The Change of School Books.

The Arizona Territorial Board of Education has contracted with D. Appleton & Co., book publishers, New York, for an uniform system of text books for the schools of this Territory upon the following very favorable terms and conditions. The Board of Education accepts and adopts the Appleton series of school books for the use of the schools of Arizona, and authorizes D. Appleton & Co. to furnish the same at the prices named for a term of five years, from and after July 1, 1881. D. Appleton & Co. are bound by the contract to keep a supply of books at a reasonable number of places in the Territory for six months and allow pupils to exchange any old book now in use, whether of higher or lower grade, relating to the same study or subject, on payment of the sums in the column marked "exchange." Where a pupil has no book to exchange the prices for new books will be found in the column marked "Introductory." They also bind themselves to furnish books from San Francisco to all dealers in the Territory for the full term of five years, or as long as the books are in use, at no higher rates than those in the column marked "Wholesale." And will guarantee during the whole time that the retail prices shall be no higher than those in the column marked "Retail," or will mail the books, postage prepaid, from San Francisco on receipt of retail price. Books bought in New York will be subject to ten per cent discount from wholesale price.

Hit Us Again.

James, the Great, who rules over the letter department of the United States, is trying to make himself a name for honesty and retrenchment. Now we don't care a continental how honest he may wish to be, but we do object to his retrenchment programme when he proposes to deprive Northern Arizona of her daily mail, which he has ordered. The line from Matlococpato Prescott via Wickenburg has been reduced from a daily to three times a week. This is entirely unright, and those who were instrumental in recommending this change are likely to be remembered by our citizens. The route that the P. M. General has seen fit to reduce is the most important one in the Territory, and his order is suicidal in the extreme. The Capital of Arizona, the most important place in the Territory, is crippled by the recent order, and it now behooves our people to act and see if the thing can't be remedied. The Postmaster General has not only reduced the Wickenburg route, but also the route from Prescott to Mineral Park, etc., from a daily to three times a week. The service from Prescott to Bradshaw has been cut down from every other day to twice a week. It is all wrong, and we can't afford to stand by and see the thing go into effect. Where is Grant Gary, whom our people sent to Washington to look after our interests? Is he working for Northern Arizona or the South?

Lots of Wealth.

Milliken & Walters, three miles south of Prescott, are doing some telling work on a ledge they discovered about three months ago. The ore sent to the MINER is very beautiful, and shows considerable native and ruby silver. We hope they will become millionaires soon.

Mr. Barkus has shown us specimens of ore from his ledge, only two miles from Prescott, which assays into the hundreds. He has a mammoth vein which is producing beautiful ore. He has a shaft down 27 feet 8x8 feet, and still no walls have been found.

W. H. Ferguson exhibited to-day wondefully rich ore from his ledge, 3 miles south of the Hassayampa, which would make a poor printer rich if he could only get away with a few tons of the rare specimens. We intend visiting Ferguson's claim and our stealings would put a sheep thief to shame.

In the immediate vicinity of Prescott, during the last few days, have been discovered some very precious mining properties.

How Does It Look?

The following assays of ore from the Silver Belt were made on the 7th inst by Blake & Co:

No. 1 Assay	$ 180 85
No. 2 Silver	301 49
No. 3 Silver	5,454 85
No. 4 Silver	25,870 11

Yavapai sends the above as a challenge to any other county in the Territory.

Conkling is still rattling his dry bones trying to get back by main strength and awkwardness into the place he so willfully and wantonly abdicated a few weeks since. May he sink in his efforts should be the wish of every true Republican. No autocrat ruler is needed in America. The simple politicians for a free government is all that should be desired.

Mr. Nash of Tonto Basin has been in town for a few days on his ranch.

WORDS FROM THE ROCKS.

New District—Rich Mines.

TRINITY DISTRICT, June 4th, 1881.

