting prices.

SAN CARLOS INDIANS.—During the latter part of August and up to the 6th inst., quite a correspondence has been kept up between Department Headquarters and officers at the military posts adjacent to the San Carlos reservation in regard to numerous bands of Indians that have surrendered at that reservation, and others that have left. On the 6th inst., Lieut. Abbott, the officer stationed at the San Carlos to superintend the issue to the Indians, telegraphed that 250 of the Warm Spring Indians who were removed about three months since from New Mexico, had taken to the hills. Lieutenants Rucker and Hanna, with their respective commands, are in pursuit of these runaways, and will undoubtedly overtake and bring them back. But few depredations have been committed by the bands who have disappeared from their *sweet home*, and but little fear is entertained that they will commit any very serious crimes. We are very confident that General Kautz will have an eye to the movement of these renegades and will see that they are watched closely and not allowed to prey on the settlers in Southern Arizona.

WEDNESDAY.

ALEXANDRA.

Anders & Rowe and Alexander & Co. are doing the mercantile business at Alexandra. Joe Drew engineers the former, and Mr. Dills the latter institution, and are both doing a right lively business. We have been informed that between three and four hundred people buy their supplies at Alexandra.

James Reynolds and wife, formerly of Whipple Depot, Brower & Hough, and Conners feed the hungry at well regulated restaurants.

Charley young has the principal livery stable.

Billy Lane and some one else are cutting steaks. Tom Collins does the blacksmithing. Two shoe shops attend to the understanding. The Mingus boys are making beer. John Ellis has the up-town saloon, and John Dall occupies the point nearer the gulch. Mr. Yancey furnishes milk, and take it up one side and down the other, Alexandra is about as lively a specimen of a little town as there is in the mountains.

Jerry Sullivan has about half the timbers ready out for the Peck mill and is rushing his contract to completion.

The foot of a wild turkey brought in from Bill Williams' Mountain by Charley Fredrick as a present from Henry Herbert to T. J. Butler, has talons on it resembling the claws of a grizzly bear more than those of a turkey. Henry must have scared up a drove of the South American Ostrich, or captured a Condor from the Andes, if the size of its foot is an indication of the bird. By way of letting Dud Moreland know that he and the party who are hunting with him are not starving for want of meat, he sends word that if he had Butler and Moreland out there he could fatten them both in a month until they could not be distinguished from Charley Yates; and he would feed them on nothing but the feet of the turkeys he kills.

The clouds hang low and dark in the horizon, and we predict that much more water is in the atmosphere that will be scattered over the hills and valleys, which will cause the springs and creeks an abundance of water to keep them running the remainder of the season. Grass will grow and the winter feed will exceed anything we have had heretofore. Mills will start up, placers will be worked, and the prospectors will once more off to the hills, and the result in general, from the letting loose of the elements, will be a good one.

THE PECK MILL.—The new ten stamp mill, with a White's roaster, etc, now being erected at the mine under the superintendency of Mr. James Moe, is being rapidly put upon the ground, the foundation is nearly excavated, Allen is laying up the stone wall in front of the batteries, Alex. Harris has 30,000 bricks in the kiln, 10,000 more on the yard and the men up to their eyes in the mud making more. They expect to be turning out bullion by the first week in December.

"Jack on the Green" is the name of a mine belonging to Miles & Co., east of the Silver Prince and running parallel with it, that is represented to be a first-class ledge of high-grade ore, so far as investigated. There has been but little work done as yet, but every lick has shown a good prospect, and those who have visited it assure us that, as a prospect, it is valuable.

RAIN.—At last, the rain has visited Yavapai county and we believe the whole Territory, as the storm seems to have been general. It commenced raining last night at an early hour and continued to pour down upon the thirsty earth all night and a portion of the forenoon to-day, causing the crocks and ravines to swell and run high.

Mr. Brophy now has his cattle in the Bradshaw mountains on good grass, and is camped at the old Del Pasco house, where there is a never failing spring of good water.

Mr. John Dall, of Alexandra is in town. He brought in several samples of ore which F. W. Blake was assaying to-day. We didn't learn what mines they were from but presume they are new discoveries.

The well at the Peck mine furnishes water for the brick makers, brewers, all the people in Alexandra, packers, teamsters, etc., and still there is water to spare.

Dan Lount is running the mess house for Opdyke's road camp on War Eagle gulch and is dishing up a very superior article of soup.

W. A. Rowe and Mr. Hazletine, who have been spending some days at Alexandra, returned yesterday, and, if we are not mistaken, got rained on by the way.

THURSDAY.

E. L. Jordan is in town with a load of vegetables, melons and Verde fish. Buy 'em up.

We learn that Mr Hardy has driven his beef cattle back to their old range at Lookout, four miles from the Willows.

Several gentlemen came into town this morning from the mountains, and they report the ravines as carrying a supply of water.

