NEW ORLEANS:

THURSDAY MORNING, JUNE 13, 1850.

THIRD DISTRICT COURT—*Judge Kennedy.*—The Board of Liquidators have taken a rule for a new trial in the case of the Board *vs.* Municipality No. 1. The argument for a rehearing will be heard on Thursday next.

NOT GUILTY.—The trial of Patrick Desmond, Owen Conner and Edward Conner, charged with manslaughter in killing Dennis Hartogan, in February last, was concluded yesterday in the District Court of Jefferson. The Jury brought in a verdict of not guilty.

RUN OVER.—A warrant was issued yesterday for the arrest of James Norton, driver of cab No 227, charged with driving over Laurent Sens, on the 3d inst., at the corner of Chartres and St. Peter streets. Mr Sens was severely injured; his right arm was broken, and at the time he was picked up senseless from the pavement. Norton at the time was driving at full speed. The accused was taken into custody, and gave bail to appear.

BURGLARY.—George Hurdallo was brought before Recorder Genois yesterday on the charge of burglary. Mr. Jose. Linhard stated that a burglary was committed on the night of the 30th of April on his premises, in Ursulines street, between Conde and Royal streets; that two clocks, gems, silver plate, etc., were taken. Officer Boullosa, being sworn, stated in evidence that, from information received, he had good reason to believe a portion of the goods stolen were concealed in Elysian Fields street; that on searching the place occupied by Hurdallo he found the greater part of the property. Hurdallo gave bail to appear for further examination.

ROBBERY ON SHIPBOARD.—The cabin of the ship Athens was entered on Tuesday morning, and a Milan bronze dirk, a barometer and a revolver were stolen. Officer Boullosa arrested in a coffee-house, near the Vegetable Market, two boys, Dayy Jordan and James Alby, on suspicion of being concerned in the robbery. Alby was searched, and the bronze sheathed dirk was found in his pocket. The case of the barometer was also recovered. Yesterday the accused were brought before Recorder Genois, and committed to take their trial before the First District Court. Officer Youennes made an affidavit that the revolver and barometer, from information received, he believed, were secreted in a house in Gallatin street. A warrant was issued in the case.

FIRST DISTRICT COURT—*Judge Larue.*—The cases before this Court yesterday were as follows:

Patrick Grause, tried for swindling, and acquited.

Harry Manicot, tried on an indictment for an assault, with intent to kill, on the person of Paul Saval, found guilty of assault only.

Theodore Tobin, charged with larceny, found guilty, but recommended to the mercy of the Court.—

A *nolle prosequi* was entered in the case of Charles Etienger, accused of obtaining a gun under false pretences. Also, in the case of James Spence, *alias* Burns, and Jacob Strick, accused of larceny.

One or two unimportant cases of assault were disposed of.

SECOND MUNICIPALITY—*Recorder Caldwell.*—Albert Arbour, charged with harboring and concealing the slave Esther, belonging to Emile Laveré, was brought yesterday before this Court. About three months since the slave disappeared from Mr. Laveré's premises, at the corner of Esplanade and Rampart streets. On the sixth inst. she was found on board of the steamer G. W. Kendall, where she was arrested. At that time she was in charge of the accused, and was possessed of a certificate of her freedom, signed by James Nelson, Recorder of the city of Little Rock. The certificate was a good one, but it was made out in the case of some other woman. The accused pleaded not guilty, and was remanded for further examination.

John McMahon and Patrick McGovern, fugitives from the House of Refuge, were sent back to the place whence they came.

The case of Patrick Cosgrove and Michael Barry, charged by Jesse McHenry with having committed the crime of perjury, in the Fifth District Court, on the 6th instant, in the case of Barry *vs.* McHenry, occupied the Court during the sitting and will be continued to-day.

The Examination of Gen. Lopez—Before Commissioner Baldwin.

FOURTH DAY.

