B. A. FAHNESTOCK'S VERMIFUGE—
This safe and only effectual remedy for worms has been more extensively used by regular practising physicians than any proprietary medicine which has ever made its appearance in the United States.
It is used with the strictest freedom and confidence by regular physicians, and is almost exclusively the medical preference in all the Middle, Western and Southern States.
The great cause of its popularity is the fact that its effects have never disappointed anybody, and which can be adduced to show that it may be used in all cases without any fears as to its results. Its perfect safety recommends it to every person, it requires no restraint while in use, and it is a specific and not a purge. Every without fail. But, in order to obtain the vermifuge article, every purchaser should insist on having genuine and back well to the wrapper, bearing the signature of B. A. Fahnestock, and a fac-simile of the signature of Fahnestock's Vermifuge, and no other.