The train of J. M. Bryan loaded for Mr. Bray is expected to arrive in town during the next two or three days, and that of W. A. Howard in about 8 days.

One of the finest residences in Prescott, is now drawing to completion on Granite street and is the property of N. Ellis. The work has been done by that competent workman Tom Ruff, and is a creditable job.

George W. Bird has been appointed by the Board of Supervisors a Justice of the Peace for Antelope Precinct in this county. Mr. Bird is a young man of excellent habits, perfectly capable, therefore the appointment is a good one.

The Luke Company at last accounts from San Francisco had not purchased a roasting apparatus for their mill, but had examined the different kinds and think that one suitable can be purchased in the city for $3,500.

We are sorry to state that Mr. Frank Shuneman is financially embarrassed, and the consequence is that several attachments have been issued against his property. It is his intention, we believe, to take the benefit of the bankruptcy act.

W. C. Colyer, who very foolishly disobeyed the order of the Court in refusing to serve as a juror, and left town to keep from paying a fine for contempt of Court, was seen a few a few days since by Gen. Kautz and his party, near the San Francisco mountains.

FAST FREIGHT.—A team belonging to Miller Brothers, with fast freight, arrived last evening from Ehrenberg, making the trip in the extraordinarily quick time of four and three-quarter days. This is almost stage time, and quite unlike some of the fast freighters who take ten and twelve days to make the trip.

THE BLACK WARRIOR.—Mr. Rains, and those associated with him, have taken a bond of the Black Warrior Company, to the effect that after expending ten thousand dollars on the mine in the way of development. Rains & Co., are to elect whether or not they will buy one-half the mine, and pay the further sum of $20,000 to the owners, or in case they are not satisfied with it, they are to take the ores that came out as remuneration for their expenditure in developing, and the mine remains the property of the present owners. The money is already on deposit, and the beauty of it is, that it is all domestic money. That is to say, Prescott money, raised right here in camp.

On Sunday last the little army at work in and about the Peck mine received their pay at the store of Alexander & Co, at Alexandra, Mr. Dills acting as disbursing clerk for Mr. Alexander, who carries the money bag. During the day the night hands were paid, and in the evening those who had been at work all day in the mine came up and got their greenbacks, and after that the town was extremely lively until daylight, so much so that such a thing as sleep for that night was unknown in Alexandra. Pistol shots songs and loud hussas were the order of the night.

We learn that Ben Spear has been employed by the P. O. Department to carry the mail from Mineral Park to Aubry, via. Greenwood, once a week. This is as it should be. There is not a people in the United States more neglected, in regard to mails, than the worthy inhabitants of Mojave county.

Mr. E. P. Nichols, Division Agent of the C. and A. Stage company, returned from an extended trip through the northwestern portion of Arizona, and as far as the Muddy, in southeastern Nevada. He informs us that Col. Ike Jennings, of St. Thomas, is well, but had the misfortune to lose, by fire, 100 tons of alfalfa hay, which was accidentally set afire by a cigaritta.

The large stock of merchandise belonging to Smith & Stearns, of Phœnix, was closed out at auction on the 11th inst, and brought fair prices.

Friday's News.

Jeff. Davis writes to C. C. Bean from the State of Ohio, and says he wants to come back to Prescott.

The new insane asylum of Nevada and Arizona patients is nearly finished at Stockton, Cal. To which place our insane will hereafter be sent.

Pete Reed is in town from People's Valley. He says if he had any sheep the late rain drowned them all, at anyrate, he has none now.

The personal property of Wm. Partridge will, on Monday next, be sold at Antelope, to satisfy a judgment in favor of L. Bashford & Co.

Frank Shultz had two assays made by Blake, to-day, of ore from the A. B. mine near Tamuh Batte. The green ore went $312,42 and the gray ore $1,491,74 to the ton.

George Lount, Receiver of the Prescott Land office, and Secretary J. J. Gosper have gone on a prospecting trip to the Santa Maria, and perhaps to the Greenwood and Sandy country.

George M. Pinney, has been bailed on the two indictments found against him and now traverses the streets of Oakland and San Francisco, as big as any other toad, without escort.

Judge James Welch has gone out with Fred Henry to look at some mining property of which Fred is discoverer and owner, near Walnut Grove, and also in the Bradshaw mountains.

Mayor A. J. Bryant, of San Francisco, has been relected by a nice majority, and if he discharges his duties with the ability that has marked his last term none will have reason to complain.

John W. Davis and family got away this morning on the road to California. Mrs. Davis and the children will proceed to her old home in Lafayette, Ind., and J. W. intends to return here and rough it a little longer.

QUESTION.—Howard has been heard from. But Joseph where is he, with his sweet angels; and the gentle Sitting Bull, where is he? Crazy Horse is said to be dead; alas, we know that dead Indians more than any other known dead things crawl after death.

