Life appears to me too short to be spent in nursing animosity or registering wrongs. We are and must be, one and all, burdened with faults in this world; but the time will soon come when we shall put them off in putting off corruptible bodies; when debasement and sin will fall from us with this cumbrous frame of flesh, and only the spark will remain—the impalpable principle of life and thought, pure as when it left the Creator to inspire the creature; whence it came it will return, perhaps to pass through gradations of glory, from the pale human soul to brighten to the seraph..... It is a creed in which I delight, to which I cling. It makes eternity a rest, a mighty home, not a terror and an abyss. Besides, with this creed, revenge never worries my heart, degradation never too deeply disgusts me, injustice never crushes me too low. I live in calm, looking to the end.—Charlotte Bronte.

Ballard's Horehound Syrup is not a mixture of stomach destroying drugs, but is a scientifically prepared remedy that cures coughs and colds, and all throat and lung troubles. Its action is quick, prompt and positive. 25 and 50c at Jones & Gibson. 2

Papers should be laid flat not folded, and sent immediately to the superintendent.

Papers should be legal cap size and it is preferred that a part or all of the work be written with pen and ink and on only one side of paper.

Pupils should furnish pens, ink, pencils, etc. Paper will be furnished teachers who call around at this office for it.

An average grade of 80 per cent will be required and 60 per cent will be the lowest allowed. This is positive.

A great deal depends upon the plain, legible writing, neatness, punctuation, spelling, etc.

Diplomas will be presented to those graduates who prepare and recite compositions of 500 or more words. The time and place of these exercises will be selected later and all teachers, parents, school officers and former graduates are invited to assist.
