THE DALLES, OREGON

PERSONAL MENTION

Wednesday.

Mr. and Mrs. Jas. Frasier of Grass Valley are visiting in the city.

Mr. Hayward Riddell arrived home on the local today from a business visit to Portland.

Mrs. Oliver Stamp of Pleasant valley, Klickitat county, came up from Portland yesterday, and left for home last night. She has been in the hospital at Portland since the first of last December.

Mrs. Enez Filloom will leave in the morning for St. Louis, to attend the meeting of the supreme lodge of the Woodmen's Circle, which meets there next week. She will go over the Northern Pacific, and will visit relatives in Iowa before returning.

Mr. Byrket, who resides at Trout Lake, near the head of the White Salmon, is in the city. He tells us there is but little snow in that neighborhood, and that out at the coal banks, twenty-three miles further, there is only a foot. A little later than this last year we were out in that section and the snow was then from nine to fifteen feet deep.

Mr. Tom Badder was up from the Locks this morning.

Miss Hendrickson of Portland is visiting Mrs. S. L. Brooks.

Mrs. Montgomery went to Hood River this afternoon to visit her parents.

Mr. Will Langille of Cloud Cap Inn, after a day's visit here, left for Hood River this afternoon.

Mr. T. A. Hudson left for Portland this afternoon, from whence he will make a trip to San Francisco.

Mr. Henry McKibben, who has been in the city in the interest of his paper, "The Senator," returned to Portland today.

BORN.

At Mr. Lee Bolton's, on 15-Mile, to the wife of Ben Pratt, a son.

In a London Hotel.

The American visitor to London who stops at a certain hotel in that city finds many novelties and conveniences that are not known here in America, where hotels are supposed to have reached the acme of luxury. It has an American-plan dining room, says the Chicago News, but only a French bill of fare. It has an Indian room, where an Indian chef, in the costume of the country, prepares native dishes for those who desire them.

In this hotel each guest is known by the number of his room instead of his name, and it is rather odd to an American to be addressed as "Mr. 960," as though he were a convict in the penitentiary.

On each floor, day and night, are to be found a maid, a valet and a waiter, who are at your service, and have free access to your rooms. When you come home at night, if you are a man, you find your clothes pressed and cleaned and carefully packed away in a chest of drawers. If you are a woman, the maid attends to frills and furbelows as though she were hired by you especially. Guests never bother with their keys—the maid or valet on the floor takes charge of the key, and is ready at any time to open your door.

Two Good Lectures.

On the evening of the 18th Professor Cordley, entomologist, will deliver a lecture here, illustrated, on the subject of Insect and Fruit Pests of the Apple, Pear and Peach, which should prove of the utmost interest to all fruit-growers. The professor invites those attending to bring specimens of insects and pests of diseased trees for examination.

On the evening of the 19th President H. B. Miller, of the Oregon Agricultural College, will give a lecture on the subject "Industrial Education." The lecture will be illustrated by stereopticon views of the college and its work. Both of these lectures will prove exceptionally interesting, and should be well attended. No admission fee will be charged.

A COUNTER THIEF REWARDED.

Stole a Purse Containing Diamonds and Cash. CHICAGO, March 4.—Madame Sicott, of Los Angeles, has been robbed of diamonds valued at \$1000 and \$300 in bills, and as a result she has abandoned a trip to Washington to attend the inaugural ceremonies.

Madame Sicott arrived here February 20. She registered at the Auditorium annex. She left California in January and went to northern New York. She then visited Cincinnati, attending the sangerfest. She intended to remain in Chicago for a few weeks and go through

to California. On Tuesday she changed plans, and at noon engaged apartments on the "Blaze of Glory" train for Washington.

Madame Sicott visited a downtown store to buy a telescope bag to be used on the Eastern journey. She had the diamonds and several valuable pieces of jewelry in her purse with \$200 in bills, which she thoughtlessly laid on the counter. When she turned to pick it up a few seconds later it had disappeared.

The police have a clew and expect to make several arrests.

If we could trace Dyspepsia to its source, it would lead back to our kitchens. In fact, the secret of good health is good cooking. If well cooked, foods are partially digested; if poorly cooked, they are less digestible than in their raw state. If you are victim of faulty cooking; that is, if you suffer from Dyspepsia, the rational care must be looked for in an artificially digested food, and a food which will at the same time aid the digestion of other foods. Such a preparation virtually rests the tired digestive organs, thereby restoring them to their natural strength.

