A CARD TO THE LADIES.

Dr. P. Dupont's Golden Periodical Pills, for Females.

Infallible in correcting irregularities and removing obstructions of the monthly turns, from whatever cause.

These pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalleled success in every case; and he is urged by many thousand ladies, who have used them, to make the pills public for the alleviation of those suffering from any irregularity whatever, as well as to prevent pregnancy to those ladies whose health will not permit of an increase of family.—Pregnant females, and those supposing themselves so, are cautioned against using these pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness will prevent any mischief to health; otherwise these pills are recommended. Full and explicit directions accompany each box.

Their ingredients are known to all Agents selling them, and they will tell you, they are the best Pills ever introduced for all diseases peculiar to females. Price $1 per box.

Sold wholesale and retail by

DR. J. H. ROBINSON

ON THE

NORTHERN TRAPPING GROUNDS!

Nick Whiffles "in the Pison Newspapers ag'in, by mighty!"

The

NEW YORK MERCURY

FOR SATURDAY, JUNE 25th, 1859.

(NOW READY AT ALL THE NEWS DEPOTS AND BOOK STORES,)

Will contain the initial chapters of a new Western tale, from the graceful and felicitous pen of

DR. J. H. ROBINSON,

who has been engaged to write EXCLUSIVELY for that journal for a term of years. This story is entitled

"PATHAWAY;

OR,

THE MOUNTAIN OUTLAWS!

A TALE OF THE NORTHERN TRAPPING GROUNDS."

And is considered by the author to be the very best work which his talent has yet produced.

Those who know the dramatic power and ELEGANT STYLE, the interesting situations and BEAUTY OF INCIDENT, which have rendered famous all the writings of the

Author of "Buck Bison,"

cannot but hail with delight this new emanation from his pen.

THE TRAPPING GROUNDS OF THE NORTH AND WEST

form a peculiarly favorable field for the location and working out of a romance, and the characters that roam through that FLOWERY WILDERNESS are especially fitted for introduction into its pages.

The readers and admirers of

Dr. Robinson's Writings

will remember with pleasure the character of

"Nick Whiffles"

in a story of that name, recently published, and will be glad to learn that the same personage will figure in

PATHAWAY,

surrounded, as ever, by many "Dilliklities," and lending to the romance a vein of sympathetic humor and quaint drollery that will render it irresistible to the lover of fun and the student of human nature.

In addition to this attraction, the plot will be found more INTRICATELY MYSTERIOUS, and the situations more replete with the fire of DRAMATIC INTEREST, than in any other story the author has yet written. It is full of

Wild Life and Action,

crowded with stirring incident and

Perilous Adventure,

and through the whole story runs an underplot which interweaves a *golden threaded woof* of sentiment, tinting all with the radiant light of the *gentle charm of love*.

The most exciting and picturesque scenes of

PATHAWAY

will be chosen as the themes for a series of

Beautiful Illustrations,

from the pencil of the most celebrated of American artists,

FELIX O. C. DARLEY,

whose drawings have made the

New York Mercury

such a favorite with all who appreciate true artistic excellence. The clear and vivid style of Dr. J. H. Robinson's descriptive writing is such that the artist can seize upon his creation without difficulty, and thus the best powers of

PEN AND PENCIL

are brought to bear with as great a unanimity as if both were wielded by one person.

The proprietors of the Mercury are proud of the popularity which their journal has attained, and cannot but take some little credit to themselves for the good which they believe they have done in carrying out their first intention—that of making the

New York Mercury

a medium for the familiarization of the reading public with the best works of the most

DISTINGUISHED AMERICAN AUTHORS.

To secure this end, they have spared no expense; and whatever they have thought could gratify the tastes of their Thousands of Readers, they have done, without questioning either the labor or expenditure required.

