SELECTED HAWKEYE MENTION

FATAL ACCIDENT.

Jones County Lad Killed While Out Hunting.

ANAMOSA, Nov. 2.—Charles Leslie, a son of William Leslie, of Oxford Mills, took his rifle and went up Mill Creek in a boat, and was found the next morning about a quarter of a mile above the creek bridge west of the mills dead, with a bullet hole in his head near the left eye. The body was laying face down and partially in the water. As to whether it was suicide or accident, there is quite a difference of opinion among those who know the boy. It appeared that the boy rowed the boat to the shore, got out, and in removing the rifle it was discharged. A pool of blood a little way from the body would indicate that he fell on the bank and rolled down into the water. The boy had threatened to kill himself, which strengthens the idea of suicide. He was a lad of 18, and about two months ago returned from the reform school.

CURIOUS HOLD UP.

Tramps Compelled to Disgorge By Masked Robbers.

CLINTON, Nov. 1.—Something new in the line of a hold up took place at East Clinton. Sixteen men, some of whom were tramps, and others who had been at work and were saving their money and beating their way home, were in a box car. There was a rap for admission, and those inside, supposing some one wanted shelter, opened the door. On the outside were four masked men armed with pistols and dark lanterns. Two of the men entered the car and commanded the occupants to throw up their hands. They then ordered them to stand in line, and while one of them held the gun his companion went through the outfit. They secured $400 in cash and two watches

HELD UP ON THE HIGHWAY.

Prominent Citizen of Arion Robbed of Over $600.

ARION, Oct. 31.—A prominent citizen of Arion by the name of Bell, while driving home from Dow City, was held up by two men, who relieved him of $620 in cash. One robber struck Mr. Bell, injuring him severely, while the other shoved a revolver in his face, compelling him to give up the cash. The man with the revolver was a large, light complexioned fellow, with a sandy mustache, while the other was of medium size, light complexioned, and smooth faced. Two suspicious looking characters answering their descriptions have been captured at Dunlap.

TRAMP NUISANCE.

Frequent Attempts to Hold Up Farmers Around Ft. Dodge.

FORT DODGE, Oct. 31.—With the approach of winter the tramps who have infested the rural communities all this season are becoming desperate in their efforts to gain a living without labor. Three times recently farmers returning home from Fort Dodge have been shot at in efforts to hold them up by these prowling marauders. Two men going from Burnside to Lehigh in broad daylight last week were ordered to halt by tramps, and upon whipping up their team narrowly escaped two bullets which struck the horses.

WILL BE REBUILT.

The Bettendorf Metal Wheel Works at Davenport.

DAVENPORT, Nov. 2.—The Bettendorf metal wheel works, which burned recently, will be rebuilt at once and doubled in size and capacity. Col. French, one of the proprietors, has gone to Chicago to secure if possible one of the fire proof World's Fair building, and telegrams have been sent to eastern iron works for bids on the quick erection of fire proof structures. The city has vacated a street to be occupied with the extension of the plant.

HIS THROAT CUT.

Whether Intentional or Accidental Cannot be Stated.

CEDAR RAPIDS, Nov. 1.—W. H. Smith, a young and prosperous farmer living near Mt. Vernon, came to his death in a mysterious manner. Telling his men he was going to shave himself, he went to his room, where he was found dead in a short time afterward with his jugular vein severed. Whether he committed suicide or accidentally killed himself is not known. No cause is known that would lead to self-destruction.

FIRE AT COLFAX.

COLFAX, Nov. 2.—Fire which originated in J. W. Vail's livery barn, supposed to be the work of revelers who had a keg of beer on tap, destroyed the barn with a loss of $3,500; the electric light plant, loss $5,000; the wagon shop of Morrison & Hartley, loss $1,000; and several structures of lesser value. The total loss will exceed ten thousand dollars.

ALLEGED BURGLARS.

