LAWN SPRINKLERS!
will do well to look at the
ARC

Five Good Reasons why this is the best sprinkler to buy.

First. It will sprinkle a surface from four to forty feet in diameter according to the water pressure.

Second. It is the only machine ever invented that will sprinkle water in a half circle, thus preventing the wetting of walks while thoroughly sprinkling the lawn.

Third. It can be changed from a circle to a half circle or vice versa in five seconds.

Fourth. It distributes the water over the entire surface equally, wasting none around the base of the machine.

Fifth. It will not clog up.
