To the Owners and Persons interested in
Whaleships in the Pacific Ocean.

OFFICE OF THE PANAMA RAIL-ROAD COMPANY,
NEW YORK, July 20, 1857.

The Panama Rail-Road Company takes this method of informing those interested in the Whaling business, of the advantages offered by the Railroad across the Isthmus of Panama, for the shipment of Oil from the Pacific to the United States, and for sending outfits and supplies from the United States to Panama.

The Railroad has been in regular and successful operation for more than two years, and its capacity for the transportation of every description of merchandise, including Oil, Provisions, &c., has been fully tested. The attention of several Captains of whaleships has recently been turned to the subject of shipping their oil from Panama to New York during the present season, and the Panama Rail-Road Company has made arrangements to afford every facility which may be required for the accomplishment of this important object. A Pier, 450 feet long, has been built in the bay of Panama, to the end of which Freight Cars are run to receive cargoes from lighters or vessels lying alongside, and deliver the same alongside of vessels at Aspinwall. Vessels of from 200 to 300 tons can lie at the Pier with safety, grounding in the mud at low water.

The vessels to and from Aspinwall are fast-sailing brigs, belonging to the Rail-Road Company, and the Company is prepared to receive oil at Panama and deliver it in New York, under **through Bills of Lading** at the rate of seven cents per gallon, if received at the Pier, and eight cents per gallon if received in the harbor from ship's tackles, charging for the capacity of the casks, without allowing for wantage. For whalebone, one and one-half cents per pound. This charge covers every expense from Panama to New York, in case the oil is sent through the Superintendent or Commercial Agent of the Panama Rail-Road Company, insurance excepted. The freights may be made payable on the Isthmus or in New York at the option of the shipper.

The vessels of the Company sail regularly semi-monthly, and the average passages to and from Aspinwall are about twenty to twenty-five days. The time occupied in crossing the Isthmus is four hours. Oil, during its transit across the Isthmus, will be covered with canvas, or conveyed in covered cars, and owners may be assured that every care will be taken to prevent leakage. Several cargoes have already been conveyed to New York without the slightest loss.

Oil or other goods consigned for transportation to the Superintendent of the Panama Rail-Road Company, or to WILLIAM Nelson, Commercial Agent of the Company at Panama, will be received and forwarded with the greatest despatch.

☞ Frederic L. Hanks has been appointed Agent at Honolulu, Sandwich Islands, and is prepared to furnish every requisite information to shippers.

CAPT. ROBERT BROWN'S
WHALING GUN, PATENT BOMB LANCES AND GUN HARPOONS.

AFTER SEVERAL YEARS LABOR AND experimenting upon whales, on the whaling ground, with his apparatus, combined with the advantages of being a practical whaleman, the Patentee has been enabled to obtain an instrument in form of a Bomb Lance, which for utility and effectiveness cannot be excelled.

The attention of Agents and Officers of whale-ships is called to the following testimonials.

SAN FRANCISCO, January 10, 1856.

CAPT. R. BROWN—*Sir.* I take this opportunity to inform you that we used the Bomb Lances we bought of you, and found them to be of great benefit in capturing whales amongst the ice.

The first whale that we used the Bomb Lance on was killed in the following manner —The boat went alongside of the whale and the boat-steerer fired a Bomb into him and then fastened to him with a gig iron; the Bomb was heard to explode, and the whale did not blow after the Bomb exploded. The above-mentioned whale was in the ice, and it is our opinion that we should not have got that whale and many others that we did get, if it had not been for your Bomb Lances, and we fully recommend them to the attention of those fitting out whale ships.

Respectfully yours,
THOMAS WALL, Master bark *George.*

HONOLULU, March 17, 1856.

CAPT. ROBERT BROWN—*My dear Sir:* I used your Bomb Lances in taking a whale, north, the past season, which made 250 bbls. of oil. We never could have taken him without said Lances, as our boats could not get near enough to use the common hand lance.

Yours Respectfully,
G. L. COX, Master whale-ship *Magnolia.*

HONOLULU, March 15, 1856.

CAPT. ROBERT BROWN—*Dear Sir:* I take this opportunity to inform you that I used your Bombs on the voyage in the ship *Herald*, and found them effective in taking whales, and would recommend them to all whalemen, and especially around the Ice. I also used the harpoon and got most of the whales by your Guns and apparatus.

Yours Respectfully,
ISAAC ALLEN, Master ship *Herald.*

Other testimonials can be seen by calling on the undersigned, Agents, who have the Guns, Bomb Lances and Harpoons for sale.
14-tf R. COADY & CO., Honolulu.

Also fruits and vegetables of various kinds can be procured at all the above named ports.
☞ Wood always on hand at the beach in quantities to suit purchasers. (54-tf) GEORGE CHARMAN.

To Whalemen!
G. W. MACY would respectfully solicit the same patronage heretofore enjoyed by the old firm of Macy & Law, at the established Depot for Whalemen's Supplies, at Kaiwihae, Hawaii, where will be found at all times a good supply of **Beef, Mutton, Pork, Poultry,** and also the celebrated KAWAIHAE POTATOES.

The above articles can be furnished at the lowest rates, and in quicker time than at any other port at the Islands. All beef sold by me will be warranted to keep in any climate.
☞ No charge made on inter-island exchange.

☞ Right Whaleships cruising in the North or South Pacific, not in this list, by sending in their reports will be added to it.
