M'KEE UP IN COURT

Illness of Mabel Dunham May Delay the Trial.

AGAIN PLEADED NOT GUILTY

An Attempt to Quash Promptly Ruled Out—Judge Grove Is Ill—Court Routine.

James J. McKee was arraigned before Judge Grove yesterday morning, and his attorney made another attempt to get McKee off on a technicality. He made a motion to quash, and Judge Grove promptly denied it. McKee pleaded not guilty, and will be tried soon. There is a hitch in the program, on account of the alleged illness of Mabel Dunham, the girl who invited Charlotte Handley to take a ride with McKee and Remington. The people desire that all witnesses be brought before the jury, so that they may judge better of the testimony. If the case goes to trial and Mabel Dunham is ill so she cannot be sworn, her testimony in the lower court will have to be read to the jury. Judge Grove was not able to work yesterday afternoon, and the case may be held over on that account.

Asking Advice From the Court.

The petition filed in the United States court by the Michigan Trust company a few days ago as receiver for Nelson, Matter & Co., asking instructions from the court as to the plan to be pursued in closing out the company's business, was informally discussed in court by the attorneys yesterday morning. Messrs. Crane and Wanty, attorneys for the company, argued in favor of selling the assets in a lump to the highest bidder, and Smiley, Smith & Stevens, attorneys for the unsecured creditors, argued in support of a proposition to continue the the retail department for some time, in order to realize as much as possible from the stock on hand. Judge Severens was not prepared to give any instructions to the petitioner yesterday, and the arguments will be continued by the attorneys this morning. The court desires to investigate the condition of things a little further before a plan is adopted for closing out the business.

No Warrant Out.

Assistant Prosecuting Attorney Burns says there is no warrant out for John Ran. He says the case was called to his attention, but he discovered that the crime was committed in Allegan county. Ran is the author of the ruin of the little 14-year-old girl who became a mother at the U. B. A. hospital on Thanksgiving day. The parents of the parties reside near the county line, near the village of North Dorr.

Out in a Blizzard.

Mr. J. P. Blaize, an extensive real estate dealer in Des Moines, Iowa, narrowly escaped one of the severest attacks of pneumonia while in the northern part of that state during a recent blizzard, says the Saturday Review. Mr. Blaize had occasion to drive several miles during the storm and was so thoroughly chilled that he was unable to get warm, and inside of an hour after his return he was threatened with a severe case of pneumonia or lung fever. Mr. Blaize sent to the nearest drug store and got a bottle of Chamberlain's Cough Remedy, of which he had often heard, and took a number of large doses. He says the effect was wonderful and in a short time he was breathing quite easily. He kept on taking the medicine and the next day was able to come to Des Moines. Mr. Blaize regards his cure as simply wonderful. For sale by Peck Bros., druggists, 129 and 131 Monroe street, and F. J. Wurzburg, 58 Monroe street.

DO NOT SUFFER

From Catarrh or Kindred Troubles When Dr. Rankin's System of Home Treatment Will Cure You.

Many persons in the country are suffering from catarrh, bronchitis, asthma and other allied diseases because they think they will have to come to the city for treatment. This is not the case, as Dr. Rankin has perfected a system of treatment that can be taken at your homes. By writing to him you can obtain a symptom blank that, properly filled out, will give him a perfect idea of your case. The medicine and treatment can be shipped to you by express, and all it will cost you is $5.00 A MONTH.

Read what Sylvanius Felton, a prominent farmer of Dorr, Michigan, says.

SYLVANIUS FELTON, Dorr, Mich.

"He says: "I am glad to add my recommendation to the many that have given Dr. Rankin standing and prominence as an accomplished physician. The case was a serious one. I had filling up of the nostrils, constant dropping of phlegm into my throat, keeping me hawking and spitting. My ears felt filled up and I was troubled greatly with a ringing and roaring noise, and my hearing was failing. My lungs were filled up, causing a very labored breathing and a continual cough. My general health, too, was failing gradually. In fact, I was in a serious condition. A friend of mine was cured by Dr. Rankin, so I concluded to try the doctor, too. The result has been almost marvelous. By the time I had taken the home treatment for six weeks I was almost a well man. Now the cough has stopped and my lungs are all right, my head is clear and I have stopped that continual hawking and spitting. My ears no longer ring and roar, my breathing is free and my general health good. I can heartily endorse the doctor's skill."

Catarrhal Deafness Cured.

"I was troubled with a filling up of the nostrils, hawking and spitting and other symptoms common to catarrh. It had also extended to the ears, causing them to ring and roar, and had partially destroyed my hearing. Dr. Rankin cured me entirely in two months' treatment. My hearing is as good as it ever was.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.
