Mr. Radcliffe is a members of a large firm of pork packers. His concern stands A1 in the Northwest and practically controls the business in that section. FOR TRUTH.

Facts Presented in a Comment on Some Jingo.

EDITOR STAR:—With a want of fairness, and a disingenuousness not unknown to the columns of the *Advertiser*, it makes among others the following remarks on the recent speech of Lord Salisbury—It says "*After* giving a sharp reply to Secretary Olney, fitting out a flying squadron to set the hearts of all the nations quaking," Lord Salisbury "comes *suddenly* to the opinion * * * that the Monroe doctrine is after all a very proper idea." The fairness and truthfulness of these words quoted from the brilliant and masterly exposition of the British premier's fears, motives, words and actions in this morning's *Advertiser* can be judged by recalling the fact that, towards the end of last year Lord Salisbury in a dispatch to Sir J. Pauncefote used these words: "In the remarks which I have made I have argued on the theory that the Monroe doctrine in itself is sound." In the very speach itself that the "leading journal" does the British premier the honor of noticing and commenting upon, Lord Salisbury says: "My dispatch to Mr. Olney, the Secretary of State of the United States, supported it (the Monroe doctrine) as a rule of policy in the strongest and most distinct terms." This three months *before* the fitting out of the flying squadron "intended to set the hearts of all nations quaking."

Allow me, sir, to commend to the notice of the *Advertiser* certain words of Lowell's. He says: "Truth is quite beyond the reach of satire. There is so brave a simplicity in her, that she can no more be made ridiculous than an oak or a pine."

I am, sir, yours obediently,

GRAPPLED BY A SQUID.

TWO BOYS STRUGGLE IN THE ARMS OF A MONSTER.

It Was Looking for Game—At Waikiki—An Experience for the Lads.

Arthur Harris and a Portuguese boy had a most remarkable experience at Waikiki, Sunday afternoon. They were bathing just off the end of a pier. All at once the Portuguese was seized by a huge squid, the monster wrapping one of its arms around the boy's leg. Harris sprang to the rescue when the squid turned upon him in a violent manner. An arm was thrown around one of the boy's legs and another around the elbow, striking the body. With a third arm the monster dealt the boy a stinging blow across the face, causing the right cheek to swell and leaving a gash behind the ear.

The boys struggled all of two minutes with the octopus. At one time Harris was drawn under the water, but continued the fight bravely and soon rose again. The squid had evidently fastened itself to the pier, as the boys, while entangled with its arms, could not move it away. When they pulled in opposite directions, the squid let the Portuguese go, and then turned upon Harris who freed himself by a hard struggle. This is the first instance in a long while of a squid showing fight to anyone.

DIMOND'S NEW STORE.

OPENED FOR THE FIRST TIME THIS MORNING.

Handsome Place of Business Stocked With Useful Goods—Description of Place.

W. W. Dimond's new store in the Von Holt block was opened for the first time this morning and was visited by a large number of people during the day. It is a handsome business house; well appointed and in every way is suitable for the purposes for which it was built.

The lower floor has a frontage of 35 feet and measures 75 to the rear wall. The two handsome plate glass windows are inviting; they are both tastefully filled with goods—one with crockery, glassware and tableware; the other with general shelf hardware. The first floor contains thousands of samples of goods carried in stock. The second story is used for a wareroom. The cellar is large and dry; the stock is carried here. An electric elevator runs from the cellar to the second story. New ideas abound in the new store.

As to the stock of goods, Mr. Dimond says: "We carry everything but drugs, groceries and dry goods." His statement is correct, for most anything under the sun can be found in his store. Novelties in household utensils is one feature; crockery, glassware, tableware and cutlery are others. One special line of ware comes from France; it is manufactured by A. Lanternari, of Limoge, and consists of breakfast, dinner, tea and fish sets in fourteen different patterns. Limoge vases are carried also.

Mr. Dimond handles the Detroit Stove Works Jewel stoves and ranges. They come in many different sizes. The new store has the exclusive handling of the products of the Monmouth Pottery Works of Illinois. They manufacture crocks, churns, bean pots and every other line of pottery work. A line of general shelf hardware is carried which includes all the latest novelties. It would take two columns of THE STAR to mention everything in the store.

Mr. Dimond wishes the public to understand that people from all walks of life can be suited as to prices. The goods range from very low prices to the expensive. His line of cheap-price crockery will be a surprise to housekeepers. The new store is a welcome addition in local business circles.

