American Women.

Some people think that young ladies in this country have far greater freedom than those of European circles. A New York editor gives battle to this idea, contending that mock restraints are "the parents of half the social errors among us:"

"An American girl, in some sections of the country, cannot give her arm to a gentleman without being liable to an action for a breach of promise; and, in the crowded thoroughfare, the occasional beau, in order not to find the lady thrust from his side, by a silly convention is seen carrying, or pushing the lady along, as if she were a musket or basket. This is an exterior symbol of a whole class of restraints which have no business with honest, frank, and virtuous hearts, and which are more common in this country than in any European city. In France, or even in Paris, virtue is not sustained by suspicion, by bolts, bars, or a family police. In England, the freedom of a young lady at eighteen, when she is supposed to have a head as well as a heart, is that of a woman grown to the knowledge of the deceptions of vice.—Her only certificate of purity, is not the assertion that she has been closely watched. She has been taught to rely upon her own strength, as well as to fear her own weakness; and Beatrice, Constance, Lady Teazle, and similar characters of the English drama, are types of English girls, as bred in towns and cities."

CATCHING BOA CONSTRICTORS.—The following is an extract of a letter from a Liberian colonist, to the agent of the Colonization Society, giving a graphic description of the capture of the large boa constrictor now on exhibition in Baltimore:—

Now, sir, let me tell you how I caught a big snake—a real boa constrictor. I was out hunting with my hounds; they were running a deer, I caught sight of him, and jumped on a Bug-a-Bug hill to get a fair shot at him. The top of the hill broke in, and something blowed like a steamboat. I just looked and got sight of the varmint, a big boa and lots of young ones. I snatched off my overcoat and stopped up the hole, piling dirt on top; I then found two more holes, and stopped them too. I then broke home, called my boys, and made a long box of plank.—Took it back, drove up some forks at one of the holes, and jammed the open end of the box in, I then built a big fire in the other hole, and soon roasted the old one out, shutting down the trap door I had made in the box as soon as he was fairly in.—We then gave three cheers. I counted forty-four young ones, and some ran into the box with her.

SLEEPING FLOWERS. — Almost all flowers sleep during the night. The marigold goes to bed with the sun, and with him rises weeping.—Many plants are so sensitive that their leaves close during the passage of a cloud. The dandelion opens at five or six in the morning, and shuts at nine in the evening. The "goat's beard" wakes at three in the morning, and shuts at five or six in the afternoon. The common daisy shuts up its blossoms in the evening, and opens its "day's eye" to meet the early beams of the morning sun. The crocus, tulip and many others, close their blossoms at different hours towards evening. The ivy leaved lettuce opens at eight in the morning, and closes forever at four in the afternoon

The night-flowering cereus turns night into day. It begins to expand its magnificent, sweet scented blossoms in the twilight, it is full blown at midnight, and closes never to open again with the dawn of day. In a clover field not a leaf opens until after sunrise.

THE SOMERSETSKI.—The editor of the Petersburgh (Va.) Intelligencer thus describes a new style of dancing which he lately witnessed at the Old Point:

"The Somersetski is the name of a new dance which bids fair to knock the waltz, the mazourka, the polka, the rendowa, and the schottisch into a cocked hat. The last named dance is by far the most ridiculous that was ever participated in by sane people.—We never see it without thinking of a gander balancing himself on one leg, and nodding affectionately and armorously on his favorite goose. But from all accounts, the Somersetski is the dance of the age. It is danced by four persons—two ladies and two gentlemen. The ladies are dressed in a frock reaching to the knee, and the continuances are of stockinet, fitting as close as possible to the skin. One lady wears a white stocking and a black stocking, the other wears one green and one red stocking. The gentleman are dressed in shorts, and their stockings of pink and purple colors. The dance begins by the gentlemen turning somersets over the ladies, after which the ladies turn somersets over the gentlemen; and then the whole party turn somersets over each other rapid, promiscously, and miscellaneously. During this last named movement, the performers, with variegated costumes, present all the changes of the kaleidescope. Those who have seen this dance admire it greatly. It will doubtless be in vogue at all the watering places this season."

