THE RAILROAD JUBILEE.—Wednesday, the 17th of September, has been fixed upon as the time for the commencement of the celebration of the completion of a line of railway communication between Boston and Canada.

Married.

In Barnet, Vt., August 18th, by the Rev. Dr. Bushnell, of Hartford, Conn., STEPHEN W. HITCHCOCK, of Middlebury, to SOPHIA C., only daughter of Henry Stevens, Esq., of Barnet.

Died.

In this village, on Saturday, the 23d inst., ARTHUR DAVID, only child of David and Abby A. Piper, aged 6 months.

In Brandon, August 25th, at the residence of her son, ANNA, widow of Joseph E. Higgins, (formerly of Bridport,) aged 57 years and 7 months. Papers in Connecticut and Northern New York please copy.

In Luzerne, Warren County, N. Y., BERNICE STICKNEY, consort of Benjamin Stickney, aged about 41 years.

In Randolph, Columbia Co. Wis., Aug. 3d, of Bilious Cholic, Mr. LUTHER OLIVER, formerly of Leicester, Vt., aged 23 years.

Mr. Oliver was an honest, industrious man. He with his wife and four children had chosen a home in north western Wisconsin. He had but just commenced operations in his new home ere he was called to part with friends and all earthly pursuits, and try the stern realities of Eternity. Our deceased friend met his fate with that firmness which none but the Christian can possess. We truly sympathize with his bereaved friends in the loss of a kind neighbor, a warm friend to the Sabbath School, and a faithful member of the Church. But we hope and trust that our loss is his eternal gain. S. A. H.

Brandon Post please copy.

In Shoreham, on the 19th inst., of Dysentery, Maj. NOAH CALLENDER, aged 83 years and 6 months—a native of Sheffield, Mass.

The deceased was among the first settlers of the town. He came on with his father before the revolutionary war—was driven off by the British Indians—returned at the close of the war, and after enduring the hardships and privations incident to a new country, lived to see beautiful farms take the place of the dense forest—comfortable dwellings the place of the log hut—kindly greetings of neighbors and friends, the place of the war-whoop of a savage foe. He was a most kind and indulgent parent, and died as he had lived without an enemy—his charity having abounded towards all men. His body has returned to dust from whence it came, and his spirit to God who gave it.

At the residence of his father in Shoeburn, Vt., on the 14th inst., STEPHEN DECATUR SPEAR, of the firm of Collin & Spear, Burlington, aged 20 years.

Form of a Bid.

I (or we) of , propose to carry the mails on route No. , from to , agreeably to the advertisement of the Postmaster General, dated 9th August, 1851, and by the following mode of conveyance, viz:
for the annual sum of dollars.
Dated. Signed.

Form of a Guaranty.

The undersigned undertake that if the foregoing bid for carrying the mail on route No. be accepted by the Postmaster General, the bidder shall, prior to the 15th day of February next, enter into the required obligation to perform the service proposed, with good and sufficient sureties.
Dated. (Signed by two guarantors.)

Form of Certificate.

The undersigned, postmaster of , certifies that he is well acquainted with the above guarantors and their property, and that they are men of property, and able to make good their guaranty.
Dated. Signed.

Notice and Instructions to Bidders.

1. Seven minutes are allowed to intermediate postmasters for assorting the mails when not otherwise specified be the schedules.

2. Pay will not be made for trips not run, and the deductions for failures to perform the same may be increased to three times the contract pay therefor if a sufficient excuse be not sent in. Fines may be imposed for arrivals after time; also for failing to take or deliver the entire mail.

3. The Postmaster General may annul the contract for repeated failures, for violating the post office laws, or for disobeying the instructions of the Department.

4. The Postmaster General may discontinue or curtail the service, and the pay accordingly, on allowing one month's extra pay on the amount dispensed with. He may also increase the length or number of the trips at pro rata pay, the contractor having the right to relinquish the contract on giving timely notice, if he prefer it to the change.

5. Additional pay will not be made for excess of actual over advertised distance, (should any such case occur,) if the offices are correctly named.

4. Proposals without the prescribed guaranty, or postmaster's certificate of the sufficiency of the sureties, or not received in the time specified by the advertisement, or combining more than one route in the same sum, cannot be accepted.

7. Bids for the service *as advertised* are entitled to preference, but those proposing changes therein will receive consideration.

8. Offices established during the contract period within a quarter of a mile of the route are to be supplied without extra pay; those further off at a pro rata compensation.

9. Bidders should specify the mode of conveyance intended to be used. When this is not done it will be understood to be horseback.

10. If the accepted bidders fail to execute contract, or to commence and continue service agreeably to their proposals, they, or their guarantors or sureties, will be liable to a suit for the damages resulting from a reletting of the route.

11. Contracts are to be executed by the 15th day of February, 1852.

12. The bids should contain the bidder's name and residence, and, if a company offer, those of each member of the firm, and should be addressed to the First Assistant Postmaster General, and endorsed "Mail proposals in the State of——."

