M. J. ROSE

— IN A —

NEW ROLE--NOT TELLING THE TRUTH!

MANY YEARS AGO, WHEN I WAS AN apprentice in '47 and '48, we ship boys used to go Coon hunting down on the South Branch of the Raritan River, near Cuit's Mills, New Jersey. So one night we tracked an old Coon to a Large Sycamore or Buttonwood tree, we found where the old Coon went in. The hole was about one hundred and seventy feet from the ground. "Hold on Rose, not you take off a few inches of that." No, I don't think I can unless that Carriage Maker that established a Carriage Shop in Eighteen Hundred and Sixty-five in Honolulu, if he comes down four or five years, I then will drop from four to five feet. At any rate the hole was so high that none of us boys could get to it. We called on the owner of the tree and he would not allow the tree to be cut. We heard the story, and our blood was stirred. So we mustered a party of about fifteen of the best of Us boys and went for the old Coon. We were bound to have him anyhow. None of us boys could climb up to the hole, so we were puzzled what to do. finally we gazed out the hole where the old Coon was, so high up in the great tree, and we not having the grinning capacity of the renowned David Crockett or the musical powers to charm, we resorted to strategy. Yes, as Artemus Ward would say, strategy my boys. Three boys were dispatched for a large bottle of petroleum oil. "Hold on *Loke*, we had no petroleum then days." I mean they went for a large bottle of Turpentine, and five boys went for the largest poles to attach together to reach the hole. The bottle of turpentine was hung to the end of the pole, and then poled up to the hole, and thrust partly into it, we then took a shot gun and shot the bottle to pieces, the contents ran down into the tree, but no Coon appeared, we then attached a lighted torch and raised it to the hole,

Then came a bust of thundering sound,
That Coon, Oh, where was he?
Ask of the flames that leaped around
That hole, in the old Buttonwood tree.
He came tearing out with a bound,
At one awful leap, he reached the ground,
And found himself in ROSE'S SHOP, where

Hawaiian Legislature.

FIFTIETH DAY.

THURSDAY, July 6th, 1882.

House met at 10 a.m. President Rhodes in the chair, and after prayer and reading of minutes of previous meeting, proceeded with the regular business.

Hon. Mr. Palohau introduced a resolution that, as the sittings of the District Court at Kawaihau, Kauai, were sometimes held in the houses of foreigners, sometimes in tea and coffee shops, at other times in any broken down building that could be obtained, the sum of $1,000 be appropriated toward building a court-house for that district. Laid on table to be considered with the Appropriation Bill.

No reports from Standing nor Select Committees being returned, nor any further resolutions being introduced, the Assembly proceeded with the consideration of bills on the "Order of the day."

The special order of the day relating to the difference between the English and Hawaiian versions of the Codes was passed over.

Third reading of the bill to amend Chapter III of the Session Laws of 1878, relating to passports.

His Excellency the Attorney-General moved that the bill pass; Hon. Mr. Keau moved the indefinite postponement.

His Excellency the Premier desired that action on the bill be delayed until the presence in the House of Hon. J. Mott Smith, who had taken a great interest in the bill, and might desire to speak in its favor. He deemed the courtesy usual in such cases should be extended to the absent member.

Hon. Mr. Keau objected to delaying, and judged that Hon. Mr. Smith, even if present, could say no more than he had said before.

Hon. Mr. Aholo concurred in the desire expressed by the Premier, that the Assembly postpone action until Hon. Mr. Smith was present. He favored the motion of the Attorney-General that the bill pass.

On motion of Hon. Mr. Pilipo, the bill was amended in the Hawaiian version; the motion to indefinitely postpone put and lost, and the bill passed the Assembly.

Third reading of a bill to amend Sections 64, 65, 66 of the Civil Code, relating to auction licenses. Passed.

Third reading of a bill to amend Section 11 Chapter LV. of the Penal Code, relating to dance-houses. Passed.

Hon. W. H. Rice, under suspension of the rules, read for the first time a bill relating to the punishment of trespassers on the grounds of female seminaries, and on motion of Hon. C. R. Bishop the bill was also read a second time.

Hon. Mr. Keau moved the engrossment.

Hon. Mr. Bishop, in support of the bill, said that the seminaries for females were usually in charge of females, no man on the premises to act as protector. These circumstances have been taken advantage of by young men and boys, and who cause great annoyance to the teachers of the seminaries and injury to the credit of the establishments. A legal gentleman connected with one of the establishments had stated that there was not sufficient law to protect these schools, hence this special Act asked for.

Hon. Mr. Nawahi had no objection to the bill read, but desired to extend the provisions of the bill to the protection of boys' schools. He knew from experience that the gentler sex oftentimes induced the boys to jump fences and walls, and that their influences were often exerted to lead in a wrong direction. Joseph had found this out a long time ago.