ED. MINER:—At a meeting of the miners on the Trinity belt, held in the Trinity camp June 5th, a new district was formed, named the Trinity, and is bounded as follows:

Commencing at the junction of Pine and Blind Indian creeks, running thence northeasterly to Oliver Perry's house, on Turkey Creek, one-fourth of a mile below the old Bully Bueno mill, thence northerly to Pine Creek half a mile above the Peerless mine, thence easterly to Patterson's toll house, on Wolf Creek, thence south-easterly along the Peck road to Bear Creek, thence southerly up Bear Creek to Pine Creek, thence westerly along Pine to the junction of Blind Indian. The proceedings of the meeting will be sent to the MINER for publication shortly:

THE MINES OF TRINITY DISTRICT.

TUSCUMBIA—This mine is opened by shafts, drifts and tunnels in a thorough manner, and having a fine lot of high grade ore on the dumps. The company's mill, going up at Gus' Spring, will drop her stamps in a week or so. The Tuscumbia mill will be the finest mill in Yavapai County. James Mee, one of the owners, will have charge. Mr. Mee is an old, practical mill man, so that big things may be expected from the Tuscumbia mill. This company will sample and buy ores at the mill. Chloriders will have a chance they never had before to be honestly dealt with. The shriek of the steam whistle of the Tuscumbia mill will be the death knell of the talking experts and and self-stated metallurgist, the bane of the chlorider in all mining sections. This class of bilks, so long the curse of this mining region, will fold up their tents like the Arabs and silently move away, never to return.

TRINITY MINE.—Some two miles north, and on the same vein as the Tuscumbia, is the Trinity. In this location there are three strong veins showing good ore wherever opened. The cloud that hung over the title of this property, retarding its development and preventing a sale, has at last been happily removed. The owner, Mr. Simmons, has procured a patent for the mine and mill-site. This property is likely to change hands any day. The shaft, now being sunk on the west vein, is down 70 feet, the ore widening from the top down, showing 3 feet of good ore in the bottom of the shaft, on the foot wall. Three stratas of high grade ore, four and five inches wide, pitching towards the hanging wall, have left the shaft—the shaft being 4x6. This vein is 12 feet wide, with ore on both walls. The shaft will be sunk 100 feet, levels run on the vein and a cross-cut drove west to cut the ore body on the hanging wall. Sinking continues day and night.

SULTAN MINE.—Immediately north on the same vein as the Trinity is the Sultan. The shaft started on the east vein is down fourteen feet, showing two feet of good quartz in the bottom. This shaft will be sunk 50 feet. On the middle vein a shaft is 15 feet deep. Assays from these two shafts went over $600. The shaft on the west vein is down 35 feet, showing good ore. In the bottom the shaft is going down a foot a shift. This mine will be opened in a thorough manner.

KEY STONE.—Some 800 feet east of, and running parallel with the Trinity is the Key Stone location. The shaft now being sunk on the middle vein is down 18 feet; the ore vein is two feet wide in the bottom, six inches very high grade. The Key Stone is a splendid prospect.

KENDALL MINE.—One thousand feet east and running parallel with the Key Stone is the Kendall, lately purchased by Mr. Rushford. A drift running north from the main shaft is in high grade ore. One hundred feet south of the main shaft a tunnel is being run in on the vein, showing ten inches of high grade ore in the face. A shaft 60 feet deep had been sunk on this vein by the former owners. The shaft was sunk through the foot walls and country rock. A cross-cut will be driven west from this shaft to cut the ledge, when rich developments may be looked for. There is a fine lot of high grade ore on the dumps of the Kendall.

One mile north of the Kendall is the Peerless mine. There are two shafts on the Peerless, one of which is 100 feet, and the other 60 feet. There is nothing doing on the Peerless at present.

Still north of the Peerless, on the same vein, is the Alice. The owners are re-timbering the old shaft and will commence sinking soon.

IMPERIAL.—This mine is situated near the western boundary of the district and owned by Parry and Redding. A shaft 17 feet deep shows three feet of good quartz in the bottom. This mine bids fair to become one of the best in the district. The shaft will be rushed down as quick as giant powder and muscle can do it. All the ore in this district will be worked in the Tuscumbia mill. In my next letter I will give a description of the mines of Pine Flat.

