DAILY SENTINEL

National Democratic Platform of 1864.

THE UNION—THE CONSTITUTION—PEACE—PUBLIC LIBERTY—PRIVATE RIGHTS—FREE ELECTIONS—A FREE PRESS—FREE SPEECH—TRIAL BY JURY—THE RIGHT OF ASYLUM—JUSTICE TO OUR SOLDIERS.

Resolved, That in the future, as in the past, we will adhere with unswerving fidelity to the Union under the Constitution as the only solid foundation of our strength, security and happiness as a people, and as a framework of government equally conducive to the welfare and prosperity of all the States, both Northern and Southern.

Resolved, That this Convention does explicitly declare, as the sense of the American people, that after four years of failure to restore the Union by the experiment of war, during which, under the pretense of military necessity or war power higher than the Constitution, the Constitution itself has been disregarded in every part, and public liberty and private right alike trodden down, and the material prosperity of the country essentially impaired, justice, humanity, liberty and the public welfare demand that immediate efforts be made for a cessation of hostilities with a view to an ultimate convention of the States, or other peaceable means, to the end that at the earliest practicable moment peace may be restored on the basis of the Federal Union of the States.

Resolved, That the direct interference of the military authorities of the United States in the recent elections held in Kentucky, Maryland, Missouri and Delaware, was a shameful violation of the Constitution, and a repetition of such acts in the approaching election will be held as revolutionary, and resisted with all the means and power under our control.

Resolved, That the aim and object of the Democratic party is to preserve the Federal Union and the rights of the States unimpaired, and they hereby declare that they consider that the administrative usurpation of extraordinary and dangerous powers not granted by the Constitution, the subversion of the civil by military law in States not in insurrection, the arbitrary military arrest, imprisonment, trial and sentence of American citizens in States, where civil law exists in full force. The suppression of freedom of speech and of the press, the denial of the right of asylum, the open and avowed disregard of State rights, the employment of unusual test oaths, and the interference with and denial of the right of the people to bear arms in their defense, is calculated to prevent a restoration of the Union and the perpetuation of the Government deriving its just powers from the consent of the governed.

Resolved, That the shameful disregard of the Administration to its duty in respect to our fellow citizens who now are, and long have been, prisoners of war in a suffering condition, deserves the severest reprobation on the score alike of public policy and common humanity.

Resolved, That the sympathy of the Democratic party is heartily and earnestly extended to the soldiers of our army and sailors of our navy who are and have been in the field and on the sea, under the flag of their country, and in the event of its attaining power, they will receive all the care, protection and regard that the brave soldiers and sailors of the republic have so nobly earned.

Telegraphic Dispatches.

REPORTED EXPRESSLY FOR THE DAILY STATE SENTINEL.

MORNING REPORT.

LATEST WAR NEWS

From the Shenandoah Valley.

The Enemy still in Large Force.

EARLY REORGANIZING HIS COMMAND.

BRILLIANT CAVALRY DASH.

LATER FROM MISSOURI.

THE ST. ALBANS RAIDERS.

&c., &c., &c., &c., &c.

From New York.

NEW YORK, October 28.—The Herald's Winchester correspondent of the 27th says: The enemy has still a very large force in the valley. It is reliably reported to be reorganizing. The enemy has a strong force of cavalry in the Luray valley. Under cover of the present stillness, movements are being made by the enemy of a very important character. At the time that the battle of the 19th took place, the enemy had stationed three brigades of cavalry near Milford creek, in the Luray valley. When the general rebel movement was made this force advanced to Bucklin's ford on the Shenandoah river, and Front Royal. In the movement stated they were met by Powell's division of cavalry, and checked. When the rebels met with defeat they retired to Milford and within the line of fortifications there erected, a commanding position for certain substantial military reasons.

A reconnoitering party, about 300 strong, went out on the 24th from Powell's division in the neighborhood of Front Royal. The expedition was commanded by Major Gibson, who so gallantly distinguished himself in Gen. Averill's action at Moorefield in July last. During the early hours of the morning of the 24th Major Gibson moved his command across both branches of the Shenandoah river, and moving through Front Royal passed on toward Milford and Luray Valley. Before daylight he came upon the enemy's pickets and drove them in, capturing one or two. He then passed rapidly on toward Milford creek. On the way up he met the enemy in line of battle, with two pieces of artillery, and although his force did not exceed 300 he deployed in line of battle without a reserve and charged them.

The enemy, perhaps remembering our other late astonishing cavalry operations, did nothing more than fire one volley and broke. Gibson continued the pursuit as rapidly as it was possible for him to move forward in the darkness. The enemy kept his artillery in the park, and after firing one round limbered up and made off to the rear. Owing to Gibson's inferior force, he could not flank the enemy and get at his artillery. The enemy sent his artillery to the rear ahead, and kept his cavalry right and left of the road to cover its getting off. On the general charge which Gibson first made he captured one battle flag. By continuing to press on, Gibson at length drove the enemy over the creek and upon the line of rebel fortifications, in which they sought refuge and opened a rapid fire from carbines and the two pieces of artillery aforesaid. In front of this barrier Gibson halted but to feel the enemy's position, take a few prisoners, ascertain the rebel strength, and reach a position of safety in the direction of the Shenandoah Valley by daylight.