Hon. Mr. Bishop: "When he was at school?"

His Excellency Preston: "In Hilo." (Laughter.)

Hon. Mr. Nawahi continued, and said that he was in favor of the law, but thought that boys' schools should also be included. Moved to refer to special committee.

Hon. Mr. Aholo thought that the bill as presented should pass, as it was far more difficult to protect the grounds of female seminaries from the encroachment of trespassers only lady teachers being engaged in the instructions given to pupils, than that occupied by boys' schools where men teachers were employed.

Hon. Mr. Widemann deprecated the haste with which the bill was being carried through, and thought it desirable to refer the bill to the Committee on Education.

Hon. Noble Kapena was in favor of referring to a select committee, and on motion, the bill was so referred, the following gentlemen being appointed to serve: Hons. Rice, Preston, Pilipo, Richardson and Widemann.

Under suspension of the rules the Hon. Mr. Widemann, chairman of the Committee on Finance, presented a report from the Committee as follows:

"Your Committee on Finance beg to lay before the House the report of J. O. Carter, one of the experts employed by them to examine the books and accounts of the Finance Department.

From said report it appears that the late Minister of Finance did carry and count as cash for a considerable length of time large sums of public money in ordinary bank checks. Your Committee beg leave to say that they consider this matter unwarranted by law and reprehensible." Signed by Hons. Widemann, Nawahi, G. E. Richardson, J. L. Kaulukou and A. S. Cleghorn.

Hon. Mr. Keau moved that the report of the committee and documents presented be printed.

Hon. J. Mott Smith considered the report only a partial one, and moved that it be laid on table until other matter in the hands of the committee were reported on, and then all the reports could be printed together.

His Excellency the Premier supported the resolution that the report be printed. He hoped that the chairman of the Finance Committee would forward the other reports to the Assembly as rapidly as possible. He stated that while chairman of the same committee during the early part of May, information was given him relating to the subject now reported on, and also in relation to expenditures on Palace, and on account of smallpox. Reports on those matters had been prepared by him, but the change in Ministry occurring the matters were placed in other hands. He regarded the report presented as a separate one, and favored having it printed.

On motion the report of the committee was ordered to be printed.

Hon. Mr. Kaulukou moved adjournment until 2 p.m.

AFTERNOON.

The House assembled at 2 o'clock p.m., and proceeded with the business connected with the Order of the Day.

Third reading of a bill providing an additional term of third Judical Circuit Court. Passed.

Third reading of a bill (popularly known as the $10,000,000 loan bill) to authorise a national loan, and to define the uses to which such loan shall be devoted.

Hon. Mr. Keau moved to pass to engrossment.

Hon. Mr. Kalua moved to indefinitely postpone, and said that he had not had time to examine thoroughly all the provisions of the bill, but in the beginning of the bill it appeared that His Majesty the King is authorised to borrow the amount of loan, and just as he pleases. Now all know that His Majesty's person is sacred, and no suit can be entered against him for money borrowed. Further along one of the sections say that a Board will have the control of the loans to be made. But there are no responsibilities attached to this Board, and if they expend money in a foolish manner and the Government lose, there is no redress from members of the Board. The Government had introduced a bill calling for only two millions of intended loan, which the speaker thought was more reasonable.

Hon. Mr. Keau spoke in favor of the passage of the bill.

Hon. Mr. Kaulukou moved to refer to a select committee.

Hon. Mr. Aholo thought that to refer the bill to a select committee was the wisest action to take. There were two important questions for the consideration of the Assembly, that of loans and that of liquor. The liquor bills had been referred to a select committee, and he considered it the proper course to take with regard to the loan bill before the Assembly.

Hon. Mr. Nawahi was not favorably disposed to the large amount desired to be borrowed, and considered that the bill should be discussed in Committee of the Whole.

Hon. Mr. Kaunamano was in favor of referring to a select committee.

Hon. C. R. Bishop thought that the bill should be disposed of at once, "now and quickly." If referred to a committee it would be reported back again to the Assembly and more time would be spent over it. The Hon. member from Lahaina had said that if the bill now under discussion was rejected all the other loan bills would also be rejected. The speaker did not think so. He judged the Assembly were ready to consider all reasonable measures presented, but the difference between the loan intended by the Government of $2,000,000 and this bill of $10,000,000 were not to be compared. The bill now under discussion should be treated as the act of some person inexperienced in financial matters. A damage to the character of the Assembly and injury to the credit of the country would result if this bill was treated as though there was a probability of its passage. Thus far the Government had always had good credit at home and abroad. Hoped that the character would be maintained, and that, by throwing the bill out. Hoped most earnestly that the bill would be Indefinitely postponed.