ARRIVALS AND DEPARTURES.—Cross-cut George, Dolly Varden, Brandy Sours, the Limping Washboard, Wall-eyed Pool and the Roaring Bootjack, all well known miners of the Groom Creek section, arrived in camp yesterday on their way to the new diggings below the Vulture. They did not remain long in camp as they wanted to overtake Cocopah Joe and the Wooden Bombshell, who went around by the old Bully Bueno mill.

ROCKS.

Papers of incoporations were filed two days ago, with the proper persons in Prescott, for the building of two railroads. One from Prescott to St. George, Utah, and the other from Prescott, via San Francisco mountains and San Juan country, to Durango, in Colorado. The filers made no blow, but mean business to the bilt.

The new version throws no light upon the long and anxiously agitated question as to whether a rich man, who has gathered in his wealth in shrewd speculations, can get to heaven by endowing theological seminaries. But the managers of such institutions are unanimously of the opinion that the experiment is worth trying.

Thousands of dollars are taken from the people in Northern Arizona and their rights encroached upon by the cutting down of the mail service between Prescott and Maricopa. Who made the recommend?

The Kaiser and Prince are working in full force.

WASHINGTON NEWS.

WASHINGTON, June 7.—There is some talk about an anti-Republican combination to organize the next House. Randall is acting in it, but does not expect to be a candidate for speaker. Ladd, a staunch Greenbacker and Democrat, is struggling for the place. Ladd and the Greenbackers propose to carry Frye's election, and if the Democrats carry Morton's district, in New York, the loss would make a Republican minority. Conkling will go with his party if beaten for reelection, so as to prevent the administration from controlling the organization of the Senate through his friends.

Albany, N. Y., June 8.—The vote last night for Senators stood: Jacobs, 50; Conkling, 34; Rogers, 15; Bradley 1; Miller, 25; Cornwall, 19; and the balance scattering.

Hartford, Conn., June 8.—The parade in honor of the Veterans of the Army of the Potomac was successful. Gov. Bigelow and Staff, Secretary of War and Governors of Connecticut, Rhode Island, Pennsylvania and Maine were present.

San Francisco, June 8.—Victoria dispatches state that Senator Cornwall has been offered and accepted the position as Governor of the Province.

Arizona Mines.

The Mendivil mine at Silver District, is probably sold.

The Wheeler and Doran mill is about to start on Belcher ore.

M. A. Baldwin is reported to have paid $45,000 for the Iliik and Mowry mines, in Pioneer District.

The Eastland Company is at work, and preparations are already made for the most extensive operations.

Five tons of bullion were recently shipped by the Red Cloud Mining Company from the Silent mine.

The Red Cloud mine, of Silver district, is letting a contract to run 106 feet of drift south of the vertical shaft.

The Windsor mill is running steadily and will continue without interruption. The tailings give a very satisfactory return.

Mr. Caldwell, Superintendent of the Gunsight group of mines in the Mayers District, has arrived at the scene of his labor.

The American mine, owned by the Britton Bros., has a 50-foot shaft and a three-foot vein. The ore is copper and silver.

The Colorado mine in Pacheco Mining district has changed hands—consideration $10,000. R. J. Parmin of Philadelpeia is the purchaser.

The main shaft of the Silver King is down 712 feet to the new level, all the way in ore of the usual quality. We expect to announce richer developments than before on the next level.

It is now very well settled that the famous Dunn mine and group of four or five adjacent have been sold to General Craig and Dr. Logan of St. Joseph, Mo., who intend working for all there is in them.

John A. Miller of Grant county, New Mexico, has recently affected a sale of mining property in that county for $450,000. His share in the proceeds foots up to $100,000.

Scott rode fifty miles, in New Mexico, to oblige a friend by murdering Donovan. He found Donovan in a saloon, gained an introduction, and sat down to play an ostensibly amicable game of cards. But Donovan was an observant man, and he saw his companion was more excited than the game warranted; so he slyly drew his revolver and cocked it, and laid it across his knee under the table. Consequently when Scott cried: "I've come here to kill you," and attempted to shoot, he received a death wound instead of giving one.