At Santa Fe, New Mexico, the epizootic has broke out amongst the horses and mules in a very malignant form. It is liable to spread, and it is more than likely that Arizona will come in for a share of this loathsome distemper.

Phillip Kohlheyer, the butcher, rigged up a two-horse spring wagon, and with another man, started day before yesterday for Maricopa and Pinal counties, partly in search of health, and partly to see if they can find a coal mine, of which Phil's companion has some knowledge.

Mr. Brill, of Wickenburg, unloaded a cargo of peaches, grapes, etc., this morning at the store of Bones & Spencer. Brill is about the most extensive fruit raiser this side of Salt River, in fact, the only one of any consequence, this season, owing to the ravages of frost in all the orchards this side of Wickenburg.

CALIFORNIA ELECTION.—The returns from the entire State decides the election in favor of the Democrats. The Senate is equally divided, standing 10 for each party, while the Assembly will be 53 Democrats to 27 Republicans, thus leaving it entirely with the Democrats to select a successor to Mr. Sargent. Let it be a good man, and all will be well. This time the Democrats got the oyster, and the Republicans the shell.

THE TIDE TURNED.

No Hope of Peace until the Turks are Completely Crushed.

CHICAGO Sept. 7.—The Times London special says that London was never so excited since the Russians crossed the Danube. The city is inundated with rumors of battles in every direction of the most sanguinary character, all asserting Russian successes. Only official reports can bring order out of the bloody chaos of events between the Danube and the Balkans. Plevna has been carried by storm after repeated desperate assaults, and indescribable carnage. The defeat of Mehemet and the utter route of the Turks outside of the Shumla and Rutschuk line are among the many contradictory and imperfect reports from the scene of operations. The occurrence of these events, and the imminence of others of equal importance, form an excuse for a renewed demand by the English press for putting an end to the war. The struggle has been so bloody, inflicting such enormous damage and suffering, that, if continued another year, it would be sure to ruin one or both of the belligerents, and drag other European nations into it. The press thinks it ought to be ended without further sacrafice. It is not that British interests are endangered by the probable Russian success, but the war should be ended for the sake of humanity. Frantic appeals to this effect form the burden of most of the Turkophile journals.

LONDON, Sept, 7.—The Russains have entirely dismantled Ardahan, which is now an open town. General Comroff has withdrawn his troops from the Ottoman body of the army, leaving only nine rifle battallions in the place.

Yuma Items.

The following items we copy from the Yuma Sentinel of the 8th inst, an unusually good number, by the way, considering the "old man" is absent on a trip through the counties of Pinal and Pima.

COL. C. G. MASON, of Silver King fame, arrived on the 5th from his protracted visit East. After resting a few days at Yuma he goes to his mining property in the Globe district. May his shadow never grow less.

A LOT of bullion arrived on Saturday from up river. From McCrackin, 446 pounds; Hardyville, 1191 pounds and from Eldorado Canyon 160 pounds. Total 1797 pounds, worth about $1,000 per 60 pounds, making nearly $29,000.

We are informed officially that hereafter regular boats will leave Yuma for Ehrenberg on the 1st. and 15th, of every month.

Notice.

To J. J. Johnson co-owner with the undersigned in that certain mining location or claim on the Doyle lode, in the Peck Mining district, in the County of Yavapai, Territory of Arizona, and located on the 11th of January 1877.

You are hereby notified that if you do not appear within ninety days from the date hereof and pay to B. C. Bain all of your proportion of the assessment and expenditure for the year 1877 as required by law the undersigned will claim a forfeiture of your interest in said mining claim according to the mining laws of the district and the mining laws now in force. B. C. BAIN.

Summons.

IN THE JUSTICE'S COURT OF HACKBERRY Precinct, County of Mohave, Territory of Arizona, before J. E. Stevens, Justice of the Peace.

MRS. C. BAKER, Plaintiff.
versus
JOHN M. WALLACE, Defendant.

The Territory of Arizona sends greeting to John M. Wallace.

You are hereby summoned to appear before me at my office in the town of Hackberry, in the County of Mohave and Territory of Arizona on the 15th day of November A. D. 1877, at 1 o'clock P. M. to answer to the complaint of the above named plaintiff who sues to recover the sum of two hundred and forty dollars principal money paid you on deposit together with ten per cent per annum interest thereon from the 27th day of August, 1876. In default of which judgment will be taken against you in the above named sum together with costs and damages. To the sheriff or any constable of Mohave county, Arizona Territory, make legal service and due return.

Given under my hand this 14th day of August A. D. 1877.

(L. S.) J. E. STEVENS, J. P.

It appearing from the Sheriff's certificate that the above named defendant is not in the county of Mohave and that his place of abode is unknown. It is hereby ordered that legal service of this summons be made by publication in the WEEKLY ARIZONA MINER. Witness my hand this 14th day of August, 1877.