PERSONAL.

Dr. McLennan underwent a final operation this forenoon, consisting of dressing the wound from Friday's operation. At 2 o'clock the surgeons report that for such a critical case the patient is doing as well as could be desired.

J. T. Waterhouse.

J. T. Waterhouse rested fairly well last night and is better today. The trouble with him is neuralgia of the muscles. The region of the stomach is most afflicted. As the ailment is not necessarily a serious one, he will doubtless be out again in a few days.

ACCOUNT OF THE PRACTICE SHOOT OF THE NATIONALS.

If They Did No Better in the Contest They Certainly Lost—Individual Scores.

On February 2d, a week before they were to shoot the match with Hawaii, the Nationals of San Francisco had a practice meet, of which a "city" paper gives the following account:

"Companies C and G (Nationals) held their first practice shoot at Shell Mound Park yesterday afternoon. There were to be fifty contestants, but not all who promised to participate appeared in time to try for a place on the team. The most successful are to form the rifle team which will meet the Hawaiian National Rifle Company at Shell Mound either next Sunday or the Sunday following.

The shooting yesterday was excellent on the whole, though some of the scores made did not come up to expectations. The score is as follows: T. McGilvery 31, V. R. Barry 40, E. C. Sutler 43, P. M. Diers 42, C. G. Larsen 41, L. A. Ramus 38, P. A. Larsen 35, M. A. Fremend 30, J. F. Norton 42, C. Meyer 44, W. F. Unfred 41, Holcomb 35, V. F. Northrup 39, J. A. Christie 37, J. W. Dumbrell 25, C. Clifford 20, J. B. Barlicklo 41, C. P. Hirst 32, G. J. Petty 35, W. N. Swasey 36, W. L. Fenn 41, A. E. Anderson 38, A. H. Kennedy 42, A. R. Vaughn 44, C. E. Macy 39, B. Kelly 32, P. D. Butts 40, C. Lods 39, Jacques 29, F. Sherman 39, H. T. Hicks 42, J. Ritter 47, C. E. Walthan 42, C. E. Thompson 43, J. Smithson 46, J. Ross 36, M. Layne 40, Brandon 28.

This was a total of 1365 for 36 men, an average of 37 9-10. At this gait of course the Nationals could scarcely hope to win.

Garden Hats.

Garden hats at half price at Mrs. Hanna's, Fort street.

Oahu Scenery.

Manager Dillingham took J. J. Williams down the railroad Saturday to enable him to get a number of good views on the line specially for the "Republic of the Pacific," Prof. Musick's coming book. "The Republic of the Pacific" will contain a special chapter entitled "Scenes along the Oahu Railway" in which the views taken Saturday will appear.

BALLOONIST.

Prof. Price Will Attempt Some Parachute Drops.

Prof. Price, a celebrated aeronaut, arrived Sunday afternoon per the Miowera, from Sydney. He is an American, born in Springfield, Ill. For the past six years he has been traveling, and has visited everywhere except Chiegmai, Burmah. A few months ago he was in Johannesburg, Transvaal. There he let himself down in a lake, the first time he ever failed to land squarely on terra firma.

Prof. Price's speciality is his parachute descents from great heights. He will attempt this twice in Honolulu. The territory being so narrow between the mountains and the sea, the plunge will not be easy. The Professor thinks, however, he will be able to land safely.

"Nothing Succeeds Like Success."

In these record-breaking days, is it at all strange that we should be putting fresh life into every part of this store? The reach is ever better and better, so is the equipment, so is the stock, and the results speak for themselves. Ladies realize the fact, that they can get more for their money, and better qualities at L. B. Kerr's than at any other store in the city.

To Chinese Ladies.

The Women's Board of Missions will give a reception to the Chinese ladies of the city tomorrow afternoon, Feb. 18th, at 2 o'clock. The members of this Board and any other ladies, who may be interested, are cordially invited to be present.

THE REGIMENT.

No Sham Battle—Captain White's 43—Notes.

There is a standing reward for a kahuna that will lift Capt. White from the 43 ring in a match shoot. He has made that score in the last three matches.

Company H will have drill this evening. The presence of every member is urged by Capt. Murray.

The battalions will not drill this week.

D Company will hold a meeting Wednesday evening for the election of members and transaction of business and drill.

The sham battle purposed for next Saturday will hardly take place, as many of the volunteers cannot get away from business.

