(Commenced April 3d,)

APPLETON'S JOURNAL,

A WEEKLY PAPER,

Devoted to Literature, Science and Art.

Omitting ordinary news, and avoiding partisan advocacy, both political and sectarian, the Journal will be devoted to general literature, to science, art, and education, and to the diffusion of valuable information upon subjects of public importance. It is intended to make use of all resources, original and selected, domestic and foreign, which can give interest and variety to its pages; and neither exertion nor expense will be spared to secure the aid of the best talent of the time. We abstain from the large professions and the parade of conspicuous names so common on these occasions, and, trusting to the intelligence of the people, shall be content to let the Journal speak for itself.

The department of literature will embrace:

FICTION, IN THE FORM OF BOTH SERIAL NOVELS AND SHORT STORIES;
ESSAYS UPON LITERARY AND SOCIAL TOPICS;
SKETCHES OF TRAVEL AND ADVENTURE;
DISCUSSIONS UPON ART, BOOKS, AND KINDRED THEMES
PAPERS UPON ALL THE VARIOUS SUBJECTS THAT PERTAIN TO THE PURSUITS AND RECREATIONS OF THE PEOPLE, WHETHER OF TOWN OR COUNTRY; and
POEMS BY OUR FOREMOST POETS.

Illustrations will form an important feature in the plan of the Journal. Nearly every number will be accompanied by either an

ILLUSTRATED SUPPLEMENT ON SOME POPULAR THEME, A STEEL ENGRAVING IN THE BEST STYLE OF THE ART, OR A LARGE CARTOON ENGRAVED ON WOOD.

No. 1—Contains a Cartoon of the Grand Drive in the Central Park, a Spiritled and Animated Scene.

No. 2—Contains an Eight-Page Supplement of Underground Life and Mining, with Ten Illustrations.

No. 3—A Steel Engraving of Noon on the Seashore, from a Picture by Kensett.

No. 4—An Art Supplement containing New York Illustrated with Thirteen Superb Illustrations.

No. 5—A Superb Cartoon of the Levee at New Orleans.

Novelty, freshness and continual change will be aimed at in this department. The illustrations will usually be valuable as works of art; those on steel, and the Cartoons, consisting of views of American scenery, by our most distinguished painters, and illustrations of character and life, by our foremost draughtsmen. They will be printed with extra care on spare sheets, and may be either bound in the volume at the close of the year, or framed to hang upon the wall. The Journal, in this feature, will be unlike any other.

THE BARTRAM & FANTON

ELASTIC STITCH SEWING MACHINES,

—FOR—

Family and Manufacturing Purposes.

The manufacturers of the above Machine believe that, after a careful and thorough examination as to the merits and qualifications of the different kinds of Machine adapted to FAMILY SEWING, they have OVERCOME the FAULTS and IMPERFECTIONS of the many now in the market, and have produced a Machine that is pronounced by competents to be BETTER DESIGNED, BETTER MADE, BETTER FINISHED, MORE SIMPLE, ACCURATE and RELIABLE, with a GREATER CAPACITY for PERFORMING ALL KINDS of

FAMILY SEWING,

Than any other Machine ever before offered to the public, and are so perfect and simple in their construction that a novice can operate them with perfect success.

For Heavier Grades of Work,

The Original Howe Sewing Machines

ARE THE BEST IN THE WORLD,

They being the first Sewing Machines ever made, and having been manufactured continuously under the supervision of the original inventor, ELIAS HOWE, JR., since their first introduction in 1845. They have invariably won the highest honors at the great Exhibitions of the world, culminating at the late EXPOSITION UNIVERSELLE AT PARIS, where the Grandest Combination of Prizes ever awarded at any Exhibition, to any Exhibitor, for any goods whatever exhibited, was awarded to the HOWE MACHINE COMPANY and their President, ELIAS HOWE, JR., the Imperial Prize, the Cross of the Legion of Honor, a Gold Medal, (the highest prize within the gift of the jury,) and a Silver Medal of equal grade with the highest prize awarded for any other Sewing Machine, being the result of the EVIDENT EXCELLENCE OF THE HOWE.

Many imitators have endeavored to foist inferior Machines on the public, more, probably, than of all other Machines combined. Every possible pretext and excuse has been used for this purpose, until it has come to this, that we are constantly asked to repair or furnish new parts for Machines we never saw, and which were bought for Howe Machines. Take no dealer's word for it that a Machine is a genuine Howe unless it bears the trade mark.

The only manufacturers of the Howe Sewing Machines are the Howe Machine Company, and there is no other manufacturer of the same name in the world.