The enemy, finding the bird had flown, set out after him on a trot, but did not succeed in overtaking him. As Gibson succeeded in reaching the Union lines without heavy loss, the affair is looked upon as quite a brilliant cavalry dash. The idea of 300 men almost routing 3,000 mounted rebels, and driving them to their fortifications, and capturing one of their battle flags, besides nearly capturing their two pieces of artillery, is indeed amazing and interesting. In the course of the reconnoissance, and from the prisoners, information was gained of high importance to the interests of our army.

Yesterday cannonading was heard. It appeared to be in the direction of Front Royal, and was probably another cavalry fight.

From St. Louis.

ST. LOUIS, October 28.—Official dispatches from Gen. Pleasanton give the following further information in regard to his operations against Price: He marched 92 miles, and fought the last 32 miles. His force was less than 6,000, while Price's was fully 25,000. Price has but one gun left, and no ammunition, he having blown up his train. He also burned 400 wagons to save them from capture. We have 2,000 prisoners and several thousand stand of arms. Gen. Fagan is reported killed. Price's army is completely demoralized, and fleeing in all directions.

From Boston.

BOSTON, October 28.—Gov. Cory has appointed Nathan A. Farwell, of Rockland, to fill the unexpired term of Secretary Fessenden in the U. S. Senate.

From Montreal.

MONTREAL, Oct. 28.—The proceedings in the case of the St. Albans raiders have been transferred to Montreal.

The prisoners arrived last night and are now in jail here. Their removal was made secretly to avoid excitement.

One deposition was taken yesterday. Further proceedings have been postponed till next week on account of the Catholic holidays.

The conference at Quebec closed their labors last night. The delegates left on a western tour.

From Baltimore.

BALTIMORE, October 28.—The Democratic State Committee have nominated for Governor, Judge E. F. Chambers; Lieutenant Governor, Odin Bowie.

The Work Before Us.

Less than three weeks now remain for the American people to consider and determine the most important subject ever submitted to their judgment and decision. Upon their decision depends, without a doubt, the problem of free government on this continent, for no man of careful observation and unbiased judgment will deny that the re-election of Abraham Lincoln for another term of four years will place it beyond the power of the people to resist any encroachments upon their rights, or any departure from the provisions of the Constitution, which his administration may choose to undertake. The perpetuation of the present dynasty at Washington will settle beyond dispute or cavil its power to build upon the ruins of the constitutional fabric reared by the founders of the republic an arbitrary government, sustained by the military power, and directed the will of the President.

If at the present time Abraham Lincoln, with with all the proofs of tyranny, of violations of law, of departure from constitutional mandates, can secure a re-election by a so-called popular vote, what is to hinder the same Abraham Lincoln from perpetuating his power for four years hence in spite of the people? If the public virtue and the love of liberty is not strong enough now to resist, at the outset, the assumption of unauthorized and unwarranted power, how can it be expected that four years more of military rule, and of the enjoyment of ill-gotten authority, will make the usurper less strong or less ambitious? The next step, from a popular election to the possession of the government by force, will not be half so long a stride as the one by which, in spite of the honest wishes of the people, the administration is able to coerce states into a seeming approval of its acts.

With these great questions at issue, involving the principle of free government and the life of the nation, the responsibility devolving upon the people of this country becomes most weighty, and prompts to the most vigorous effort. The tide of public sentiment is in the right direction. With its appliances of civil and military patronage, and the unscrupulous use of the power which these opportunities afford, Mr. Lincoln has been utterly unable, in the late elections to hold his own against the indignant sentiments of the people, and has lost heavily on the popular vote. His only hope and chance now consist in the yet more reckless use of similar means to perpetuate his power.

The Times demand of the people of the whole country a superhuman effort to throw off this yoke of military and civil despotism, and restore the government again to a constitutional basis. Pennsylvania has set a glorious example, and nearly all the other States where elections have been held have sternly rebuked the administration. It only remains to put forth all our energies, and to resolve that the country must and shall be saved, to complete the work.—(N. Y. World.

In case of misfortune to the purchaser, we will be willing to take the rents of the property for the balance of the purchase money until it is all paid, and thus relieve him from any risk whatever.

This is as great an opportunity as has ever been offered a poor man in a growing city like Indianapolis.

This is not a new business to the undersigned, for we have been engaged in it for ten years, and we refer to the old settlers and business men of the city, and to hundreds of persons who have got their homes in this way through us.

PROPOSALS FOR LOAN.

U.S. 7-30 LOAN

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of fifty, one hundred, five hundred, one thousand, and five thousand dollars, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent.

SPECIAL ADVANTAGES OF THIS LOAN.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security.* Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in Government securities or in notes or bonds payable in Government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discounts.

CONVERTIBLE INTO A SIX PER CENT. 5-20 GOLD BOND.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than *nine per cent. premium,* and before the war the premium on six per cent. U. S. Stocks was ever twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

ITS EXEMPTION FROM STATE OR MUNICIPAL TAXATION.

But aside from all the advantages we have enumerated, special Act of Congress *exempts all bonds and Treasury notes from local taxation.* On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in various parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties or stock companies, or separate communities only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Subscriptions will be received by the
