FINE WEATHER AND THE CROPS.

WARMED into life by sunny showers,
The forest trees their buds unfold;
The meadows gleam with cuckoo flowers,
And bright marsh-marigold:
And the daisy springeth up
With the sister buttercup.

On hyacinth and cowslip wild
Feeds daintily the honey-bee;
In thicket and in grove the child
Plucks the anemone:
Bloom and verdure everywhere
Cheer the eye with pictures fair.

'Mid all that's beautiful and bright
Around us, not a vision sweet
Can match that truly charming sight,
The growing crop of Wheat:
Talk not of the flowery dell!
Wheat, my bucks, is looking well.

Fair is thy prospect, blooming May!
This rather late but lovely Spring.
Fairer the prospects of the hay—
A more important thing:
How the mangel-wurzel grows!
Never mind the opening rose.

The young and tender turnips see—
(Oh! how delicious are their greens!)—
They are as healthy as can be:
Behold yon thriving beans,
Fields of clover, oats, and peas,
What are spangled meads to these?

The money market may be tight;
But, gazing Nature's beauties o'er,
I feel that all will soon be right;
The rate of discount lower;
Coupled with improving rents,
Scrip, bank stock, and three per cents.

The fond conjecture I will risk
That business will again, ere long,
Become, like vegetation, brisk,
Or yonder skylark's song:
And my hope has found these props
In the weather and the crops.

Connecticut Homestead Law.

The following is a copy of the Homestead Exemption Law lately enacted in Connecticut:

SEC. 1. So much of a homestead or domicil, being the property of any one person having a family, as does not exceed in value the sum of *three hundred dollars*, and as will reasonably and conveniently accommodate only such person and family and such live stock as is now exempt by law, from warrant and execution, shall be, and the same hereby is, exempt from being taken by any warrant or execution for any debt whatever.

SEC. 2. That whatever structure, apartment, tenement, addition or repair, made from time to time in reference to said homestead or domicil, as shall only be reasonably necessary to accommodate as aforesaid (though said homestead or domicil may thereby, in some slight measure, become enhanced in value,) shall in like manner be exempt from any warrant or execution for debt: *Provided*, That all structures, apartments, tenements, additions or repairs not reasonably necessary for the accommodations aforesaid, may be liable to be taken and disposed of for debt, duty or tax, in the same manner as if this act had not passed: *Provided*, That the provisions of this act shall extend only to the exemption as aforesaid of said homestead or domicil and to such structures, apartments, tenements, additions or repairs, as are acquired or made from and after the passage of this act; and *provided*, also, that all existing laws exempting property from execution or warrant for debt or taxes shall not be affected by the provisions of this act.

SEC. 3. That all acts or parts of acts inconsistent with the provisions of this act, be, and the same are, hereby repealed.

FIVE MEN KILLED BY LIGHTNING.—A Telegraphic Dispatch from the Troy Daily Post communicates the following astounding information: During the thunder shower on Sunday a grocery store at Fort Edward, Washington County, was struck by lightning, instantly killing five men and severely injuring three others, names unknown. The building was literally torn to pieces.

Of this sad affair, the Saratoga Republican says: "We learn that five persons were instantly killed by lightning, at Fort Edward, Washington County, during the storm on Sunday afternoon, the 11th inst. They were all sitting together in a grocery store, near the lock on the Champlain Canal, and although several others were in the store at the time, five only were struck by the fluid. One of these was the captain of a boat who had just come in to escape from the storm, another was a brick maker, named Reynolds, formerly from Schenectady.—The names of the others we could not learn.

AFFRAY AT THE FALLS.—We learn verbally that, on Saturday evening last, an occurrence took place at Niagara Falls which well nigh became serious in its consequences. We have the strong belief that an attempt was made by colored persons residing there to kidnap some one or two colored servants of Southerners visiting at the Falls, and that they so far succeeded as to get them away from their masters and conceal them.—Several of the citizens, in aid of the masters, instituted a search for the missing blacks, and in an attempt to examine a house occupied by a colored family, where suspicion had led them, they were met by the use of fire arms, and we understand that several shots passed between the assailants and the defenders of the premises, which resulted in the wounding of several persons on both sides, but not dangerously, as the guns were only charged with shot.