The examination was resumed yesterday. Gen. Henderson, L. J. Sigur and E. W. Moise, appeared for the defence. At the opening of the Court, Mr. Hunton, the U. S. District Attorney, addressed the Commissioner as follows:

"A matter, sir, of such grave importance as that which engages your attention, in which the honor of the nation is involved, I, of course, have been anxious, from the moment of the arrest, to have the aid of some gentleman of the bar, but until this morning I had no authority to engage such aid. I now have authority, and Mr. J. P. Benjamin will hereafter be associated with me in the conduct of the examination."

Mr. *Henderson.* Did the counsel say by what authority Mr. Benjamin was retained?

Mr. *Hunton.* No, sir, I did not. But if the gentleman is solicitous on that point, I will say it was by the authority of the Government.

Louis Dufourgs was then called for the prosecution and sworn.

Mr. *Hunton.* Are you an officer in the Custom House in New Orleans?

I am.

Do you know when the Creole cleared from this port?

Mr. Henderson objected. It must be proved by the clearance.

Mr. Hunton offered the certificate of the Deputy Collector showing the manifest of the "steamer Creole, Lewis, master, cleared hence for Chagres on the 7th May; cargo, tones, cot in bollast, passengers and their provisions."

Mr. Henderson objected. He said the certificate was signed by the Deputy. The original must be produced. The Deputy cannot certify to copies of originals in the Collector's Department.

The point was argued by Messrs. Hunton, Benjamin and Henderson.

The Commissioner said that he would receive the certificate in evidence; if, however, it should be shown that the Deputy Collector had no right to issue such certificate, he could exclude it.

A. GARCIA sworn.—Mr. *Hunton.* Were you employed at the arsenal, in this city, during the months of March, April and May?

Answer. I was, and have been for the year past.

Mr. Henderson asked the court to inform the witness that if he be in any way implicated in the expedition he need not criminate himself.

Mr. Hunton objected, because he considered the course a departure from the general rule.

The Commissioner said, that it was not for the counsel to object to testimony from the witness—it was for the witness to protect himself.

Are you aware that any arms or ammunition were shipped from the arsenal in the months of April or May?

There were some arms delivered, but I don't recollect the time and did not know where they were going.

To whom were they delivered?

A gentleman brought an order and took the boxes in a dray.

Was it in the day or at night?

It was in the day, about 4 o'clock, P. M.

About what time was this?

It was in the month of April; my duties kept me inside. The boxes of arms were received by Mr. Soria, the father-in-law of General Rowley, the Adjutant-General.

Who else was engaged in the delivery of the arms?

My brother, François Garcia the keeper of the arsenal.

Question by Mr. Benjamin. How long after you put those arms in the boxes, was it before they were called for?

They were put in boxes at 12 o'clock, and were carried off at 5 o'clock.

To whom were they?

Muskets, pistols and swords.

Was there any ammunition?

No.

How many were there?

Four hundred and fifty. The arms consisted of guns, pistols and swords.

Have those arms ever been returned to the arsenal?

No, they have not.

JACOB SORIA, sworn—Mr. *Hunton.*—Were you about the arsenal in the months of March and April?

I was there off and on.

Do you know anything about certain arms which were sent out of the Arsenal in the months of March and April last?

I have no knowledge of any arms sent out during those months. Previously there were requisitions for militia, and some arms were sent to the parishes. I was in hopes that my duty as assistant of the Adjutant has ceased since the office was removed to Baton Rouge.

By Mr. *Benjamin.*—Do you know General Lopez?

No. I have seen him only.

Do you know of your own knowledge of the departure of the Creole from New Orleans?

I do not—only from hearsay.

Where does General Rowley reside?

He now lives at Baton Rouge, but is here frequently. He is now in the city.

Do you know of any requisition made on the arsenal for arms in the months of last April or May?

I do not.

VICTOR KERR, sworn.—Do you know General Lopez?

I did; I am intimately acquainted with him.

Did you have any conversation with General Lopez at that time?

No, sir.

