A RETIRED PHYSICIAN

Whose sands of life have nearly run out, discovered while in the East Indies, a certain cure for Consumption, Asthma, Bronchitis, Coughs, Colds and general debility. The remedy was discovered by him when his only child, a daughter, was given up to die. He had heard much of the wonderful restorative and healing qualities of preparations made from the East India hemp, and the thought occurred to him that he might make a remedy for his child. He studied hard and succeeded in realizing his wishes. His child was cured and is now alive and well. He has since administered the wonderful remedy to thousands of sufferers in all parts of the world and he has never failed to make them completely healthy and happy. Wishing to do as much good as possible, he will send to such of his afflicted fellow beings as request it, the receipt with full and explicit directions for making it up, and successfully using it. He requires each applicant to inclose him one shilling—three cents to defray the postage on the receipt, and the remainder to be applied to the payment this advertisement. Address
Dr. H. JAMES, No. 19 Grand st.,
Jersey City, N. J.
N. B. Dr. H. James has neither office nor agent in New York, as some have pretended and advertised. The receipt is sent from no place but No 19 Grand street Jersey City, New Jersey.

CHOICE FARM LANDS FOR SALE
THE ILLINOIS CENTRAL R. R. CO.
IS NOW PREPARED TO SELL ABOUT
1,500,000 ACRES OF CHOICE
FARMING LANDS,
On Long Credits and at Low Rates of Interest.

THESE Lands were granted by the Government to aid in the construction of this Road, and are among the richest and the most fertile in the world.—They extend Northeast and Northwest, through the middle of the State, to the extreme South, and include every variety of climate and productions found between these parallels of latitude. The Northern portion is chiefly prairie, interspersed with fine groves, and in the middle and Southern section timber predominates, alternating with beautiful prairies and openings.
The climate is more healthy, mild and equable than any other part of the country—the air is pure and bracing, while living streams and springs of excellent water abound.
Bituminous coal is extensively mined, and supplies a cheap and desirable fuel, being furnished at many points at 62½ to $1 per ton—and wood can be had at the same rate per cord.
Building stone of excellent quality also abounds, which can be procured for little more than the expense of transportation.
The great fertility of these lands, which are a black rich mould from two to five feet deep, and gentle rolling—their contiguity to this road, by which every facility is furnished for travel and transportation to the principal markets North, South, East, West and the economy with which they can be cultivated, render them the most valuable investment that can be found; and present the most favorable opportunity, for persons of industrious habits and small means, to acquire a comfortable independence in a few years.
Chicago is now the greatest grain market in the world—and the facility and economy