For further particulars as to conditions of bidding, and the forms of the contracts required, see last annual advertisement, or pamphlet advertisement of the above, which will be sent to Postmasters at the ends of the routes advertised.

ONLY $25 FOR A HOMESTEAD.

50 FARMS, worth over $10,000, and 5,000 Lots, to be distributed among 800 Subscribers.

To supply the demand for the lots and farms, I have laid out another tract, adjoining the Long Island Railroad and the land already sold at Hermansville, to be of the same size, and disposed of and divided among the purchasers in the same manner as those recently sold there, with 50 farms instead of 22.

I have been induced to do this from the great number of persons wishing to purchase these Lots and Farms, as the improvements in that part of the Island are constantly increasing, and large numbers of persons have now become interested in those lands. This additional tract is in every respect equal to the other, and at the rate they are now being taken they will all be sold in a few weeks. About 600 shares are now subscribed.

Each subscriber is entitled to 8 Lots, 25 by 100 feet, lying together, or a FARM of from 4 to 5 acres. The shares are limited at $25—payable, $5 when subscribed for, $5 on or before the day of distribution, and the balance in monthly instalments of $3.

The lots are situated in the Village of LAKELAND, on the Long Island Railroad, County of Suffolk, and 48 miles from the city of New York, where handsome buildings are erected, and the Railroad Company contemplate making a large depot for the termination of the early and late trains between that place and Brooklyn. It is one of the healthiest places in the United States, and within one mile of Ronkonkoma Lake, a beautiful sheet of water about three miles in circumference, of singular transparency, and of great depth, with an abundance of fish. The village is but 1 miles distant from the great South Bay, which is 5 miles wide and 40 miles long, abundantly supplied with oysters, clams, and fish of various kinds.

These lands will produce as much per acre, with the same cultivation, as any land within fifty miles of the city of New York.

Several gentlemen of the first respectability who have lately visited Lakeland and examined the crops now growing there, declare that the wheat, rye, potatoes and garden vegetables are equal to any they have seen in any part of the country, proving conclusively that the soil is capable of producing, and that in the highest perfection, all that the agriculturist can wish or desire.

Wheat of the same quality, which grows here luxuriantly, was raised by Mr. Samuel Thompson of Setauket, last season (about 8 miles from this place,) who received for the product of a little more than two acres, $400

Lakeland Station is located on the borders of the Long Island Railroad, whence cars run several times a day to Brooklyn and New York. The surface of the land is smooth and level, and surrounding country is perfectly healthy, and within a few miles of this place, highly cultivated and valuable, having been settled for more than a hundred and fifty years, and where similar lands sell at from $50 to $200 per acre.

The lands are as good as represented, and as good as any new land on the Island, and when cultivated, will produce in the highest degree

The land was enormously timbered; some portions are now covered with a thrifty growth of young wood, oak and pine. Wood is plenty, and generally cheap in that part of Island. Firewood is cheap; that which is suitable to be cut into cord-wood, for the New York market, is of uniform price, and has for a great many years been always considered a cash article on the Island. There is a brick-kiln within two miles of Lakeland—cost of brick $2,50 to $3,00 per 1000.

There is material on the land for common fencing—good chestnut rails can be had within a few miles of these lands in abundance. All building materials can be had at the depots of Brooklyn and Greenport, and at many intermediate places, at the usual market prices. There are numerous springs of water rising in these new lands, and running into the great South Bay, which are remarkable for their purity and never fail—indeed, dry weather makes very little change in them, they are unfailing; land wells are of various depths—probably over these new lands, in the middle region of the Island, the average depth will be about 25 feet at Lakeland, as the ground is higher they are deeper. Subscribers are not compelled to build.

There are now churches and schools within two or three miles of the village; and within four miles mills, factories, stores, and villages. All the privileges of an old settled country are to be had there; and the people of Suffolk County pride themselves on being a highly moral, orderly and religious people. All of my subscribers are persons of respectability.

In consequence of the great number of letters from all parts of the country, desiring information of these lands it has been found necessary to answer them in this form

☞ Apply to CHARLES WOOD, Stationer, 117 John street near Pearl, N. Y. who will receive remittances and forward receipts therefor by return of mail. He will also gratuitously furnish new maps and pamphlets of the property, and cheerfully give such other information as may be desired.

I also desire to say that I have good FARMING LANDS west of my Village Lands, which I will sell in 5 acre lots or upwards, at from $20 to $50 per acre. These lands are well situated for farming and gardening purposes, in every respect; and having the advantage and privilege of Railroad, when cleared and cultivated, they will be equal to any land on the Island, and equal to that which, in the vicinity of all the old villages and settlements of Long Island, sells for $50 to $200 per acre.

CHARLES WOOD, 117 John street, N. Y.