Mr. *Hunton.*—We are informed that you had held a certain conversation with General Lopez. We have nothing further to ask.

Mr. *Henderson.*—Did the counsel say who informed him?

Mr. *Hunton.*—No, sir, but for the gentleman's benefit, I will say it was not the Spanish Consul.

Col. J. B. WALTON, sworn—Mr. *Hunton.*—Do you know of any fact relating to an expedition got up for the purpose of invading Cuba?

Only, sir, by common report, which all the world knows—nothing more—merely conversations that I have heard on the street, in coffee-houses, etc.

J. M. MORAN, sworn.—Mr. *Hunton.*—Are you employed at the arsenal?

Yes.

Have you any knowledge of arms delivered from the arsenal in the months of March and April last?

We often deliver arms, but I cannot remember the day of the month.

Do you recollect any arms delivered put up in boxes?

I know we delivered some—there was a small quantity—I lowered them down from up stairs.

Who received them?

I cannot say. I was not down stairs. So many people come there, I cannot say who received them. It is the Adjutant-General's duty to be there every day, but I cannot recollect whether he was there at the time, for he is often replaced by his father-in-law, Mr. Soria. I came once down stairs to obtain a glass of water, but did not see the number of the drays, nor the names of the draymen. I did not see the order on which the arms were delivered. I received my instructions to pack up the arms from Mr. François Garcia, the guardian of the arsenal, but did not know their destination. Arms are frequently placed in boxes and sent to country battalions.

W. F. CRITTENDEN, sworn.—Mr. *Hunton.*—Have you any knowledge of preparations made in New Orleans for an expedition of a warlike character in March or April?

Mr. Moise objected, and argued the point.

Witness answered, that he did not know of any expedition at that time.

Have you been solicited to join any expedition?

I decline to answer, because I might incriminate myself.

Mr. Moise addressed the court, suggesting another form of conducting this investigation.

Mr. Hunton replied.

Mr. *Hunton.* Have you any knowledge of any preparation made in New Orleans for a military expedition in the months of March, April or May?

Objected to.

The Court ruled that it should be answered.

Answer. Of my own knowledge, I do not know of any preparation for a military expedition.

Were you solicited in New Orleans to join a military expedition to go against the Island of Cuba?

Objected to by the defence.

Mr. Hunton rejoined.

Mr. Benjamin addressed the Court. He asked the Commissioner to make a rule that would end the constant objections and arguments of the defence. The question now this testimony was to be taken should be decided at once. Mr. B. spoke for some time with his accustomed ability.

The question was then put by the Court.

The witness returned an answer in the negative.

Mr. *Hunton.* Have you heard of any military expedition?

I have, at various times.

Did you hear of it from any person concerned in the expedition?

I do not know of my own knowledge who were concerned here in preparing for an expedition.

Have you any knowledge that any persons were concerned here in preparing for an expedition?

I arrived in New Orleans after the expedition was said to have sailed. I was in New Orleans previous to this, and returned to Kentucky.

JOHN HENDERSON, Jr., sworn—Mr. *Hunton.* Do you know Gen. Lopez?

I do, sir.

How long have you known him?

I have known him several months. I became acquainted with him in New Orleans.

Do you know any facts relative to Gen. Lopez providing or furnishing means for an expedition to Cuba?

I cannot answer without criminating myself.

Mr. *Benjamin.* When did Gen. Lopez leave New Orleans?

In the early part of May.

What day?

I am not certain what day.

Did he leave by land or water?

By water.

By the Mississippi River, or the Lake?

By the Mississippi.

Did he proceed up or down stream?

Down stream.

Did he leave in a ship or steamer?

I believe it was a steamer.

Were there any passengers on that steamer besides Gen. Lopez?

I decline to answer.

What was the name of the steamer?

I decline answering.

Objection sustained by the Court, on the ground that the vessel might be found to belong to the witness.

Are you the owner of any ship or vessel?

Objected to.

