COMMERCIAL SUMMARY.

Domestic Markets.

New York, November 2—COTTON—The market closed on the 29th ult. with a quiet feeling. On the 30th the demand became animated, and at an advance of fully ⅛ to ¼c 3000 bales were sold. Yesterday the sales were upwards of 2000 bales, and to-day 1600, the market closing steadily at the improvement noticed. On the subject of crop, we have still to advise fine weather, and no frost. The factors' estimates at NewOrleans range from 27 to 2,800,000, and the extreme range of estimates is 2600 to 3,000,000 bales. receipts 73,000 in excess of same period last year. Sales yesterday 11,000 bales Middling 9⅝c. At this point there is but one opinion expressed, viz: that the crop will reach fully 3,000,000 bales. If this is adopted as the basis of operations, an excess of 100,000 to 150,000 bales will be of little consequence. The market closes at the following rates:

Foreign Exchange for the Europa to-morrow remains at the rate quoted for the steamer of Saturday last, viz: 10 ℔ cent. for Bankers' signatures, and 9⅞ for Commercial bills. Sales have been unusually heavy, and, in some instances, a slight concession has been made. At these rates little or no specie will be shipped to Europe. The exports for the first ten months of 1851-'2, have been as follows:

Ten months, 1851	$33,000,000
Ten months, 1852	23,100,000

Showing a decrease of $9,900,000 from this port.

T. & H. MESSENGER'S TOBACCO CIRCULAR.

New York, November 3.—In summing up the transactions for the past month we find a liberal amount of sales have been accomplished; and although the market has scarcely been as buoyant as noticed in our last two monthly issues, nevertheless, the main of the transactions has been for actual consumption and export; and should prices shade a fraction, more extended operations would follow in the latter channel, there being orders here for inferior grades and choice selections. The advanced rate of freights has also, latterly, in a measure impeded sales. We do not change our quotations, remarking that nearly one-half of the stock is held by three firms, whose views are elevated, particularly for choice leaf, while some parties have shown a disposition to realize, and have closed parcels at prices rather within our range of value.

The crop throughout the country is now secured, and with the exception of that which was harvested early for fear of frost, has been gathered in good order. We have been shown a sample of this season's production from the Clarksville Tennessee district, which appeared to be of good color and substance. The estimate of the Western crop is placed at 75,000 to 80,000 hhds, but our friends will please bear in mind that all general estimates should be received with caution. The sales for the month are 1500 hhds Kentucky Leaf.

MANUFACTURED TOBACCO.

The market continues free from all speculative influence, and the sales for the month may be deemed satisfactory. The business towards the close being quite active, prices have undergone but little change. The inquiry for inferior 16's is limited, and this description can be purchased on rather easier terms, while good are scarce.

The receipts of Twist are quite trifling and readily disposed of at high figures.

SEED LEAF.

There continues a speculative feeling in this article, with a good deal changing hands. For export there exists but little inquiry. A portion of the new crop Connecticut has been purchased at very high figures, say from 12½ to 15c, which must, in a great measure, check the usual export demand.

FOREIGN TOBACCO.

Although we have had a free import of Cuba, the market has sustained a firm character. We have now a good assortment on sale, and the month closes with a fair demand. Prices are unchanged.

Richmond, Va.—The tone of the market has improved within the last ten days and an advance of ⅛c has been realized, with prices still tending upwards. The accertained loss of the cargo of the ship Sabbatis, of 800 hhds, has created a demand to supply that deficiency, which, together with the requirements of manufacturers, has produced an active competition. We append the annual statement of inspections for the fiscal year closing 1st October. The stock since that period has been reduced about 3500 hhds. The additional wants of manufacturers from now to the close of the season will leave but a meagre stock with which to commence the new year; any diminution in value, therefore, can scarcely be apprehended.

The growth will probably not differ much from that of last year.

Baltimore, Md.—The activity noticed for some months past continued until within the last fortnight, when the operator for Austrian account retired from the market, which has since given way fully ⅛c on common and medium Ohio and Maryland leaf, while good colory of both crops is fully sustained.