Arrested at Eldora With Supposed Stolen Goods.

ELDORA, Oct. 31.—Last week Coxon & Skinner's general store at Union was burglarized. Three men who were tramping through the country selling goods have been arrested on suspicion. The property found in their possession corresponds with the goods stolen at Union. They have just been lodged in jail at Eldora. The prisoners give their names as Frank Reed, Harry McDonald and Percy Layton. Further than this they are uncommunicable.

TOOK THE GOLD CURE.

Misfortunes of a Young Man From Chicago.

DUBUQUE, Oct. 31.—A young man giving the name and address of Charles Price, 3510 Union avenue, Chicago, turned up in a restaurant at Dubuque, and it soon became evident that he was out of his mind. He was taken to jail and passed a terrible night. Papers found on him showed that he had just graduated from a gold cure institute. His relations were notified. It is claimed he had visited a number of saloons.

HIGHWAYMEN.

Bold Attempt to Rob a Physician Near Clear Lake.

CLEAR LAKE, Nov. 2.—Dr. J. B. Charlton, a prominent physician of this county, was held up a mile north of the city by two highwaymen. They were in ambush, and jumping from their hiding, one seized the horses by their bits while the other demanded his money at the muzzle of a revolver. He refused to disgorge, when the robber fired, the bullet whizzing past his face. The doctor struck him a blow with the butt of his whip, when the second shot came, which would have proved fatal had it not been for the pocket instrument case he was carrying in his coat. The bullet went through this and lodged just below the sixth rib over the heart, and after some probing was located and removed, and no serious result is anticipated. There is no clue to the robbers.

CONDENSED ITEMS.

AT Audubon, William McLaughlin, convicted of the murder of Frank Leib, was sentenced to twenty-two years' imprisonment at the Fort Madison penitentiary.

Snow fell all day and all night on the 29th over a large portion of South Dakota and northwestern Iowa. At Vermillion the snow storm resembled an old fashioned blizzard. Several inches of snow fell at Sioux City.

Judge Thornell, of the Audubon county district court, called William McLaughlin, convicted of the murder of Frank Leib, into court and sentenced him to twenty-two years' imprisonment in the Fort Madison penitentiary.

Professor Floyd Davis, who made an examination of the stomach and brain of Mrs. Ella McKee-Mason, who recently died at Creston, under suspicious circumstances, reports that he has found arsenic. The feeling against her husband is said to be very intense.

The city council of Sioux City has developed a plan to furnish work for all who become dependent on charity this winter by putting them to work on the straightening of the Floyd river. The stream overflowed two years ago and a score of lives and an immense amount of property were lost. The danger can be averted if the stream is straightened, which has not been done because of the expense. The new plan would secure an improvement that would otherwise cost $100,000.

Fire was discovered at Manson in the livery barns of Jones & Wright, on Lag street, and A. Hauntzman's livery barn on Second street. The rear of these barns were only sixteen feet apart. The fire, as nearly as can be ascertained, originated in the barn of Jones & Wright. Nothing was saved in the stables, and eighteeen head of horses were cremated. All the harness and carriages in the Hauntzman barn were gotten out. The buildings of Sullivan & Tove, A. E. Richard's blacksmith shop, and Peter Turner's shoe shop were totally destroyed, while most of the goods were either destroyed or badly damaged.