Mr. Henderson said he could not give a link to criminate himself.

Did you see Gen. Lopez when he started?

I can't say positively he left the city, but I have every reason to believe that he did leave.

Have you had any interview with Gen. Lopez since his return?

I have had conversations with him.

In these conversations, have you heard him say any thing in relation to a military expedition against Cuba?

I am my father's partner, and wish to be excused from answering, as counsel for the defendant.

Have you ever heard him speak to other persons any thing relative to the Island of Cuba?

Yes, sir.

Before Gen. Lopez left New Orleans did you hear any thing of his going there?

I can't answer that.

When did the Creole leave?

I can't answer that question without involving myself.

Have you any reason to suppose that Gen. Lopez left in the night, and if so what are they?

I cannot say.

FRANCOIS GARCIA sworn (in French, interpreted by Mr. Benjamin): I have been Guardian of the Arsenal since the inauguration of Governor Walker. I delivered arms put up in boxes in the latter part of April, or the beginning of May last consisting of guns, pistols and sabres. I delivered no powder or balls. I can't remember the exact date of said delivery. I delivered them by order of Adjutant General Charles N. Rowley, the order coming from him personally—it was not to deliver the arms, but to pack and put them down. I was the father-in-law of Gen. Rowley, Mr. Jacob Soria, who delivered them. I was present when the arms were delivered. They were given to a colored man who came there several drays, on which they were sent. The arms were 200 guns, 60 pairs of pistols, and 120 to 140 sabres. Mr. Soria was present while they were delivering the arms on the drays. No strangers were there. I do not know the numbers of the guns. I am in the habit of keeping the daily receipts for arms—this is the business of the General. I know the person who took the arms of Soria—father and son. The son is named Robert, a young man of 18 years old. I am certain Mr. Soria was there to superintend the delivery of these arms. He was present at the beginning, while the drays were there, and gave orders for it. I do not know where those arms went.

Mr. *Moise* (to the counsel for the prosecution). Are you willing to impeach your own witness?

Mr. *Benjamin.* We are trying to get the truth, and if it is to shown that a witness has prepared himself he will be prosecuted for it.

Cross-examined by Mr. Sigur. It happens frequently that the Adjutant General has orders from the arsenal in the country, they are packed in boxes before being sent off.

Digest, resumed. I have a memorandum book, by which I can give the exact date of the delivery of the arms.

SIMON MAURY sworn: I am the Blacksmith at the Arsenal, but was not present when the arms were delivered.

Other witnesses were called, but not answering, attachments were issued for them.

Mr. Hunton moved that the Court adjourn until 10 o'clock today.

Mr. Noise made some remarks relative to the delay of the prosecution in obtaining evidence, and hoped that the Commissioner would adopt a rule that would govern counsel, and tender big the examination into proper limits.

Mr. Hunton said that he should do all that he could to expedite the proceedings, but when he should find it necessary to summon witnesses, he should continue to do so, if the investigation last till Christmas.

Mr. Sigur joined, asserting the rights of his client, and protesting against delay. He had no doubt, that if allowed to go on, the learnt Attorney would extend the trial, perhaps not only till the end of the year, but until the end of the present Administration. (This elicited applause from the audience.)

Mr. Henderson followed, speaking with much zeal and warmth, on the same subject, and receiving at the close another round of applause.

Mr. Hunton rejoined. He reviewed the course of the defence, and insighed bitterly upon the attempt made to evade the facts. He was determined, if possible, to maintain the supremacy of the laws, and he gave the counsel to understand that hushed upon the defendant to be held to answer until testimony warranted, if it had to be obtained even at Cadenas. Mr. Hutton still continued his remarks, and after further replies from the counsel, the Court adjourned until this morning at 10 o'.

The Comet discovered on the 1st of May, by Dr. Peterson, of Altona, was observed at Washington on the night of the 2d inst., by Mr. Ferguson, with the cynatonal. It is without a tail.