The Digestive-Cordial, as prepared by the Shakers of Mount Lebanon, is such a preparation, and a single 10 cent bottle will convince you of its value. If your druggist doesn't keep it, he will be glad to get it through his wholesale house.

Laxol is the best medicine for children. Doctors recommend it in place of Castor Oil.

THE PEOPLE WANT WAR.

Greeks Protest Against the Action of the Powers.

ATHENS, March 4.—A great public meeting was held to protest against the action of the powers. At its conclusion the crowd marched to the palace shouting "War, war, war." Before the palace several persons addressed the people, and then, in response to their urgent demands, Crown Prince Constantine appeared on the terrace, wearing the uniform of a general. He thanked those present in the name of the king for the loyal and patriotic sentiment expressed and begged them to retire, saying that, at the present juncture, an attitude of calmness best befitted the dignity of the nation. The prince was loudly cheered.

The new minister of war, Colonel Metaxas, has enjoined the greatest activity upon the commanders of the Greek forces. The French volunteers, who have reached here, were received with the greatest enthusiasm.

The True Remedy.

W. M. Repine, editor Tiskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have certain and sure cure for Coughs, Colds, Whooping Cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at Blakeley & Houghton's Drug Store.

A. T. Wood to Succeed Blackburn.

LOUISVILLE, March 3.—A. T. Wood of Mount Sterling will succeed J. I. C. Blackburn in the U. S. senate by appointment of Governor Bradley, to be announced probably tomorrow. The appointment was decided upon after the governor had offered the honor to St. John Boyle of this city, who refused it. Boyle was the Republican caucus nominee at the last session of the legislature, and his action indicates that he hopes to be elected to serve the full term by a special session of the legislature which Governor Bradley will call within a few days.

Dangers of the Grip.

The greatest dangers from La Grippe is of it resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy is taken, all danger will be avoided. Among the tens of thousands who have used this remedy for la grippe, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that this remedy is a certain preventive of that dread disease. It will affect a permanent cure in less time than any other treatment. The 25 and 50 cent sizes for sale by Blakeley & Houghton.

Cashier Hatcher Arrested.

GREAT FALLS, MONT., March 4.—B. D. Hatcher cashier of the defunct Northwestern bank, was arrested today by Deputy United States Marshal J. K. Waite, on charges preferred by Bank Examiner Lassar, of misappropriating \$90,000 funds of the bank, which he paid Conrad Brothers. Hatcher was arranged before United States Commissioner Cockrell and bail fixed at \$5000. So far he has been unable to give bonds.

Hanna's Appointment.

WASHINGTON, March 3.—Senator Sherman of Ohio has tendered his resignation to Governor Buehnel, to take effect March 5. The official appointment by the governor of Mark Hanna to succeed Sherman is on the way here, and will be delivered to Hanna tomorrow, to take effect March 5.

SHOT DOWN BY A JEALOUS RIVAL.

The Probable Fate of a Young Indiana Farmer.

WICHITA, Kan., March 2.—L. J. White was murdered by Art Ingram, a local gambler and thug, last night in front of the latter's home on North Water street, in a disreputable part of town. Ingram refuses to talk, but the theory is that White had been in the latter's house and they quarreled, and that Ingram drove him from the house, and as the man fled in the darkness hurled a piece of gas pipe after him as one would use a harpoon. The pipe struck White in the back of the neck, took an upward course and buried itself in his brain.

Ingram did not know the result of his aim, or was too much under the influence of liquor to realize it, for he went to the police station, told the officers he had got into trouble, and asked them to attend to the injured man. He was locked up. His brother had just served a term in the penitentiary for highway robbery.

Ingram's wife was abducted by a gang of young toughs over a year ago, taken to Griswold Park, drugged and assaulted. Ingram was one of the gang, and was forced to marry her. One theory is that the tragedy tonight was brought on by Ingram's jealousy of White.

White has until recently conducted a restaurant on East Douglas avenue. He was 55 years old, a member of the Modern Woodmen and the Knights of Pythias. Ingram is a molder by trade. He is an opium fiend.

KING GEORGE STANDS FIRM.