It has occasioned considerable excitement, as the citizens generally have endeavored to inspire visitors from the South with the belief that, so far as in them lies, their rights and property shall be protected from molestation. We understand that the servants were forced away from their masters contrary to their wishes or desires, which, if so, the interference is one that entitles those engaged in it to severe punishment. [Buff. Express.

FIRE.—A fire broke out this morning about a quarter after 1 o'clock, in the patent leather and morocco manufactory of Mr. Isaac Brant, situated on Breldebaugh alley, running from Saratoga-st. to the Falls, between Gay and Holladay-sts. The whole building, with the entire stock of Mr. B., was entirely destroyed. He had an insurance of $600 on his stock. The building belonged to Mr. Francis Hyde, and was insured for $1,400. A widow lady named Wright, who with her children resided in the vicinity of the above fire, was aroused by the flames breaking into her dwelling. She barely escaped with her life and the lives of her children, not having time to save hardly any of their clothing, thus leaving them in quite a destitute condition. It would be well for the benevolent to see to this lady's condition. [Baltimore Patriot, July 13.

FIRE.—The stable of Thomas Parsons, Boston, was destroyed by fire early Tuesday morning. Loss about $2,000, insurance $1,000. Two dwellings adjoining, owned by Mrs. May and occupied by six poor families, were also destroyed. One or two other buildings adjoining were slightly injured.

☞ The Empire will be here this afternoon or evening, on her way to Buffalo. We understand that THURLOW WEED, the widely known and able Editor of the Albany Evening Journal, is a passenger, and will spend a few days in town. Though we differ most decidedly, in politics, we welcome him to our city. [Milwaukee Wisconsin.

☞ The Senate of Maine has passed unanimously the resolves for an amendment to the Constitution prohibiting a pledge of the State faith and limiting the State Debt.

THE ONLY INDEPENDENT, CHEAPEST and most agreeable medicine of the Age. DR. DEWITT C. KELLINGER'S INFALLIBLE LINIMENT, which is universally used by the Medical Faculty, throughout the city and country. It eradicates all pains, heals sores, reduces inflammation, extracts fire, &c. &c. of the most aggravated character, immediately. Only one teaspoonful is required to be taken as a dose, for an adult, for diarrhœa and bilious cholic; ten dollars for the cure will be paid for any failure in these cases, if used according to direction. It is put up in large bottles, so that all who have horses can afford to use it; it lays all the other remedies on the shelf, after they get one trial of this truly wonderful and incomparable compound—it is only about 3 cents an ounce. Sold at 50 cents a single bottle; one dozen, $4; half gross and gross at much greater deduction of price. Hence the riches and the prosperity of all the stage proprietors of New-York city, the Harlem Railroad and other large companies, together with all our best and most distinguished horse-trainers and dealers, laying down all other remedies used by many of them from 20 to 30 years—and now will use this altogether, and will not nor do not use anything else. It can be obtained always genuine, wholesale and retail, of S. INGERSOLL & CO. 230 Pearl-st. removed from 90 John-st. and from Wm. Kellinger at Williamsburgh, at the foot of Grand-st. ferry; of Mr. Kyle, Harlem Railroad office, City Hall, Park, New-York City; and at the druggists, store-keepers, saddlers, and taverns throughout the city and country generally. Distributing Agents are wanted from all parts of the United States, to whom large profits will be given. We will pay the expenses of all who may come from a distance to treat with us, if we fail to satisfy their most sanguine expectations in relation to its truly wonderful curative effects upon man and horse. Traveling merchants of every respectable class and denomination will do well to call on us; it will not be confined to any privileged few. Therefore, all who have hearts and souls fashioned as they should be, and dare try and exercise them—can profitably assist in spreading the magic sanative over the face of the whole inhabitable globe, where it must and shall be. Medicines.

GREAT AMERICAN REMEDY.
WESTERN NEW-YORK COLLEGE OF HEALTH, 207 MAIN-ST. BUFFALO, N. Y.

