How to Gain Weight A Pound a Day

Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy "stay there" fat should try eating a little Sargol with their meals for a while and note results. Here is a good test worth trying. First weigh yourself and measure yourself. Then take Sargol—one tablet with every meal for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think. The scales and the tape measure will tell their own story, and most any thin man or woman can easily add from five to eight pounds in the first fourteen days by following this simple direction. And best of all, the new flesh stays put.

Sargol does not of itself make fat, but mixing with your food, it turns the fats, sugars and starches of what you have eaten, into rich, ripe fat producing nourishment for the tissues and blood—prepares it in an easily assimilated form which the blood can readily accept. All this nourishment now passes from your body as waste. But Sargol stops the waste and does it quickly and makes the fat producing contents of the very same meals you are eating now develop pounds and pounds of healthy flesh between your skin and bones. Sargol is safe, pleasant, efficient and inexpensive, and all leading druggists in New York and vicinity sell it in large boxes—forty tablets to a package—on a guarantee of weight increase or money back.—Adv.

Fifteen Huge Crates Bought at Half the Importer's Landed Price and to Be Offered at Less Than Cost to Import—$13.50 for 108-piece Sets

Complete with four sizes plates, four meat dishes, four vegetable dishes, two of them covered.

The border is blue with orange flowers, every piece is gilt and handles are covered with coin gold.

Duplicates of these sets were earlier in our March Sale at $17.50. This pattern was among the first to sell out. In the meantime a firm in another city decided to put this border in its open stock. When the sets arrived, however, something happened. They were left on the agent's hands. "I cannot bother with fifteen crates," said he.

So they come here at less than half the standard price.

Naturally there will be a large number of complete sets in these crates, but they should go in a day. In addition, a number of odd pieces also priced at less than importer's cost. Plates, tea cups, fruit saucers, vegetable dishes, sugar bowls, cream pitchers, oatmeal saucers, etc.

They are wonderful sets at $13.50. We never saw their like at the price.
