DEMOCRATIC PRINCIPLES
and Measures.

A simple and frugal Government, confined within strict Constitutional limits.

A strict construction of the Constitution, and no assumption of doubtful powers.

No National Bank to swindle the laboring population.

No connection between the government and banks.

A Diplomacy, asking for nothing but what is clearly right and submitting to nothing wrong.

No public debt, either by the General Government, or by the States, except for objects of urgent necessity.

No assumption by the General Government of the debts of the States, either directly or indirectly, by a distribution of the proceeds of the public lands.

A Revenue tariff, discriminating in favor of the poor consumer instead of the rich capitalist.

No extensive system of Internal Improvement by the General Government, or by the States.

A constitutional barrier against improvident State loans.

The honest payment of our debts and the sacred preservation of the public faith.

A gradual return from a paper credit system.

No grants of exclusive charters and privileges, by special legislation, to banks.

No connexion between Church and State.

No proscription for honest opinions.

Fostering aid to public education.

A "progressive" reformation of all abuses.