THE LATE RUMORED BLOODY BATTLE IN HAYTI.—Further and reliable advices from all parts of Hayti, to the 20th of July, rendered it certain that the late circumstantial account in the New York Express, of a battle between the Dominicans and the Haytiens, in which the latter were defeated with nearly a thousand slain, was a fabrication. The writer of the account purported to be located at Port au Prince, and his call for a thousand men from the United States, shows that his distress with regard to Hayti, are no better than of the buccaneers who wish to conquer Cuba.—There can be no doubt that there are those who for their own purposes, would urge on President Paez, of St. Domingo, to a war of invasion with promises of aid from the United States.—*Boston Traveller.*

A FIGHT.—Dunham the loco foco candidate for Congress in one of the Kentucky districts, followed his Whig opponent thirty-five miles to whip him. When he overtook his man, he commenced the fight, and got badly flogged himself.

ALL NATURE
SEEMS TO WEAR AT THIS TIME A LOOK OF
CHEERFULNESS!

The frequent rains and the genial rays of the sun, all contribute to hasten on vegetation, and clothe the laid steps with a mantle of green. The husbandman looks forward to the time when he shall reap the GOLDEN HARVEST, not from the mines of CALIFORNIA, but as the reward of honest INDUSTRY. The professional man, and the mechanic, cooped up as they are, will content themselves with the hope of gaining a competence to sustain them in their declining years.—Of course strict ECONOMY has to be studied, in order to make a LITTLE MONEY GO A GREAT WAYS. Those who are in quest of GOODS are not slow to know where they can invest their money to the best advantage. It is a well established fact that

H. LANGWORTHY & CO.

have been selling GOODS for the past six months, in NICHOLS' BUILDING, as cheap, if not cheaper than any other Store in the vicinity. Those who pay cash down will be astonished at the cheapness of our Goods!

KNOW ALL MEN (and women, too,) BY THESE PRESENTS, that we have established a

THE THOROUGH BRED

MORGAN HORSE

owned by F. M. WHEELER, will be eight years old Nov. 16th, 1851, was sired by the celebrated Gifford Morgan (whose pedigree is very well known throughout this and the adjoining States,) and the sire of his dam was by the Sherman Morgan, thereby concentrating in him more of the *pure Morgan blood* than is in any horse in western Vermont. His color is a beautiful dapple chestnut, is fifteen hands high, and weighs in ordinary flesh 1025lbs.; and his figure is surpassingly beautiful. He has great nerve and action, and his style of motion is very much admired. He trots a mile in 3m. 10s. or 15 miles an hour. Those wishing to patronize this invaluable breed of Horses, can be assured that this Horse possesses as much if not more of the Morgan blood than any horse in the country. He will be found the coming season at the stable of the owner, Good pasture provided at 2s. per week.

TERMS: $10,00; $5,00; $6,00.

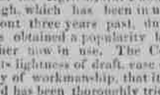
The Rock Foundry



PLOUGHS!!

The subscribers would respectfully invite the attention of the Agricultural Public to the above Plough, which has been in use in Western Vermont three years past, during which time it has obtained a popularity beyond that of any other now in use. The Constructors claim for its lightness of draft, ease of guiding, and beauty of workmanship, that it could not be excelled has been thoroughly tried, and we feel confident in the belief that our plough need but to be introduced, to become a general favorite with the Tillers of the Soil. It has taken the first premium in Addison County, and wherever it has been seen, has been thought to be a superior article.

The shape of the Beam prevents all choking. The shortness of the Beam brings the team nearer the work, which is a great advantage in the draft, ease in working, and driving the team The Flange upon the land-side is different from any thing of the kind in the country, and contributes to the ease of guiding the Plough Various testimonials can be produced in favor of the above Ploughs from the best Farmers in the State. The article needs but to be seen to convince any one of its popularity.

BRANDRETH'S PURIFYING EXTRACT

The Greatest

BLOOD PURIFIER

IN THE WHOLE WORLD!

☞ *Price $1 per Bottle, or Six Bottles for $5.*

It is now put up in QUART BOTTLES, of the same power and medicinal efficacy as when in small bottles. Each *Large* bottle contains SIXTY-FOUR DOSES, and the medications are so Strongly Concentrated that only One *Tablespoonful* is required as a Dose—three times a day—thus one bottle lasts Twenty-One Days, which is much longer than a bottle of any other medicine lasts, because there is required of this a less quantity at a dose.

