CONSUMPTION.

100000 Pulmonary Complaints

HAVE BEEN CURED BY

BRANT'S INDIAN BALSAM.

Hopeless, Desperate cases of Consumption, can be cured by the use of this Balsam. It has cured hundreds of persons who were so far advanced and so hopeless as to have been pronounced by Physicians and friends, in a dying state. It does not merely relieve, but it cures; and yet, of thousands in all the various incipient stages of that Fatal Disease, it has cured many in whom it was said they would in a few a week, and some in a day.

For particular cases, and full and abundant proof, see Pamphlets—all our agents have the pamphlets to give to all who ask for them.

Brant's Purifying Extract

Is another preparation of this Indian Medicine, which is expressly prepared and adapted to purify and renew the blood. It strengthens weakly constitutions, restores to sound health and vigor, those who have lingered and languished under the effects of Scrofula, Scrofulous Humors, Erysipelas, Ringworm, Tetter, Salt Rheum, Scald Head, Ulcers, Sores, Blotches, Boils, Tumors, Swellings, Pimples, Pustules, Blains, Chilblains, Frost Bites, Chilblains, Corns, Nodes, Mercurial Disease, Mercurial Rheumatism, Mercurial Eruptions, Yellow Dock, Cherry Bark and Sassafras—the celebrated, one of which is the most powerful and renovating Purifier of the Blood that was ever known to the Indian or White man. Regulates and invigorates all the animal functions, promotes perfect health, so promptly and certainly, that it cures the worst diseases in a few days, and after the impure blood, disease, without fail. It cures diseases of the Heart, Liver, Kidneys, Urine and Blood.

Brant's Pain Killing Liniment, healing efficacy in one bottle of this Liniment, than there is in ten bottles of any other medicine which purports to cure the same diseases.

The above Medicines are sold in almost every town in the state, and in this county by

Is the Most Highly Approved and Popular Standard Medicine now in General Use for COUGHS, COLDS AND CONSUMPTION, Asthma Pleurisy, Pleurisy, Spitting of Blood, Hoarseness, Bronchitis, and all Pulmonary Affections and Diseases of the Lungs and Chest.

Another—"It has been used with wonderful success, and has a superiority over every kind of medicine used." Another—"I can with confidence recommend it." Another—"It has been used with complete success, and I am satisfied that it is a valuable medicine." Another—"It is a safe, convenient, and very efficacious medicine." Another—"It has never, to my knowledge, disappointed the reasonable expectations of those who have used it." Another—"It is equal if not superior to any other medicine within my knowledge."

Extract from a letter dated Dayton, O., April 13, 49—"I was first induced to try your Balsam by a red hearing Page can some ten years ago, and such was the benefit my wife derived from it that I would not hesitate to recommend it to all inquirers. I have ever recommended it to at least fifty different persons since, for Affections of the Lungs, and I do not know of a single case in which it did not give immediate relief, and some it cured after being given up by their Physicians."

ON THE MUTUAL PLAN,

This company will insure at the usual rates, and in three particulars claim the superiority over all *mutual* Companies.

1st. Delivering only ten per cent commission from the Mutual Insurance Fund, instead of the *entire expenses* of the Company, annually.

2nd. Giving scrip certificates of profits each year, payable in cash when two hundred thousand dollars has accumulated as a received mutual fund, *such scrip bearing interest from their end transferable.*

3rd. In addition to the usual Mutual Fund and reserved Fund, received from mutual insurers, the capital stock, one hundred thousand dollars, and all the received fund in the Joint Stock insurance is pledged for the payment of losses.

ON THE JOINT STOCK PLAN,

The rates are reduced one third the amount charged on the mutual plan,—the Company taking only *what it is worth*, to insure a life a given amount, for a given time, instead of taking more than an equitable sum and afterwards paying back a part of *our own money and calling it so much profit.* The great advantage of the mode of insurance over the mutual plan may be thus illustrated. Suppose a father, at the age of thirty-two years, resolves to expend twenty-five dollars per annum for insurance on his life. On the *Mutual* plan it will secure him a policy of one thousand dollars. On the *Joint Stock* plan the same twenty-five dollars will secure him a policy of one thousand and five hundred dollars.

ON LIFE AND HEALTH COMBINED

The rates are as favorable to the assured as safety to the company will permit. Insurance in this form is of great importance to all who have others depending on them for support.

CALIFORNIA LIFE RISKS,

taken at lower rates than by any other Company.

This is owing to the fact that the rates on the Joint Stock plan of this Company are one *third less* than in Mutual Companies generally. Many young men are now getting an insurance on their lives, and raising their funds to go to California with, by borrowing insurance on their policies as security, from their friends.

The Hartford Life and Health Insurance Company is *eminently prosperous.*

"Its success is unprecedented by that of any Life Insurance Company that ever existed in this country. 'Its Managers are among our most respected and responsible citizens.—They are men who exercise the utmost care in the discharge of their duties, and are determined to dun safe and successful business.—*Hartford Daily Times.*

All heads of families should consider the importance of Life Insurance. All men living upon salaries should in this way provide for the future. All who wish to make investments will find on examination that it can be in no better way than in this. 43:tf.

KITCHEN & HENDERSON'S HAIR PRESERVATIVE has now been in use nearly four years, and has proved itself to be the best article for improving the growth and beauty of the hair that has ever been invented, as hundreds are ready to testify. It entirely stops the hair from coming out and imparts to it strength and vigor, and gives to hair the most coarse and harsh, a soft and glossy appearance. It also removes all scurf and dandruff from the skin and head, which ought always to be kept out in order to have a healthy growth of hair, because if allowed to accumulate, it becomes imbedded around the roots of the hair and clogs up the pores of the skin, thereby preventing a free and healthy action. The consequence is the hair becomes dry and dead, and very soon begins to show signs of decay and falling off. All this can be prevented by a proper use of this preservative, as it gives life and action to the skin, and at the same time imparts nourishment and strength to the hair, and leaves it soft and glossy without being greasy.
