"German Syrup"

A Throat and Lung Specialty.

Those who have not used Boschee's German Syrup for some severe and chronic trouble of the Throat and Lungs can hardly appreciate what a truly wonderful medicine it is. The delicious sensations of healing, easing, clearing, strength-gathering and recovering are unknown joys. For German Syrup we do not ask easy cases. Sugar and water may smooth a throat or stop a tickling—for a while. This is as far as the ordinary cough medicine goes. Boschee's German Syrup is a discovery, a great Throat and Lung Specialty. Where for years there have been sensitiveness, pain, coughing, spitting, hemorrhage, voice failure, weakness, slipping down hill, where doctors and medicine and advice have been swallowed and followed to the gulf of despair, where there is the sickening conviction that all is over and the end is inevitable, there we place German Syrup. It cures. You are a live man yet if you take it.

Starting Him in Business.

Ambitious Youth—Father, I see no reason why I can not become a great stock broker. Of course, it takes capital but then I might begin in a small way, you know. I should think you could start me.

Wise Father—Well, my son, go upstairs to the old bureau in my room, and in the right hand corner of the top drawer you will find a pack of cards. —[New York Weekly.

Kidd's Germ Eradicator positively cures all diseases! Because it kills all germs, bacteria, parasites, microbes and animalculae in the system, which the prominent physicians in convention agreed was the cause of all disease. The air, water, vegetables and fruits are full of these little worms, causing cattarrh, consumption, diabetes and Bright's disease, cancers, tumors and all so called incurable diseases. (Never known to fail to cure consumption, cattarrh, kidney troubles and syphilis.) $1, $3 and $5 sizes sent anywhere on receipt of price. Little girl—Maw, how old am I?

Maw (severely)—If any one asks you tell 'em you don't know. By the way, it's raining a little and you'd bitter take a street car to school.

Gentlemen, is your vitality failing. Do you feel incompetency creeping on you? If so, go at once and ask for "The Great French Prescription" of Paris. "Russet Shoes."

"There will be more russet shoes worn by gentlemen this summer than there were last," said a Broadway retailer. "We have 3,000 for a starter and have been selling a good many long before the season opened for wearing them. The fun poked at the russet shoe and woolen shirt by the papers has had no effect upon the demand for what is obviously comfortable and stylish for out of door summer wear. Men begin to exercise the right of dressing seasonably whether in town or country. It may be a fad or temporary fashion, but no one will deny the common sense behind it—which is more than can be said for a good many fashions. What is the cause of this fad for the street negligee? The general taste for athletic sports. There is where it comes from. It is simply an extension of the freedom of the base ball costumes, the bicycling costumes, the boating costumes, the lawn tennis costumes; sea shore and watering place costumes come from the same source. The thousands who care little for athletics, give their approval of the common sense of those who do by imitating their manner of dress. That is fashion. You'll see plenty of it on Broadway again this summer."—From a New York Letter.

Love That Endured.

In these days of divorces and infidelity, it is encouraging to read of a marriage which took place a few days ago in Berlin. In 1840 the inspector on a large estate in the neighborhood of Prussia's capital became engaged to the daughter of a prominent official of the metropolis. The girl's father, however, quarreled with the young man and broke the engagement. The inspector came to America, amassed a fortune and returned to Berlin at the age of 79, a few months since. There at the house of one of the professors of the university, he met his former inamorata. The meeting was as affecting one. They had remained faithful to one another for half a century and determined at once to end their days together.—New York Tribune.

INGERSOLL ON CALIFORNIA.

In a recent magazine article, Mr. Ernest Ingersoll, the noted writer, says:

"The climate of southern California in winter closely resembles that of Egypt. Its equability is constant, and its dryness is proverbial. The only complaint made is that it is too nearly perfect. Residents bred in the eastern states confess now and then that a rousing storm would give them a grateful sensation. But this sentiment meets with no favor from the man who has just fled from a superfluity of wetness and chilling gales. To him perpetual summer seems perpetual paradise, and to the invalid dreading the advance of disease the still and arid atmosphere is as the breath of life."

The most comfortable way to reach the Pacific coast is via Santa Fe route. Weekly excursions in Pullman tourist sleepers at low rates. Apply to G. T. Nicholson, G. P. & T. A., Topeka, Kas., for folder.