We notice the receipt of new crop Ground Leaves, so far, prove of inferior character, owing to the wet weather in August.

The estimated receipts of Maryland, including Ground Leaves, still to come forward, is 3500 hhds; of Ohio, 700 to 800 hhds. The stock in first hands is very light, and does not exceed 3000 hhds of all sorts.

Mobile, November 8—COTTON—By to-day's mail several orders per steamer of 19th came to hand, and were operated upon, there being a better supply in the hands of factors, and sales of 2000a2500 bales were made at prices rather in favor of buyers. Middlings 9⅛a9⅜c.

BAGGING AND ROPE—Tolerable sales at 20c for Bagging and 7⅛a7½c for rope.

BACON—Brisk business and prices tend upward. Sales 25 cks clear Sides at 8⅛c, and 25 do. ribbed at 8a8⅛c, are the principal sales.

CHEESE—A sale of 50 boxes at 10½c.

CANDLES—Light business. A sale at 25c for a lot of 25 boxes Star, is noted. Other sales at 24½a25c.

COFFEE—Sales at 9a9½c for prime Rio.

FLOUR—Light demand. 50 bbls unbranded Ohio sold at $4 25, and 50 Extra St. Louis at $5 75 per bbl.

MOLASSES AND SUGAR—Quiet market. We hear of but one sale—20 bbls of the former at 28½c per gallon.

PORK—Pork has materially advanced. We hear of a sale at $18 75 per bbl, though others have been made at $19 50, and the latter price is easily obtained.

RICE—A rapid decline is noted—12 cks of Carolina having sold to-day at 5c.

FREIGHTS—A ship engaged for Liverpool at ⅜d.

EXCHANGE—No change.

Cincinnati, November 1—PROVISIONS—The prospect of a rise in the river has caused an increased demand for Bacon, and Sides would now sell readily at 7a7¼ cents packed, but they are mostly held higher. We notice a sale of 10,000 green Hams, deliverable at Madison, Ia., from the 20th of November to the 1st December, at 7½c.

HOGS—For future delivery there was more disposition to sell to-day, and not so much to purchase, but in prices we have no change to notice—$5 25 being the asking price for early delivery. [Gazette.

TO THE SUGAR PLANTERS OF LOUISIANA—The undersigned, Agent in the United States of America, for RAMOS'S NEW AND IMPROVED SYSTEM for the manufacture of Muscovado Sugar, which has been tested in the Island of Porto Rico, and given the most satisfactory results, has the honor to inform the Sugar Planters of this country, that Mr. Ramos, the Inventor, has arrived in New Orleans, and purposes making a public trial of his system on the plantation of Mr. William F. Mason, three miles above Carrollton.

In order to judge fully and satisfactorily of the relative merits of the ordinary mode of sugar making, and of that by the improved system of Ramos, the plantation will grind for three days this week, a certain quantity of cane juice, and the sugar will be made according to the mode in use here.

On Tuesday, the 16th inst., Mr. Ramos will begin to make sugar by his process, and will continue for an equal number of days, using an equal quantity of cane juice.

The products in both cases will be kept separate, in order that their results, both as regards quality and quantity, may be accurately ascertained.

As this is the only public trial which it will be in the power of Mr. Ramos to make here, his engagements calling him elsewhere, those interested in the improvement of sugar making are invited to call and see it. JAMES U. GALLAHER.

World's Safe Company.

THE attention of the public is called to the utility and superiority of these Safes over all others. Our Safes are made on an entire new principle. We first form a case or case strongly made from wrought iron plates or bars, around which a composition of cement is run, enclosing the liquid metal, and making it impossible to the chisel or drill, and capable of resisting the blowpipe. To the scientific, it is only necessary to say, "Nature and Mechanic," who leaves no hole or fissure, rivets or screws, whose burglar to remove, with perhaps less effort than was required to put them together. Neither can the burning element make an impression on the solid mass, fused as it is with a fire-proof wall.