The great *Superiority* of this Blood Purifier over all other medicines, consists in a great measure in its possessing as a part of its compound, the powerful Medical Virtues of some Scarce and Rare

Indian Roots and Barks,

which no other medicine possesses. These are the most *certain* Purifiers of the Blood that were ever known to either Indians or white men, and these being compounded with the *strongly-concentrated Extracts of*

Sarsaparilla, Yellow Dock,

CHERRY AND SASSAFRAS BARKS,

make this Vegetable Extract, not only the *greatest* Blood Purifier, but also, a *cheaper medicine by great odds* than any other. It is *cheaper*, because the quantity of it that may be bought for One Dollar will last much longer, and will cure Ten Times more Blood-disease, than one Dollar's worth of any other medicine.

☞ For undoubted proof of the Cures of

LIFE INSURANCE.

"It is an institution contemplating unmixed good to mankind."

We invite the attention of the Public to the principles of the National Life Insurance Company.

The Charter is liberal and particularly adapted to the wants of all who may desire to embrace such an institution. It should be embraced—

1st, By Husbands and Fathers, to make provision, after their death, for their widows and children.

2d. By the young to provide for themselves in infirm age.

3d, By creditors to insure the loss which the death of the debtor might occasion

4th, By the borrower to enable his representatives, in case of his death, to repay the loan.

5th, Those who save a little from their daily labor, or yearly income, should invest it in this Savings Bank, that it may be beyond the reach of accident, and that the widow and child may receive "their own with usury." 41tf

THE GREAT

RENOVATOR OF THE BLOOD,

AND

DISEASE EXTERMINATOR.

EXPERIENCE is the Basis of all Real Knowledge.—To SEE and to FEEL is to KNOW, and that which is seen and known must not be contradicted. When Galileo announced the discovery of new planets, the Aristotelians said, "This is impossible." Galileo replied, "Look through my telescope, and behold." The philosophers rejoined, "We will not look lest we should see them." There are a few people *now-a-days* so silly that they will not look at facts lest some prejudice should be disturbed. These persons are, however, not numerous, and their stupidity injures nobody but themselves. The character of Dr. S. P. Townsend's Compound Extract of Sarsaparilla rests upon universal experience alone. Without this solid foundation, it never could have attained the wide-spread popularity which it at present enjoys. Its value and medicinal efficacy being thus demonstrated by the experience of thousands, it is only necessary to say that science sanctions and verifies the verdict.

Dr. JAMES R. CHILTON,

a PHYSICIAN and CHEMIST of the highest rank, superintends the compounding of this Sarsaparilla.

Dr. S. P. Townsend's Sarsaparilla has proved to the satisfaction of thousands, to be the GREAT PURIFIER OF THE BLOOD AND FEMALE STRENGTHENER. It will not reduce the already debilitated, its TONIC ACTION being such as to STRENGTHEN, as well as to regulate the bowels.

Consumption Cured.

Cleanse and Strengthen. Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or Profuse Expectoration, Pain in the Side, &c., have been and can be cured.

Spitting Blood.

New York, April 28, 1847.

DR. TOWNSEND.—I verily believe your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a bad Cough. It became worse and worse. At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood and my cough has left me. You can well imagine that I am thankful for these results. Your obedient servant,

WM. RUSSELL, 65 Catharine-st.

Rheumatism.

This is only one of more than four thousand cases of Rheumatism that Dr. Townsend's Sarsaparilla has cured. The most severe and chronic cases are weekly eradicated by this extraordinary virtues.

James Cummings, Esq., one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter:

Blackwell's Island, Sept. 14, 1847.

Dr. Townsend—Dear Sir: I have suffered terribly for nine years with the Rheumatism; considerable of the time I could not eat, sleep or walk. I had the utmost distressing pains, and my limbs were terribly swollen. I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good. I am as much better—indeed, I am entirely relieved. You are at liberty to use this for the benefit of the afflicted.

Yours, respectfully,

JAMES CUMMINGS.

CAUTION.

To avoid IMPOSITION it will be necessary to see that

Dr. James R. Chilton's Certificate

as well as the SIGNATURE of Dr. S. P. Townsend, is on the outside wrapper of each bottle.
