DR. ALVAREZ LIKES MEXICO

WELL KNOWN PHYSICIAN BACK IN HONOLULU AFTER AN ABSENCE OF THREE YEARS.

Dr. L. F. Alvarez formerly of this city but who has been a resident of Cananea, Sonora, Mexico, was an arrival by the S. S. Sierra this morning. He was government analyst here and had also an extensive practice but he seems to have fallen in love with Mexico as even the charms of Hawaii cannot tempt him to remain more than a few months. He is with the Green Consolidated Copper Company there and Dr. W. J. Galbraith also well known here is with the same company.

"It's three years since I left Honolulu," he said this morning "and I'm glad to see old acquaintances again but I will return to Mexico when I get certain business matters straightened up. I may be here for three months or so."

The doctor describes the city of Cananea, his present residence, as a busy place of 20,000 people. It is situated about 40 miles from the United States border.

would add nothing to its permanence for the future. If, by a general political upheavel, a Democratic majority should be returned in any succeeding Congress, and they chose to repeal this legislation in favor of Hawaii, they would never stop to ask whether it was a part of the organic act or not. All legislation by Congress is on an absolute equality, and one form of act can be as readily repealed as another.

I am still engaged on the preliminary work leading up to the Committee hearing on the Revenue measure, so that the work can be pressed rapidly upon the arrival of the delegation from Honolulu. I have secured the date for the hearing before the House Committee for February 3rd, and have also arranged with Senator Foraker to have a hearing before his Committee as soon as the House Committee hearing is completed. I am also arranging for hearings before the Sub-committee of the House Committee on Appropriation, in regard to fortifications and legislative expenses, and an appropriation for an agricultural school for Hawaii.

MOLOKAN MISSION A SUCCESS

(Continued from page one).

then on a twenty-one year lease with the privilege of purchase after five years occupancy. I cannot say exactly when the first batch will arrive but, a steamer—either the Olympia or Olympic—now on Puget Sound, has been chartered and will sail from San Pedro Cal. on or about February 7. How many will come in the first batch I do not know, but probably about 300 or 400.

"Our dealing with the Molokans has been entirely satisfactory and as a result negotiations were opened with the people by George Ross in order to get a number of them, 300 or so, to go to the Hakalau plantation. The plantation will pay the expenses of a committee of five to come here and look into matters.

"There are in all some 2200 Molokans in Southern California and they tell me that there are any number more in Russia who would be glad to come if matters turn out satisfactorily. So far I think I am safe in saying that the mission has proved successful and I think that the planting of the Molokan settlement will prove a benefit to the territory generally."