The burglars who blew open the vault and wrecked the building occupied by the Farmers' and Mechanics' bank at Malvern were seen by a dozen different people the next morning. When a freight train pulled into Council Bluffs from Malvern at 9 o'clock and stopped at a crossing near the city limits, two fellows jumped out of a box car and started across the fields, carrying a cheap black satchel, apparently very heavy. They passed through the eastern outskirts of the city, where they attracted the attention of a number of people by the evident heavy weight of the grip which they carried between them. At 10 o'clock they boarded an Omaha motor. Officers were not notified of the burglary until after 10, and it was nearly noon before they got onto their trail. The motor conductor was found and gives the following description of the men: One short man, heavy set, black mustache; other tall, nearly six feet, smooth shaven; both wore large slouch hats pulled down in front and turned up behind. They carried, said the conductor, a big black grip which seemed to be heavy, as both lifted it onto the platform. The short man stayed on the platform with the satchel, while the tall fellow went inside. It was the tall man who paid the fare for both. At Thirteenth street, Omaha, both men got off. Several hackmen saw the pair alight, and asked for a job, but the fellows picked up their grip and walked to Thirteenth and Dodge streets, where they boarded a South Omaha car going south. They are evidently very crude cracksmen, and their capture and the recovery of the booty is only a question of a short time.

Hansen's Radical cough cure. Immediate relief and cures when others fail.

Shirts to order. Don't fail to see our new importations. Tilden, Des Moines.

While Detective Vizard of Omaha was in Kearney, Neb., recently he showed Officer Overmier the photograph of the fellow who murdered the chief of police of Missouri Valley about a year ago. The officer at once recognized the picture as being that of a fellow who has been around Kearney for some time, and in a few minutes had him locked up. He agreed to come to Iowa without requisition papers, and the sheriff brought him to Iowa. There has been a standing reward of $500 by the governor of Iowa for the capture of the murderer, and Officer Overmier will claim it.

The Farmers' National bank of Malvern was wrecked and looted by robbers a few nights ago. The vault and safes inside of the vault were blown to pieces, the concussion completely wrecking the inside fixtures of the building. Some of the money was found in the street and some bills and certificates were found in the debris by the bank officials. Not until the wreck is cleared up will the exact loss be known, but is estimated that the robbers got away with between ten and twenty thousand dollars. The depositors will lose nothing.

HOW STOUT GOT STOUT.

THE REMARKABLE EXPERIENCE OF A RHEUMATIC SUFFERER.

All But Paralyzed--Lost His Flesh and Expected to Die---How He Got Well and Strong.

(From the Mt. Sterling, Ill., Republican.)

Few men are held in higher esteem by their fellow townspeople than Jas. W. Stout, of Riply, Ill., and it is due no doubt partly to this popularity that the record of the case has created such wide-spread interest. While his experience is not without an equal, yet it has been sufficiently remarkable to demand the attention of thousands of people in Illinois, among whom are numbered some of the most eminent physicians.

In January, 1893, Mr. Stout was stricken with what was then believed to be sciatic rheumatism, and in a short time was barely able to hobble around on crutches, and it seemed to his friends that his days were numbered. To-day he is a strong, hearty looking man of 160 pounds.

How this wonderful change was brought about is most interesting as told to a representative of the Republican by Mr. Stout himself:

"I was afflicted with sciatic rheumatism and lumbago in January, 1893. The sciatic nerve on the right side became affected in the hip, running down to the ankle and across the small of the back to the left side, and soon my whole system became afflicted, causing me the mos' excruciating pain. In a very short time I became totally unable to attend to any business whatever, and the disease rapidly growing worse, I had to take to my bed, where I lay suffering almost continuously for months the most agonizing torture, scarcely being able to move or be moved. At one time I lay for six weeks flat on my back, the slightest movement causing me such pain as almost to throw me into convulsions. I cannot begin to express to you the intense pain I suffered. I was drawn, by the severeness of the malady, over to the left side; lost my appetite, had no desire for food, and what little I did eat I could not digest, the digestive organs failing to perform their duty, adding greatly to my already precarious condition. For weeks at a time I was unable to eat or sleep, suffering all the time most intensely and at times fearing I would lose my reason, and would have welcomed death to relieve me of my sufferings.

