TAUSCHER'S PART IN PLOT TOLD BY VON DER GOLTZ

Witness Testifies That Krupp Agent Furnished Dynamite and Pistols.

Franz C. Wachendorf, alias Baron von der Goltz, was the principal witness to-day before United States District Judge Hand and the jury trying Capt. Hans Tauscher for alleged complicity in the plot to blow up the Welland Canal near Buffalo in August, 1914. He testified that the plan to invade Canada with an armed force having been overridden by Count von Bernstorff, the German Ambassador at Washington, Capt. Franz von Papen, recalled military attache of the German Embassy, engineered a plot to blow up grain elevators, bridges, canals and railroads along the Canadian-American border.

The purpose of this campaign of terror, said Wachendorf, was to throw the Canadian people into a panic, destroy the morale of their troops and stop the sailing of troops and munition laden steamers to England. The plan had been successful in Mexico, Von Papen told Wachendorf and the military attache, the witness declared, had been a close observer of Mexican affairs before his forced recall.

Capt. Tauscher listened with amazement, his mouth wide open, to the story in which he was mentioned as the von Papen friend who furnished the dynamite and firearms for the Welland expedition. Capt. Tauscher for many years has been the Krupp agent in this country, while his wife, Mme. Gadski, has been singing in opera and concert.

Wachendorf, who has travelled under a dozen aliases and under almost as many fake American passports, came to the United States in May, 1912—a soldier of fortune, he said. He enlisted in the United States Army, stayed there till March, 1913, and deserted because there was nothing doing. He went to Mexico and got a commission from Villa, returning to New York in August, 1914. He saw von Papen at his office and at the German Club, he said, and was told by the attache of the Canada plans.

After Wachendorf had accepted employment from Capt. von Papen the latter gave him a letter to German Consuls at Baltimore and St. Paul, asking them to do everything possible for Wachendorf, then travelling under the alias Bridgman Taylor. It was signed by von Papen as Military Attache and Captain of the German General Staff, the witness said. The letter was introduced in evidence. He got a crew for the Canadian enterprise consisting of Albert Fritzen, Corain, an Italian, Frederic Hasse, and Charles Tucker, alias Tuckhaer.

"I was then sent to Capt. Tauscher," said Wachendorf. "He, von Papen told me, would furnish all the dynamite and guns needed.

"The automatic pistols were to be used in making a clean get away in case we were discovered. I met Capt. Tauscher, who gave me an order for 300 pounds of dynamite and directed me to go to a barge moored near the Statue of Liberty in a motorboat and get the explosive. He said the six pistols would be delivered to me at Meyer's Hotel in Hoboken. I received them and Fritzen and Corain went with me to the barge where we got the dynamite."

The written order for the dynamite, signed by Capt. Tauscher, was admitted into the record.

The name of John Devoy, editor of the Gaelic American, and a man named Tuite, also an Irishman, were introduced by Wachendorf when he testified that just before he left for Buffalo von Papen told him to go to his room in the Holland House and two Irishmen would call on him in the night.

"I went to my room as directed," the witness said, "and at night two Irishmen, who said they were John Devoy and Tuite, called on me. They spent half an hour with me showing plans and maps of the locality around the Welland Canal."

Using these maps, the witness explained, he went to Welland, Canada, from Buffalo and inspected the works, picking out what he considered were vulnerable spots. The money for his expenses, the witness declared, was paid by John Ryan, a Buffalo lawyer, who had been selected as the handler of funds, according to the witness, by Devoy.

Chapman Fell in German Lines.

PARIS, June 26.—Victor Chapman of New York, of the Franco-American Flying Corps, who was killed at Verdun on Friday, probably fell inside the German line, since it has been established that the aerial combat was above German positions at the moment he was shot.

CARTER'S LITTLE LIVER PILLS

WALL STREET

Market opened quietly, but soon showed a tendency to sell lower. Slight rallies brought out fresh selling orders and U. S. Steel lost a point from the opening, to 83¼. Reading rallied partly, but was subjected to new pressure and sold at 96⅛, off 3 points. Alcohol lost 4⅛, Studebaker lost 3, and general market lost from 1 to 3 points. Corn Products was weak and active on court order to dissolve. While a few issues sold lower standard stocks held steady. Reading sold at 95.

Short covering in late trading rallied some of the active stocks that had suffered most in the decline, but decline was general throughout the list.

He denied the charges and was paralled until Thursday for further examination. Hughes is attached to the Mulberry Street Station.

Like a Boy at 50 Bubbling Over With Vitality—Taking Iron Did It

Doctor says Nuxated Iron is greatest of all strength builders. Often increases the strength and endurance of delicate, nervous folks 200 per cent. in two weeks' time.

Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man; in fact, a young man he really was, notwithstanding his age. The secret he said was taking iron—nuxated iron—had filled him with renewed life. At 30 he was in bad health; at 45 extremely and nearly all in. Now at 50 a miracle of vitality and his face beaming with the buoyancy of youth. As I have said a hundred times over, iron is the greatest of all strength builders. If people would only throw away patent medicines and nauseous concoctions and take simple nuxated iron, I am convinced that the lives of thousands of persons might be saved, who now die every year from pneumonia, grippe, consumption, kidney, liver and heart trouble, etc. The real and true cause, which started their disease was nothing more nor less than a weakened condition brought on by lack of iron in the blood. Iron is absolutely necessary for enabling your blood to change food into living tissue. Without it, no matter how much or what you eat, your food passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then see your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people, who were ailing all the while, double their strength and energy, and entirely get rid of all symptoms of dyspepsia, liver and other troubles, in from ten to fourteen days time, simply by taking iron in the proper form. And lots after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of inorganic iron, unless or doctor of course, wants to earn a few cents. You must take iron in a form that can be easily absorbed and assimilated, like nuxated iron, if you want it to do you any good, otherwise it may prove worse than useless. Many an athlete or prize fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the affray, while many another has gone down to inglorious defeat simply for the lack of iron.—R. Sauer, M.D.

NOTE.—Nuxated Iron recommended above by Dr. Sauer is not a patent medicine nor secret nostrum, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians everywhere. Unlike the inorganic iron tonics it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach, on the contrary, it is a most powerful tonic, in nearly all forms of indigestion, as well as for nervous run-down conditions. The manufacturers have such full faith in its value that they offer to forfeit $100 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and in three weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed by all druggists.—Adv.

$35, $40, $45, $50 SUITINGS

I buy out the entire stock of Geo. W. Brown, woollens, Skinner's silk and satin, Belgian canvas, fine linings, etc., who has been located for the last thirty years in the Studio Building, 110 Tremont St., Boston. This stock of woollens comprises as choice a line of goods, with as great a variety, as any tailor in New York could boast of. Mr. Brown was a keen business man, and, if his woollens are any criterion, a man of great cloth intelligence.

The great bulk of this stock was purchased through the commission house of William B. Leonard, whose cloths can be found in no tailor's shop who sells goods under $35 for a suit, and I offer you a range of worsteds with the original William B. Leonard tickets on them, at a price.

Three-Piece SUIT To Order $15.50

These cloths were never put in a suit by Mr. Brown to sell under $35, and from that up to $60. I offer you the original tickets of Macullar Parker Co., Boston's greatest wholesale woollen concern; the original tickets of Lippincott, Johnson & Co.; Wain, Shiell & Son, a fine London concern, and other houses of similar character.

This stock is mostly confined styles, nearly all London Shrunk, and of a quality that no man can question for color. It comprises a variety of merchandise that is never used in suits to sell under $35-$40-$45-$50, and I to-day advertise them and advise my old customers to get in early on the purchase so they can pick out as many styles as they choose.

Three-Piece SUIT To Order $15.50

From what information I can gather, Mr. Brown did not intend to retire at this season, and I am given to understand that most of the heavyweights in this range are next fall's goods. There are no crazy patterns, everything clean staple effects. Blue Cheviots, Blue Serges, Gray Unfinished Worsteds, neat, quiet Sharkskin weaves; Tartan Plaids, Tartan Checks, and a general variety of everything that would constitute a merchant tailor's stock.

If you were a tailor it would be hardly possible for you to get the suit pattern for the price I am charging for a suit made to fit or new suit made. I will line these goods with a fine alpaca lining. They will be cut under the eye of the highest salaried designer of custom clothing in the country to-day, made by union help, under union conditions, in sanitary shops.

I would be pleased to have every reader of this paper call and get sample for inspection.
Signed.
MITCHELL THE TAILOR.

Mr. Reader, if some day you wake up and read in the paper how MITCHELL THE TAILOR has bought out your favorite tailor, the man who charged you $50 or $60 for a suit of clothes, I want you to weigh well this fact: That his merchandise does not depreciate one iota in the removal from his high-priced tailoring establishment to my store, where prices are less than one-third. Mr. Brown's goods were considered good value at an average of $45 a suit. They are extremely good value in my store at a price of $15.50. With due respect to the high-priced tailors in New York, I don't believe there is one of them who, in his own mind, thinks he can cut a suit with the character and style that Mr. Macdonald imparts to his clothing. There isn't a tailor in New York who has the variety of woollens that can be found in my establishment, and no tailor, at any price, carries better merchandise.