Matter of Hall.

The city members of the Legislature and other island representatives already in town are having a meeting at the Executive Building this afternoon. The matter of hall for the Senate is being considered. There is division on the question of the upper house occupying its old quarters and opposition to having the bodies in separate buildings. Some decision will probably be reached today. One proposal is to use the hall upstairs in the the Executive Bullding. Another is to enlarge one of the offices on that floor by removing a partition.

Home and Abroad.

It is the duty of everyone, whether at home or traveling for pleasure or business, to equip himself with the remedy which will keep up a length and prevent illness, and cure such ailments as are liable to come upon all in every day life. Hood's Sarsaparilla keeps the blood pure and less liable to absorb the germs of disease.

Hood's Pills are hand made, and perfect in proportion and appearance. 25c. per box.

Miowera Engines.

Mr. Bell, Superintending Engineer of the Canadian-Australian line was a through passenger on the SS. Miowera yesterday evening. It is Mr. Bell's intention to make the round trip on the Miowera to make a personal examination of the workings of the steamer's machinery. It is believed that the strain on the Miowera's engines while towing the Strathnevis has injured her somewhat.

Claudine Preparing for Speedier Runs—Looking for Deep Water—Miowera—Front Notes.

The bark C. D. Bryant is empty of her ballast.

The schooner Carrier Dove brought 1176 tons of Newcastle coal.

The SS. Australia will be due from the Coast on Friday, the 21st inst.

The steamer Waialeale goes to Lahaina and Honuapo this afternoon.

The steamer Kaala leaves on a circuit of the island at 4 o'clock this afternoon.

The steamer Kinau from Maui and Hawaii will be due tomorrow afternoon.

The SS. Kahului is back at the Pacific Mail wharf taking out the last of her coal.

The bark Martha Davis finished discharging today and hauled out to receive sugar.

The steamer W. G. Hall will leave for windward Hawaii at 10 o'clock tomorrow morning.

The barkentine Irmgard will get away about the end of the week. She is at the Kinau wharf receiving sugar.

The Claudine is on the marine railway being cleaned. She will leave for Maui on schedule time tomorrow.

The schooner Kauikeaouli arrived from Kohalalele yesterday evening with 1866 bags of No. 2 sugar for the ship W. F. Babcock.

It is not unlikely that the W. F. Babcock will finish loading at the Pacific Mail wharf, that part of the harbor being about the deepest.

The ship Dirigo will be due in about a week from San Francisco to load with the New York fleet. The vessel is said to be a handsome one.

The steamer Mokolii will not leave until tomorrow evening for ports on Molokai. Captain Alex. McGregor is still under the weather.

The Japanese immigrant steamer Gaisen Maru, meaning Triumph, is two days behind time. The supposition is she is coming under sail to save coal.

The SS. Altmore will be due from Portland, Or., next week, and will have quick despatch for Yokohama and Hongkong. T. H. Davis & Co. are the agents.

The machinery for two steam plows for the Lahaina plantation was landed from the bark Paul Isenberg today. Some or the pieces weighed in the neighborhood of seven tons.

The barkentine W. H. Dimond hove down to the Pacific Mail wharf today. She will leave for San Francisco tomorrow. Captain Nilson has made several wagers that his vessel will beat the brigantine W. G. Irwin into San Francisco. The Irwin leaves the same awaited with interest.

The island boats brought during Saturday and Sunday 45,525 bags of sugar from the other islands. The bulk is going on the ship W. F. Babcock and the Oceanic Steamship Co.'s dock. The scene about the Oceanic wharf today was a lively one, an extra number of dock laborers having to be employed. Plenty work, and the "men of brawn" are happy.

The Canadian-Australian steamer Miowera, Captain Stott, arrived yesterday afternoon, 16 days from Sydney, via Suva, Fiji. The Miowera left Sydney on Jan. 25, and when about one hundred miles off Sydney Heads, the fan attachment in the engine room ceased operations, the machinery having broken. She steamed back and remained until Feb. 1st, when a second and more fortunate departure was made. While the Miowera was in port Yachting day was being celebrated, but for four days none of the crew were allowed any liberty. Suva was reached on the 7th inst. The Warrimoo was passed on the 5th. Head winds all the way. She brought two passengers for Honolulu and took away a quantity of wool. The Miowera sailed for Victoria at 10 p. m. Sunday.