INSURANCE NOTICE.—The Members of the VERMONT MUTUAL FIRE Insurance Company are hereby notified, that the following assessments have been made by the Directors, on all policies in force on the days following, to wit:

Nov. 30th, 1850, 1 4 of one per cent.
Dec. 13 " 1-2 " "
Jan. 30 1851, 1-4 " "
Feb. 23 " 1-2 " "
Apr. 5 " 1-4 " "
Apr. 22 " 1-4 " "
May 17 " 3-4 " "
June 13 " 1-4 " "
June 21 " 1-4 " "

Making 3 1-4 per cent for the year ending Aug 1, 1851. Said per centage to be cast on the original amount of the premium note, without reference to any endorsement, and to be paid to the Treasurer, at his Office, in Montpelier, on or before the 15th day of October, 1851, being the day of the annual meeting of said company.

As heretofore, a list of persons insured in the several towns, with the amount of assessments due from each respectively, will be forwarded to the Representative elect, to the legislature, by whom moneys may be forwarded to the office.

Will the Members of the Company please bear in mind that, by sending the small amount of the assessment due from each, respectively, to the office, promptly, at the time specified, they will much advance their own interests; saving a vast amount of labor in the treasury department, and to themselves a considerable item in postage and interest to which they will be subjected in cases of neglect?

J. E. WRIGHT, Treasurer.
Insurance Office, Montpelier, Aug. 11, 1851. 17 3w.

Notice.

An application will be made to the Legislature of this State at its next session, for amendments to the Charter of the Rutland and Washington Rail Road Company, giving said Company the right of extending their Road, or a branch of the same, from the town of Poultney or Castleton, northwardly through the Counties of Rutland, Addison and Chittenden, to a point of connection with the Rutland and Burlington Rail Road, at or south of Burlington, and for the construction of branches to the different ports on Lake Champlain, and to the different quarries and mills in the vicinity of said Road.

Rutland, Aug. 21, 1851. 18 3w.

BIG TENT AND CAMP MEETING.

There will be an Advent Test Meeting in New Haven, (Vt.) on at half a mile west of L. W. Stow's Inn, near the Rail Road, commencing August 31st, and continue a week or longer. Elders J. V. Himes, of Boston and J. E. Jones, of New York, with others are expected to attend. The following among others will be subjects of especial attention:—The Kingdom of God; The Millenium, not temporal, but eternal; The Political world—its present aspect considered in the light of Prophecy; The present dispensation—its end near, and the needed preparation for the event.

Those coming via Railroad, can be left near the Ground. Fare charged but one way.

☞ The above Cut represents a new Churn intended for Churning, Gathering, Working, and Salting Butter.

DESCRIPTION.—Figure 1, is the churn box, and Figure 2, an end view of the dasher.

First, **Churning.** The cream is prepared the same as for any other churn. The proper temperature (from 60 to 65 degrees) is easily indicated by inserting the bulb of a common thermometer. In churning, the crank is turned in the direction of the upper arrow, in Fig 2. Such is the arrangement of the dasher, that the cream is first sent from the outside of the churn towards the centre, by the stationary floats, marked B B in Fig. 2. It is met by the movable floats, C C, and sent from the centre towards the outside again, thus constantly keeping up one of the most effectual movements ever discovered, for thoroughly breaking the cream, and producing the butter in the shortest possible time. Every one who has tried it, says that it turns easier in churning than any churn they ever used.

Second, **Gathering the Butter.** This is easily done, by turning the crank half way round and back again, and by repeating this motion a few times, the butter is gathered at the bottom of the churn, between the two arms of the dasher. The buttermilk can then be conveniently drawn off.

Third, **Working The Butter.** This is done by merely reversing the motion of the crank, or turning the dasher in the direction indicated by the lower arrow. It will be seen that the movable floats, C C, will close, presenting on the outside of the dasher, a smooth, convex surface. The butter is pressed into a thin sheet against the sides and bottom of the churn. By turning the crank forward again, the butter is gathered together again, and the operation of working may be continued for a few minutes, till every particle of the buttermilk may be separated from the butter. This is warranted!!!

The butter at this stage can be thoroughly washed with cold water, by those who wish. In warm weather it can be washed in ice water, thereby keeping it as cool and as hard as in winter. The washing is, of course, done by the churn.

Fourth, **Salting the Butter.** When the butter is gathered together as above described, scatter the requisite quantity of salt evenly over it, and by breaking and gathering the butter as above mentioned, a few times, the salt will be evenly and thoroughly worked in.

Fifth, **Removing the Butter, and Cleansing the Churn.** By moving a simple slide that rests on the crank, the dasher comes out entire, leaving the greatest possible convenience for removing the butter. Replacing the dasher, a quantity of water may be poured in, and a few rotations complete the washing of the churn.

The subscriber has purchased the exclusive rights of the patentee for the counties of Rutland, Addison, Chittenden, Franklin and Grand Isle. He has commenced the manufacture and sale of this churn.

Any infringement of the patent will be prosecuted.

All orders addressed C. W. Baldwin, Middlebury, Vt. will be promptly attended to.