We hesitate not in saying, that these Safes, secured with LILLIE'S EMPIRE DRILL AND POWDER PROOF COMBINATION BANK LOCKS, are the only really secure depository for money or other valuables. We say further, there is but little security in any of the popular Safes or Bank Vaults now in use. They are all the work of mechanism, often broken into, as experience has demonstrated.

This Company is now prepared to furnish at short notice SAFES and BANK VAULTS, of various sizes, for Banking Institutions, Merchants, Firms and Individuals—all of which will be warranted Drill and Powder Proof, when secured with Lillie's Bank Locks.

A sample of the above Safes and Locks, together with Day & Newell's Parautoptic Bank Lock, can be seen at the office of W. W. Warren, No. 31 Camp st. [illegible] L. U. PETERS, Agent, 33 Camp street.

THE ONLY TRUE PORTRAIT OF WASHINGTON.—Just published, T. B. WELCH'S MAGNIFICENT PORTRAIT OF WASHINGTON.
Engraved (by permission) from Stuart's only original portrait, in the Athenæum, Boston.
This superb picture, engraved under the superintendence of THOMAS SULLY, Esq., the eminent and highly gifted artist, is the only correct likeness of Washington ever published. It has been characterized as the greatest work of art ever produced in this country. As to its fidelity, we refer to the letters of the adopted son of Washington, GEORGE WASHINGTON PARK CUSTIS, who says, "It is a faithful representation of the celebrated original," and to CHIEF JUSTICE TANEY of the Supreme Court of the United States, who says: "As a work of art its excellence and beauty must strike every one who sees it; and it is no less happy in its likeness to the Father of his country. It was my good fortune to have seen him in the days of my boyhood, and his whole appearance is yet strongly impressed on my memory. The portrait you have issued appears to me to be an exact likeness, representing perfectly the expression as well as the form and features of the face." And says SENATOR CASS, "It is a life-like representation of the great original." PRESIDENT FILLMORE says, "the work appears to me to have been admirably executed and eminently worthy of the patronage of the public." Says MARCHANT, the eminent portrait painter, and the pupil of Stuart, "your print, to my mind is more remarkable than any other I have seen, for presenting the whole individuality of the original portrait, together with the noble and dignified repose of air and manner, which all who ever saw him considered a marked characteristic of the illustrious man it commemorates."
For the great merits of this picture we would refer every lover of Washington to the letters of the following Artists, Statesmen, Jurists and Scholars accompanying it:
ARTISTS—Rembrandt and Elliott, of NewYork; Neagle, Rothermel, and Lambdin, of Philadelphia; Chester Harding, of Boston; Charles Fraser, of Charleston, S. C.; and to the adopted son of Washington, Hon. Geo. W. P. Custis, himself an artist. STATESMEN—His Excellency Millard Fillmore, Maj. Gen. Winfield Scott, Hon. Geo. M. Dallas, Hon. Wm. R. King, Hon. Daniel Webster, Hon. Lynn Boyd, Hon. Lewis Cass, Hon. Wm. A. Graham, Hon. John P. Kennedy, Hon. R. C. Winthrop, LL. D. JURISTS—Hon. Roger B. Taney, Hon. John Duer, Hon. John McLean, Hon. Rufus Choate. SCHOLARS—Charles Folsom, Esq., the well known Librarian of the Boston Athenæum, who says: "I would rather own it than any painted copy I have ever seen;" E. P. Whipple, Richard Hildreth, Hon. Edw. Everett, LL. D., Jared Sparks, LL. D., Wm. H. Prescott, LL. D., Washington Irving, Ralph W. Emerson, Esq., Prof. T. C. Upham, J. T. Headly, Fitz Green Halleck, H. W. Longfellow, Wm. Gilmore Simms; and FROM EUROPE, Lord Talfourd, T. B. Macaulay, Sir Archibald Alison, Lord Mayor of London, etc., etc. THE PRESS, throughout the entire Union, have with one voice proclaimed the merits of this superb engraving.
To enable all to possess this valuable treasure, it is sold at the low price of $5 per copy.
Published by GEORGE W. CHILDS, N. W. corner of Fifth and Arch streets, Philadelphia.