"I consulted with local physicians and some of the most eminent specialists of the larger cities throughout the country, some treating me for one thing and some for another, but without effect, and I received no relief whatever. One physician told me I had double curvature of the spine and would eventually become paralyzed. I spent hundreds of dollars in the short time I was afflicted without receiving the least benefit. My friends all thought that there was no hope for me whatever and said that I must die, and I myself had almost given up in despair, when in September, 1893, about eight months after I was first afflicted, my attention was called to Dr. Williams' Pink Pills for Pale People. Without much hope, I at once sent to C. F. Rickey & Co., Druggists, Mt. Sterling, Ill., and procured some of the pills and immediately began taking them. Before long I became aware of a great change for the better in my almost hopeless condition. My appetite came back and my digestive organs performed their usual functions properly. I took some more and grew rapidly better—could sit up in a chair and my body began to straighten out; continued the treatment and in a short time was able to be about on crutches. My recovery from that time on was very rapid and assured. My right leg, which before I commenced this treatment was numb and dead, now experienced a pricking, tingling sensation. I was enabled to throw away my crutches and walk upright once more among my fellows, a better man physically than ever before. When first taken by the disease I weighed 160 pounds, was reduced to 115; I now weigh 166, more than I ever weighed at any time in my life. Yes, sir, I lay my recovery entirely to Pink Pills."

Dr. Williams' Pink Pills for Pale People are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, pale and sallow complexions, and all forms of weakness either in male or female. Pink Pills are sold by all dealers, or will be sent post paid on receipt of price, 50 cents a box, or six boxes for $2.50—(they are never sold in bulk or by the 100) by addressing Dr. Williams' Medicine Co., Schenectady, N. Y.

Harvard college a year ago, as a measure of economy, dropped Dr. Huntingdon, assistant in the laboratory and lecture room. His uncle, Professor Josiah P. Cooke, for over forty years in the faculty, seems to have noted the fact, for in his will, which gave the college are versionary interest in his $500,000 estate, there is a codicil cutting off the reversionary interest. And the codicil is dated October 30, 1893, just after Professor Cooke's nephew, whom he treated as a son was dismissed.

It is being told of Eugenie that on a late visit to Paris she went "incog." to a fashionable palmist to have her fortune read. As part of the necromancer's art is not to see his fair penitents, she had to put her hand through a slit in a screen. After quite a cursory examination, the fortune teller said: "Madame, your hand is so extraordinary that one of two things must be the truth; either my skill must be at fault for once, and I see impossible events, or you must be the Empress Eugenie, for no other hand could tell of such strange vicissitudes."

FOUR TRACK SERIES ETCHINGS.

The Unexampled Offer of the New York Central.

Art lovers will find one of the best bargains placed before the public for many a month in the offer of the Passenger Department of the New York Central, to sell at a merely nominal figure a collection of etchings, which have become famous all over the country as the "Four-Track Series."

The titles of the etchings are "The Washington Bridge," "Rock of Ages, Niagara Falls," "Old Spring at West Point," "Rounding the Nose, Mohawk Valley," "No. 999 and the DeWitt Clinton," "The Empire State Express," "Horse Shoe Fall, Niagara," and "Gorge of the Niagara River."

These etchings are all printed on fine plate paper, 24x32 inches, and the absence of any objectionable advertising feature renders them suitable for framing and hanging in one's office, library or home.

Copies may be secured at the office of W. B. Jerome, General Western Passenger Agent, 97 Clark St., Chicago, for fifty cents each, or will be mailed in stiff tubes, secure from injury, to any address, for seventy-five cents each, or any two of them to one address, for $1.30, or any three or more ordered at one time to one address, sixty cents each, in currency, stamps, express or postal money order.

MOTHERS and those about to become mothers, should know that Dr. Pierce's Favorite Prescription robs childbirth of its torture, terrors and dangers to both mother and child, by aiding Nature in preparing the system for parturition. Thereby "labor" and also the period of confinement are greatly shortened. It also promotes an abundant secretion of nourishment for the child. During pregnancy, it prevents "morning sickness" and those distressing nervous symptoms from which so many suffer.