DR. G. C. VAUGHN'S VEGETABLE LITHONTRIPTIC ADVERTISEMENT FOR 1847.—"*I Came, I Saw, I Conquered.*" is most emphatically the case with this article. Disease has ever yielded to its most marvellous medicinal power. Wherever it has gone, and South America, England, Canada, and the United States have proved the truth of this statement, the above quotation, in a strong and pithy sentence, tells the whole story. Invalids, the principle upon which you are cured may not be known to you, but the result of a trial of the article is satisfactory; you are restored, and the secret of the cure remains with the proprietor. The medicine is a compound of 22 distinct vegetable agencies; each individual root has its own particular, exclusive, medicinal property, conflicting with no other compound—each root makes its own cure—and as a perfect combination, when taken into the system, it does the work which nature, when her laws were first established, intended it should do—purifies, strengthens, and restores the broken down, debilitated constitution. Dropsy, in all its characters, will be completely eradicated from the system by its use. See pamphlets in agent's hands, for free circulation—they treat upon all diseases, and show testimony of cures. Gravel, and all complaints of the urinary organs, form also the cause of great suffering, and VAUGHN'S LITHONTRIPTIC has acquired no small celebrity over the country, by the cures it has made in this distressing class of afflictions. So famed, it seems, is this medicine, that it has thus attracted the notice of one of our medical publications. In the the November number, 1846, of the "Buffalo Journal and Monthly Review of Medical and Surgical Science," in an article upon calculous diseases, and "solvents," the writer, after noticing the fact that the English Government recently purchased a secret remedy, and also noticing the purchase in 1842, of a secret remedy, by the Legislature of New-York, thus pays tribute to the fame of the Medicine: "Why do not our Representatives in Senate and Assembly convened, enlighten and dissolve the suffering thousands of this country, by the purchase of Vaughn's Vegetable Lithontriptic, than which no solvent, since the days of Alchemy has possessed one half of the fame?" Reader, here is a periodical of high standing, acknowledged throughout a large section of this country to be one of the best conducted journals of the kind in the United States, exchanging with the scientific works of Europe to our certain knowledge, edited by Austin Flint, M. D. and contributed to by men of the highest professional ability, thus stepping aside to notice a "secret remedy." You will at once understand no unknown and worthless nostrum, could thus extort a comment from so high a quarter—and consequently, unless it directly conflicted with the practice of the faculty, it must have been its great "fame" which has caused it to receive this passing notice. Kidney diseases, weakness of the back and spine, irregular, painful and suppressed menstruation, fever chills, and the entire complicated train of evils which follow a disordered system, are at once relieved by the medicine. Send for pamphlets from agents; and you will find evidence of the value of the Lithontriptic there put forth. As a remedy for the irregularities of the female system, it has in the compound a "root" which has been resorted to in the North of Europe for centuries—as a sure cure for this complaint, and a restorer of the health of the entire system. Liver complaint, jaundice, bilious diseases, &c. are instantly relieved. People of the West will find it the only remedy in these complaints, as well as fever and ague. There is no remedy like it, and no calomel or quinine forms any part of this mixture. No injury will result to its use, and its active properties are manifested in the use of a single 50 oz. bottle. For fever and ague, bilious disorders, take no other medicine. Rheumatism, gout, will find relief. The action of this medicine upon the blood, will change the whole system. Dyspepsia, indigestion, &c. yield in a few days' use of this medicine. Inflammation of the lungs, cough, consumption also, has ever found relief. Scrofula, erysipelas, piles, inflamed eyes—all caused by impure blood—will find this article the remedy. The system, completely acted upon by the twenty-two different properties of LITHONTRIPTIC, is purified and restored, while partial cure will not follow. The train of common complaints, palpitation of the heart, sick headache, debility, &c. are all the result of some derangement of the system, and this great restorer will do its work. The promises set forth in the advertisement, are based upon the proof of what it has done in the past four years. The written testimony of 1,000 agents, in Canada, the United States, England and South America, is the possession of the proprietor—and can be seen by all interested—is a sufficient demonstration that it is the best medicine ever offered to the world. Get the pamphlet, and study the principles as there laid down, of the method of cure. Put up in 50 oz. bottles, at $2; 12 oz. do at $1 each—the larger holding 6 oz. more than the two small bottles. Look for a signature on the proposed upon. Every bottle has "Vaughn's Vegetable Lithontriptic Mixture" blown upon the glass, the written signature of "G. C. Vaughn" on the directions, and "G. C. Vaughn, Buffalo," stamped on the cork. None other are genuine. Prepared by Dr. G. C. Vaughn, and sold at the principal office, 207 Main-st. Buffalo, to whom all orders should be addressed. No agents will be allowed to sell retail. No attention will be paid to letters unless post-paid—orders from regularly established agents excepted. Post-paid letters, or verbal communications soliciting advice, promptly attended to gratis.

