HOWARD ASSOCIATION, Philadelphia.

A Benevolent Institution, established by special act of the State of Pennsylvania, for the relief of the sick and distressed afflicted with Private and Spermatic diseases.

The Howard Association, in view of the awful destruction of human life caused by brazen, disease, and the deceptions practised upon the unfortunate victims of venereal diseases by quacks, secured a charter from the Legislature of Pennsylvania, with Charitable Act worthy of their name, to open a Dispensary for the treatment of this class of diseases, at all hour from, and to give Medical Advice Gratis, to all who apply by letter, with a description of their condition, age, occupation, habits of life, and stated in case of extreme poverty, to furnish Medicines Free of Charge. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The following is the Association, in their annual Report upon the treatment of Sexual Diseases, expresses the highest satisfaction with the success which has attended the labors of their surgeons in the cure of Spermatorrhœa, Seminal Weakness, Gonorrhœa, Gleet, Syphilis, the Vice of Onanism or Self Abuse, Diseases of the Kidneys and Bladder, &c., and over a similar part of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important but much despised class.

An invaluable Report on Spermatorrhœa, or Seminal Weakness, the Vice of Onanism, Masturbation, or Self-Abuse and other diseases of the Sexual organs, by the Consulting Surgeon, will be sent by mail (in a sealed letter), FREE OF CHARGE, on receipt of Two Stamps for postage. Other Reports and Tracts on the nature and treatment of Sexual Diseases, diet, &c., are constantly being published for gratuitous distribution, and will be sent to the afflicted. Some of the new remedies and methods of treatment discovered during the last year, are of great value.

Address (for Report of treatment, DR. J. SKILLIN HOUGHTON, Acting Surgeon, Howard Association, No. 2 South Ninth Street, Philadelphia, Pa.

Catalogues Sent Free.

Since I originated the Gift Book Enterprise, I have repeatedly called the attention of the public to my large stock and liberal offers, to which they have always warmly responded. I can now, with more satisfaction than ever, call attention to my largely increased inducements to purchasers. Being very heavily engaged in publishing, I exchange my own publications for those of other houses, and am enabled to procure all my books at the original cost of making, and thus can and do supply the majority of the other houses engaged in the Gift Book Trade, with their books, cheaper than they can procure them from other publishers. I can also by my heavy purchases of Watches and Jewelry, for cash, furnish them with their gifts at lower rates than they can buy them from the manufacturers.

Having such an advantage in buying, I can insure my customers better gifts with their books than any other house, and can give my Agents a larger commission. A valuable gift will be delivered with each book at the time of sale. Gifts worth $500, at the lowest wholesale prices, will be impartially distributed with every $1,000 worth of Books sold.

Send for a Catalogue, which will be mailed free to any address, containing the most valuable collection of Standard productions in Literature, Philosophy, History, Geography, Travels and the Sciences, with all the favorite works of Fiction and Romance, and every other department of Literature, classified as described below. AGENTS WANTED EVERYWHERE.

To Agents I can give more liberal inducements than can be afforded by any other house. In addition to larger commissions, it is much easier to get subscribers to my enterprise than any other.

The peculiar advantages are—larger stock and better catalogues to a better class; a better assortment and quality of Gift; more punctuality and correctness in filling orders.

By acting as Agents for me, persons wishing a valuable library can procure it gratis; those seeking an easy method of raising it without cost, can obtain it.

For full particulars send for a catalogue.

My large capital, together with my long experience in the business and consequent familiarity with all its details, gives me an almost incalculable advantage over all other parties. All I ask is a trial. Send me an order, and you will be convinced that there is no exaggeration.

DON'T FORGET TO SEND FOR A CATALOGUE.

SPECIAL NOTICE TO BOOK HOUSES.—As there are parties of doubtful responsibility advertising Gift enterprises, and some are making many large promises, under fictitious names, without the intention or ability to fulfil them, hoping through the popularity of my enterprise, to deceive and plunder the public, a strict sense of duty compels me to warn all against them.—And if any are deceived and cheated by them, they should not be so unjust as to condemn me along with them, for they are base imitators of an enterprise that has cost me an immense amount of time and money to place in the position which it now occupies, commanding an extensive and increasing trade, approved and endorsed, with the most entire freedom and confidence, by the leading Publishing Houses in the Union, whose letters of approval and endorsement are in my possession, and will be produced and shown at any time with the greatest pleasure.

DR. J. H. ROBINSON

ON THE

NORTHERN TRAPPING GROUNDS!

Nick Whiffles "in the Pison Newspapers ag'in, by mighty!"

The

NEW YORK MERCURY

FOR SATURDAY, JUNE 25th, 1859

(NOW READY AT ALL THE NEWS DEPOTS AND BOOK STORES,)

Will contain the initial chapters of a new Western tale, from the graceful and felicitous pen of

DR. J. H. ROBINSON,

who has been engaged to write EXCLUSIVELY for that journal for a term of years. This story is entitled

"PATHAWAY;

OR,

THE MOUNTAIN OUTLAWS!

A TALE OF THE NORTHERN TRAPPING GROUNDS;"

And is considered by the author to be the very best work which his talent has yet produced.

Those who know the dramatic power and ELEGANT STYLE, the interesting situations and BEAUTY OF INCIDENT, which have rendered famous all the writings of the

Author of "Buck Bison,"

cannot but hail with delight this new emanation from his pen.

THE TRAPPING GROUNDS OF THE NORTH AND WEST

form a peculiarly favorable field for the location and working out of a romance, and the characters that roam through that FLOWERY WILDERNESS are especially fitted for introduction into its pages.