MURDER.—Information has been received at the State Department from John Parrott, Esq., late United States Consul at Mazatlan, Mexico, of the murder on the 12th of March last, of Dr. Richard Thompson, supposed to be from the State of New York, while on the road from the city of Durango to that port.

A great whig meeting was held in Philadelphia on the 3d inst., the Hon. J. R. Ingersoll presiding; at which resolutions of approval of Governor Johnston's conduct with reference to the appropriation bill introduced at the last session of the Pennsylvania Legislature were passed. A Committee of fifty citizens was appointed to invite the President to visit Philadelphia at such time this summer or fall as may be consistent with his public duties.

CUBA AFFAIRS IN NEW YORK.—The Grand Jury of the U. S. District in New York, have handed in the following paper:

"The Grand Jury, under instructions of the Court, have instituted an investigation as to the hostile invasion of the island of Cuba, and have directed me to state to the Court that in their opinion sufficient evidence had not been presented to authorize the indictment of any person or persons for criminal violation of the laws of the United States within this district."

The Jury was accordingly discharged for the term.

INTERESTING FROM PORTO RICO.—The New York Herald of the 4th inst. says:

Owing to the just complaints of the American Consul at Mayaguez against the Captain of the Port in reference to the American Captain and crew of the schooner North Carolina, wrecked off Cpo-rofo Point a short time since, a commission was sent from St. John's, Porto Rico, by order of the Captain General of Marine at Havana, to take command from said Captain of the Port, and to commence legal proceedings against him, to investigate the matter. We are pleased to see that the Spanish authorities have been prompt to do justice to the American citizens in this affair.

OREGON.—The Oregon Spectator of February 21st says: "The sun is getting above our horizon and the day brightens. It will be seen that arrangements are being made to run a steamer regularly between this place and San Francisco; and also for the establishment of the post office system in this Territory."

GOLD DUST FROM AFRICA.—The Salem (Mass.) Gazette announces the arrival of three vessels at that port, each of which brought a considerable amount of gold dust from the continent of Africa.

Further Foreign News by the America.

ENGLAND.

The effect of the withdrawal of the French Embassador, produced a sensible effect in the funds, but they soon rallied and the belief was general that the movement on the part of France was a mere ruse of ministers to enable them to carry the new Electoral Law.

Circulation has been given to an insulting note from Russia, addressed to Lord Palmerston, condemning in strong terms the policy of the English Government in regard to the Greek question. The concluding sentence of the note is as follows:

"As the manner in which Lord Palmerston understands the protection due to English subjects in foreign countries, carries with it such serious inconvenience, Russia and Austria will not, henceforth, grant the liberty of residence to English subjects, except on condition of renouncing the protection of their government."

FRANCE.

Under the date of Paris, Thursday evening, the London Times, in allusion to the difficulty with England, says that Lord Palmerston's offer of compromise has been rejected by the French Government, and at a Cabinet Council the President of the Republic declared that the acceptance of any other condition than the pure and simple execution of the Convention of London, was not consistent with the dignity of France, and to none other would he consent.

The ministers unanimously approved of the conditions, and expressed their intention to adhere to and adopt them.

From the manufacturing districts, the accounts are satisfactory.

The news from India and China has had a favorable tendency, and has imparted increased firmness.

PRUSSIA.

An attempted assassination of the King of Prussia has created a great sensation throughout Europe. The attempt was made at Potsdam, by a sergeant of artillery, who fired a pistol at his Majesty, and inflicted a wound in the right arm.

COUNTERFEITERS ARRESTED.—The Police of Philadelphia have succeeded in breaking up a dangerous gang of counterfeiters. The North American says that seven persons have been arrested, and several thousand dollars of spurious bills, on different banks of Philadelphia and elsewhere, together with a large amount of well executed counterfeit dollars, half dollars, quarters, and dimes, recovered. The plates of the spurious notes, and the machinery for manufacturing the counterfeit money, have also been seized.