THE CANE CHAIR.—This is a most beautiful article to the anglr, invalid, or ordinary citizen. In size it is but a little larger than the ordinary cane, but can be immediately opened into a seat, durable and convenient chair, capable of sustaining from 200 to 300 pounds weight. For angling or country excursions, crowded assemblies, and to the tourist, traveler and invalid, this will be found an invaluable accompaniment. For sale, wholesale and retail by JOHN J. BROWN & CO. 122 Fulton-st. N. B. We have received a fresh supply of the above mentioned articles. Those that have been waiting will please call a make their selections. jy14

DAY'S PATENT HOSE vs. LEATHER.—The Patent Hose is perfectly tight; leather sweats. The patent hose requires no grease—is clean as the carpet; leather is filthy to handle and requires constant greasing. The patent hose cannot be bursted, with ten times the pressure of the Croton; is always pliable in Winter and Summer, it costs but a trifle over half the price of leather and is much better; and the inventor offers it for sale with the pledge to make every consumer satisfied with its wear. After ten years experimenting, a hose pipe is produced which is bound to take the place of leather. For sale at 23 Cortland-st. by the manufacturer. HORACE H. DAY.

BIRTHS AND MARRIAGES.

NOTICE.—Extracts of an act to amend an Act providing for a Registry of Marriages, Births and Deaths in the City and County of New-York for the State of New-York, passed April 28, 1847.

Section 1. It shall be the duty of clergymen, magistrates, &c. &c. to report to the City Inspector, under appropriate heads, and in such forms as shall be prescribed by the Secretary of State, the number of BIRTHS, MARRIAGES and DEATHS, which have occurred in their districts respectively during each year preceding the first day of January, the month and day of their occurrence, the names and residences of the persons married and those dying, and the names of the parents of such children born during the year, the sex, color, and names of the children, name and residence of the officer or clergyman performing the marriage ceremony in cases of marriage, the age of the persons who shall have married or died during the year aforesaid, and the particular disease or cause of their death.—The report of all marriages and births in the City Inspector, York, shall be reported direct to the City Inspector, and in case there is no physician or midwife in attendance at any birth, then the parents shall be required to report to the City Inspector within one month, and all deaths in the City of New-York shall be reported to the City Inspector as at present every week.

Sec. 3. It shall be the duty of clergymen, magistrates, and other persons who perform the marriage ceremony, to keep a registry of the marriages celebrated by them, and to ascertain as far as practicable and note the ages of the persons married and the time thereof, and their places of birth and their residences, in such registry. It shall be the duty of physicians and professional midwives to keep a registry of the several births in which they have assisted professionally, and the time of such birth, sex, color, and the residence of the parents; and physicians who have attended deceased persons, and sexton who have buried deceased persons, and clergymen who have officiated at the funeral, and sextons who have buried deceased persons, to keep a registry of the name, age and residence of such deceased persons, and the times of their deaths.

It will be seen by the above that clergymen, magistrates, &c. are required to report once a month to the City Inspector, and sextons once a month, with particulars as to name, age, birth-place, place of residence of the parties married, where married, &c. &c.

Physicians and midwives will also perceive that they are required to report all births, the sex and color, the name and residence of the parents, and in case there is no physician or midwife in attendance, then the parents of the child are to report the birth to the City Inspector within one month after.

Forms of making the above returns will be furnished by the City Inspector. A. W. WHITE, City Inspector.