The readers and admirers of

Dr. Robinson's Writings

will remember with pleasure the character of

"Nick Whiffles"

in a story of that name, recently published, and will be glad to learn that the same personage will figure in

PATHAWAY,

surrounded, as ever, by many "Difficulties," and lending to the romance a vein of sympathetic humor and quaint drollery that will render it irresistible to the ☞ of fun and the student of human nature.

In addition to this attraction, the plot will be found more INTRICATELY MYSTERIOUS, and the situations more replete with the fire of DRAMATIC INTEREST, than in any other story the author has yet written. It is full of

Wild Life and Action,

crowded with stirring incident and

Perilous Adventure,

and through the whole story runs an underplot which interweaves *a golden-threaded woof* of sentiment, uniting all with the radiant light of the *gentle charm of love.*

The most exciting and picturesque scenes of

PATHAWAY

will be chosen as the themes for a series of

Beautiful Illustrations,

from the pencil of the most celebrated of American artists,

FELIX O. C. DARLEY,

whose drawings have made the

New York Mercury

such a favorite with all who appreciate true artistic excellence. The clear and vivid style of Dr. J. H. Robinson's descriptive writing is such that the artist can seize upon his creation without difficulty, and thus the best powers of

PEN AND PENCIL

are brought to bear with as great a unanimity as if both were wielded by one person.

The proprietors of the MERCURY are proud of the popularity which their journal has attained, and cannot but take some little credit to themselves for the good which they believe they have done in carrying out their first intention—that of making the

New York Mercury

a medium for the familiarization of the reading public with the best works of the most

DISTINGUISHED AMERICAN AUTHORS.

To secure this end, they have spared no expense; and whatever they have thought could gratify the tastes of their Thousands of Readers, they have done, without questioning either the labor or expenditure required.

For the exclusive right to the works of

DR. J. H. ROBINSON

they pay a larger sum than any American romancer has ever before received from any newspaper, and the public are already aware of the great outlay necessary for the engagement of such men as

BAYARD TAYLOR,

FELIX O. C. DARLEY,

GEORGE ALBANY,

and others. Yet it is believed that the increasing

Refinement of the Popular Mind

demands such men, and the "Mercury" is intended to keep up with the progress of the age.

A series of

Brilliant Novelties

will appear in the columns of this JOURNAL OF

AMERICAN LITERATURE,

in rapid succession, and while the proprietors are eminently well satisfied with the share of popularity thus already accorded, they are determined to deserve still more by using every means possible to increase the attractions of their paper.

THE

NEW YORK MERCURY

CONTAINING THE FIRST CHAPTERS OF

PATHAWAY,

OR,

The Mountain Outlaws.

Lyon's Magnetic Powders

Will destroy Garden Insects, Cockroaches, Bed Bugs, Fleas, Ants, Moths, and all pests of the Vermin kind.

The importance of a reliable article of this kind is insufferable. In warm weather all nature seems with these annoying foes. This powder is the only article ever discovered which will exterminate them. A company of botanists, from the Horticultural Society of Paris, while amidst the ferns of Asia, observed that all insects fighting upon a certain kind of plant were soon dropped dead. This fact was made use of to guard their night camps from the intruders. Quantities of the plant were brought home by Mr. E. Lyon, and found a positive insect destroyer in every experiment. It is simply a powdered leaf, chemically prepared to resist the effect of age and climate. Medals and Letters Patent have been obtained from the Governments of England, France, Germany and Russia, from the world's Fair, Fair, and numerous medical and horticultural colleges and societies.

Letter from the President of the United States.

Executive Mansion' Washington, Jan. 31, '58.

MR. EMANUEL LYON—Dear Sir: I have the pleasure to inform you that the Royal Commission of the World's Fair, at London, have awarded you a Medal and Certificate for the great value of your Magnetic Powders, for exterminating insects, &c.

MILLARD FILLMORE, Chairman.

The above was accompanied by a certificate from Prince Albert.

It is free from poison.

NEW YORK, October 1, 1858.

MR. E. LYON—Dear Sir: We have analysed and tested your Magnetic Powders, and find them perfectly harmless to mankind and domestic animals, and certain death when inhaled by bugs, ants and insects.

MES H. CHILTON, Chemist.
SARANCE REID, Prof. Chemistry, N. Y. Hotel.

Mr. John L. Rome, Superintendent New York Hospital, says "he has expelled all the bugs, ants, roaches, moths, &c., with Lyon's Powder, and finds it of immense value."

Every gardener and housekeeper must have a direct interest in an article of this kind. Reference can be made to the Astor, St. Nicholas, and Metropolitan Hotels; to Judge Meigs, President of the American Institute; James Gordon Bennett, Gen. Winfield Scott, Cyrus W. Field, L. M. Rogers, the Five Points Mission, &c., &c. Judge Meigs says "This discovery of Prof. Lyon is of national importance. The Farmers' Club have tested it thoroughly. It will destroy locusts, grasshoppers, ants, moths, bugs, and all vermin. Garden plants can be preserved, and houses made pure."

Arrangements are now made through Messrs. Barnes & Park, of New York, to have it sold throughout the world. Many worthless imitations are advertised.—Be cautious!

"NEW YORK, Nov. 8, 1858.

"In retiring from business, I have sold all my Insect Powders and Pills, Letters Patent, and the secrets pertaining thereto, to Messrs. Barnes & Park.—This Powder is a discovery made by myself, and brought from the interior of Asia, and is unknown to any other persons.