Hon. Mr. Widemann was also in favor of the indefinite postponement.

Hon. Mr. Aholo spoke against the postponement, and moved the previous question, bringing up the motion to indefinitely postpone to a vote.

On motion of Hon. Mr. Pilipo the Ayes and Nays were taken on the indefinite postponement, and the result showed that the motion to postpone was lost, 26 nays to 15 ayes.

The bill was then referred to a special committee of eleven, consisting of Hons. Preston, Kauinkou, Lilikalani, Aholo, Cleghorn, Bush, Aiwohi, Kalua, Pahia, Kauai and Nakaleka.

On motion of His Excellency the Minister of Finance the rules were suspended and the Government Loan Bill of $2,000,000 was read for the second time and referred to the same committee of eleven.

At 3:45 p.m. the House adjourned until 10 a.m Friday.

FOREIGN NEWS.

LONDON, June 17.—The police to-day have effected the seizure at Clerkenwell, of a large quantity of arms, which were known to have been intended for shipment to Ireland.

ROME, June 8.—The desire expressed by Garibaldi that his remains should be cremated, cannot be carried out owing to various reasons, and the idea has therefore been abandoned. The interment of his body takes place to-day, at the Island of Caprera. The funeral, it is expected, will attract an immense concourse of people.

SYDNEY, June 15.—The Commissioner of Railways has authorised the newspapers to state that the railway transactions of the New South Wales Government for 1881, the details of which have just been completed, show, after paying all working expenses, the cost for maintenances and renewals, a net profit of 5.31 per cent. on the capital invested in the lines open for traffic.

SUVA, FIJI, June 10.—The *Times* says:—"The first of the labor recruiting fleet have again started on the second trip. Food seems plentiful everywhere this year, and the experienced in that trade all augur difficulty in filling up with immigrants as the season goes on."

The same paper refers to the alleged intention of recurring to the old arrangement by which the San Francisco boats called at Fiji, and says that "there seems good ground for the belief that it has been very favorably considered, and that the next contract will most probably include that arrangement."

LEVUKA, FIJI, June 10.—An unquiet spirit has lately been abroad amongst the Polynesian laborers engaged in and about Levuka. During the moonlight nights of last week there were several tumultuary gatherings in the neighborhood of Vagadace, and on Sunday afternoon the matter culminated in a grand free fight down about Waitovu. In the course of the riot some of the men were very roughly handled.

It is stated that when the recruiting schooner Winfred was on her last voyage one of her boats was fired upon by the natives at the Island of Ambryn The usual plan was adopted. The boat touching at one point was invited to coast along a little bit where there were "plenty men." There was also there a good rocky ambuscade. Then from behind these rocks the native detachment assigned for the purpose fired on the boat or boats. Happily in this instance the recruiting agent observed the ruse in time and pulled rapidly off, so that though the shots were fired upon the beach no one was hurt.

The papers to hand per H. W. Almy contain the following additional items of news about the Egyptian troubles:—"Alexandria, June 17.—Up to last evening the total number of corpses found of Europeans killed in last Sunday's riots were 304. An eye-witness states the Europeans who took refuge in police stations were massacred by gendarmes. A correspondent declares the rising was organised by the prefect of Police. Thousands of Europeans are arriving from the Interior. London, June 17.—The Government, with the approval of France and Turkey, has determined to protect the Suez Canal with British troops. Transports have accordingly been ordered ready for embarkation."

Destructive Fire.

MONTREAL, June 14.—A terrible fire broke out last night in Clendenning's block, Victoria square. It originated in Miller's bookbindery and extended to the premises of Greenshield, Sons, and Co., dry goods, McIntyre and French, dry goods, and Clendenning's, stoves. The losses are. Miller, $150,000; Greenshield, $250,000; McIntyre and Co., $400,000; Clendeenning's buildings and stock, $550,000. All are insured in leading English and Canadian insurance offices for three-fourths of the value. At 12.50 o'clock the fire raged as fiercely as ever. The water power at the beginning was not sufficient to cover the upper stories of the buildings where the flames had the strongest hold. Three steam engines, all the city contains, seem useless in conquering the fire. From all appearance the whole block will be destroyed. The origin of the fire is unknown.

A Gigantic Land Company.

BOSTON, June 8.—The *Herald's* Montreal special of 7th sys: The land scheme of the Duke of Manchester is now a certainity. Negotiations were closed today with the Canada Pacific Syndicate for 5,000,000 acres, in a section running from Brandon to the eastern boundary of British Columbia, with an interest in all town sites laid out by the railway company. The price was $2.70 per acre. The scheme will be called the Canadian and Northwest Land Company. Its capital is $15,000,000.