Has No Intention of Deviating From His Original Policy.

NEW YORK, March 3.—A special to the Herald from Athens says:

M. Dinosyos, the archbishop of Ballams, accompanied by three Cretan deputies, has presented to the king a memorial urging the union of Crete with Greece, and begging him to persist in his patriotic attitude despite the pressure of the powers. The Cretans, the memorial pointed out, are unwilling to lay down their arms before their desire for union has been accomplished. King George replied that he was not deviating by a hair's breadth from the original policy announced.

An Albanian force of 1200 troops with arms and ammunition which recently reached Janina, has been sent to various places in Macedonia and Epirus.

Eight hundred Mohammedan Albanians have started for Emason. The Greek warships under Admiral Miaulis has arrived at the Piraeus. It is officially stated that the Greek troops concentrated on the frontier number 20,000 men.

STRANGE POST OFFICES.

Queer Arrangements Seen in Other Parts of the World.

Until quite recently the postal system in Persia was very loosely conducted. It was under the superintendence of a minister of posts, who, however, does not work the system himself. Each road is farmed to some merchant or wealthy person, who pays a certain sum to the minister for the privilege, and makes as much money out of the business as he can.

On the south coast of Patagonia is the most remarkable postal service in the world. Close to the post is a large sign post with the inscription: "Post Office." Attached by chains to the foot of the sign post is a strong chest, which has served as a post office, master, clerk, all in one, for many years. The ships passing through the Magellan straits send a boat to the shore to fetch any letters that may be addressed to their places of sail, and at the same time to leave any letters they may wish to have taken in other directions.

In a small group of islands off the south coast of Iceland the islanders have a bottle post, which depends mainly on the wind. When the wind blows from the south they put their letters into a well-corked bottle. To insure delivery, a plug of tobacco or a cigar is put inside, and people on the mainland are usually on the lookout for and ready to deliver the letters so dispatched, in return for the enclosed remuneration.

WOMAN FLIES KITES.

Champion Lady at the Sport Invents a New Kind.

"Barrel kites" are the novel invention of Miss Nellie Ross, of Fruit Vale, Cal. says the New York World. Three months ago she demonstrated their practicability, and since then has proved, as she claims, that they fly higher than any other kites ever made on the Pacific coast. A recent visitor to what Miss Ross calls her "kitory" saw simply a very clean and neatly-whitewashed back yard. Against some deserted heroos leaned some queer cloth and bamboo objects that looked like flattened balloons with the ends knocked out. The largest were five feet high by four feet broad, and they were of all colors. The string used in flying them is about two miles long.

The young kite-flyer, who holds that every woman should have a hobby and who thoroughly enjoys hers, makes all her own kites. Then she flies nine or ten at once, to the great edification of the surrounding neighborhood and to the delight of the small boys, who are always willing to help haul them in. Each kite is named, and "McKinley" and "Grover" compete with those bearing less famous names to see which can climb the highest. Barrel-kite flying is said to be as pretty as it is successful, and California's champion kite-flyer wears her distinction very gracefully.

A HORNLESS BUCK.

Killed in Michigan and Said to Be Unique in This Country.

A curious and exceedingly unusual freak is reported by a deer hunter to Forest and Stream. The hunter was up in Wexford county, Mich., and got on a deer trail that had hoof marks plainly made by a buck. Almost all hunters of deer can tell a buck from a doe track. After trailing the deer, and getting within a rod of it the buck leaped out of a clump of brush and got knocked down with a bullet through the head.

The deer did not have any horns, although a two-year-old, and weighing 150 pounds. Further, it never had had any horns.

Does with horns, bucks with three horns, dozens of spikes, and malformed horns, have often been reported of Michigan and other American deer, but this is the first hornless American buck reported, although some European deer sometimes lack such weapons, but yet are able to whip the horned ones.

Life in Spain.

In Spain constitutional indolence, fertile soil, and a magnificent climate combine to make life one long dawdle. In Turkey the natural thrift and industry of the real Turkish population are paralyzed into idleness and apathy by the hopelessness of winning anything worth having which will not be at once stolen by official corruption.

An Odious Custom.

An auditor in a Japanese theater is allowed, for a small fee, to stand up, and the unfortunate individual behind him has no right to remonstrate or to rise and get a peep at the stage. He may hear, but he cannot see.