For the EXCLUSIVE RIGHT to the works of

DR. J. H. ROBINSON

they pay a larger sum than any American romancer has ever before received from any newspaper, and the public are already aware of the great outlay necessary for the engagement of such men as

BAYARD TAYLOR,
FELIX O. C. DARLEY,
GEORGE ALBANY,

and others. Yet it is believed that the increasing

Refinement of the Popular Mind

demands such men, and the "Mercury" is intended to keep up with the progress of the age.

A series of

Brilliant Novelties

will appear in the columns of this

JOURNAL OF

AMERICAN LITERATURE,

in rapid succession, and while the proprietors are eminently well satisfied with the share of popularity hitherto accorded, they are determined to deserve still more by using every means possible to increase the attractiveness of their paper.

Lyon's Magnetic Powders

Will destroy Garden Insects, Cockroaches, Bed Bugs, Fleas, Ants, Moths, and all pests of the Vermin kind.

The importance of a reliable article of this kind is inestimable. In warm weather all nature teems with these annoying foes. This powder is the only article ever discovered which will exterminate them. A company of botanists, from the Horticultural Society of Paris, while amidst the forests of Asia, observed that all insects lighting upon a certain kind of plant, were soon dropped dead. This fact was made use of to guard their night camps from these intruders. Quantities of the plant were brought home by Mr. E. Lyon, and found a positive insect destroyer in every experiment. It is simply a powdered leaf, chemically prepared to resist the effects of age and climate. Medals and Letters Patent have been obtained from the Governments of England, France, Germany and Russia, from the world's Fair, Fair, and numerous medical and horticultural colleges and societies.

Letter from the President of the United States.

Executive Mansion' Washington, Jan. 31, '58.

MR. EMANUEL LYON—Dear Sir: I have the pleasure to inform you that the Royal Commission of the World's Fair, at London, have awarded you a Medal and Certificate for the great value of your Magnetic Powders, for exterminating insects, &c.

MILLARD FILLMORE, Chairman.

The above was accompanied by a certificate from Prince Albert.

It is free from poison.

NEW YORK, October 1, 1858.

MR. E. LYON—Dear Sir: We have analysed and tested your Magnetic Powders, and find them perfectly harmless to mankind and domestic animals, but certain death when inhaled by bugs, ants and insects.

MES R. CHILTON, CHEMIST.
SARANCE REID, PROF. CHEMISTY, N. Y. Hol AL

Mr. JOHN L. ROME, Superintendent New York Hospital, says "he has expelled all the bugs, ants, roaches, moths, &c., with Lyon's Powder, and finds it of immense value."

Every gardener and housekeeper must have a direct interest in an article of this kind. References can be made to the Astor, St. Nicholas, and Metropolitan Hotels, to Judge Meigs, President of the American Institute, James Gordon Bennett, Gen. Winfield Scott, Cyrus W. Field, L. M. Pease, the Five Points Mission, &c. &c. Judge Meigs says "This discovery of Prof. Lyon is of national importance. The Farmers' Club have tested it thoroughly. It will destroy locusts, grasshoppers, ants, moths, bugs, and all vermin. Garden plants can be preserved, and houses made pure."

Arrangements are now made through Messrs. Burns & Park, of New York, to have it sold throughout the world. Many worthless imitations are advertised.—Be cautious!

"NEW YORK, Nov. 8, 1858.

"In retiring from business, I have sold all my Insect Powders and Pills, Letters Patent, and the secrets pertaining thereto, to Messrs. Barnes & Park. The Powder is a discovery made by myself, and brought from the interior of Asia, and is unknown to any other persons. The genuine and effective article is put up in tin canisters, and will continue to bear my name. E. LYON."

Flies and mice cannot be reached by a powder, and are killed by a Magnetic Pill. Order them through any merchant.

"'Tis Lyon's Powder kills in sixty for a trice,
But Lyon's Pills are relished for rats and mice."

Sample Flasks, 25 cents; regular sizes, 50 cents and $1.00. Follow directions. Use freely and thoroughly.
