PATENT COMBINATION SOAP.—A recent invention! great saving in the cost of Soap for washing! being the greatest labor-saving article yet invented! No other Soap is needed in a family, for any purpose whatever. The inventors have labored hard and long to combine in the most concentrated and convenient form a Soap that will save labor, and that can be used with perfect safety. It takes the dirt from clothes by using a very small quantity, by simply soaking, boiling and rinsing (except clothes have stains, or are very dirty;)—in that case, a little should be rubbed on before boiling. It is converted into Soft Soap by dissolving into hot water, and, when made as per directions, costs about 5 cents per gallon—exceeding any other for all purposes for which Soap is used. The Patent Combination Soap being very hard, and containing no resin—making it the best, and by far the cheapest "bar Soap" ever used—it renders hard and salt water equal to soft for washing purposes, and, being free from acids, cannot injure or yellow clothes in the least. Consumers and dealers will do well to make themselves acquainted with this article without delay.

It is composed of medicines so happily combined, as to tend directly to give tone to the stomach and bowels, excite to healthy action the Liver and the whole Glandular System, allay Nervous Irritability, and promote the free action of the Lungs, thus rendering it applicable to all diseases of a Chronic nature. M. Jackson, at the German Medicine Store, 120 Arch-st., Philadelphia.
Their power over the above diseases is not excelled, if equaled, by any other preparation in the United States, as the cures attest, and in many cases after skillful physicians had failed.
These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.
READ AND BE CONVINCED.
Judge M. M. Noah said in his Weekly Messenger, Jan. 8, 1850:
"Dr. Hoofland's German Bitters—Here is a preparation which the leading classes in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern times—the late Dr. Wilhelm Hoofland, Professor to the University of Jena, private physician to the King of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of hoaxing, and there was no element of white lie was the inventor and imposer may be confidently relied on. He especially recommended it in Liver complaint, Dyspepsia, Debility, Vertigo, Acidity of the Stomach, the Liver and the Kidneys. Now Philadelphia papers express their conviction of its excellence and several of the editors speak of its effects from their own individual experience. Under these circumstances, we feel warranted, in not only calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article to all afflicted."
MORE EVIDENCE.
The Philadelphia Saturday Gazette, the best family newspaper published in the United States. The editor says:
"It is seldom that we recommend what are termed Patent Medicines to the possible injury of our readers; and the other, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after it has done its guilty case of mischief, but of a medicine long established, universally praised, and which has met the hearty approval of the faculty itself."
They can be administered to FEMALES or INFANTS with safety and reliable benefit at any time.

READ THE FOLLOWING TRUE STATEMENT: TARRYTOWN, Dec. 9, 1850.
MR. HARRISON—SIR: I write you these few lines to inform you of the great benefit I have received from your COMPOUND SYRUP OF NAPTHA. Eight years ago I was taken with the pleurisy in my left side, and ulcerated my lungs; therefore I was obliged to give up work and seek for relief. I tried everything that I heard of, but all to no purpose. My health continued to decline, till finally I began to raise blood and large quantities of matter. In this state I continued for some time, until last fall, November, 1849, when I took to bleeding from the lungs. I bled about two quarts in twenty-four hours. I then gave up all hopes of recovery, untill I heard of your naptha. Still I thought it was like all the rest of the patent medicines, (a humbug.) But I resolved to try one bottle as a last resort, and, thanks to God, I did so, for with his blessing I believe it will make a well man of me yet. I had not taken one bottle before I began to get better, and in a few weeks I was about the house, and from that time to the present I have not raised any blood—before that I had a bad spell every few months I could not do without it on any account, and would recommend all who suffer from lung complaints to try it at once, for I do believe that if anything will effect a cure, this Naptha will. Yours, with respect, C. D. REVERE.
P. S.—I would have written to you before, had I not recently contracted a severe cold, which your NAPTHA has entirely removed. I can now attend to business, and expose myself to all weathers. C. D. R.

From the Boston Post.
Dr. S. W. Fowle, 138 Washington-st. has an article entitled as above, which we believe is the best preparation hitherto discovered for the cure of colds and other consumptive complaints. Having tested this medicine, we can speak with confidence as to its salutary effects in removing colds and other complaints incident to this season of the year.
From the Cincinnati Enquirer.
Wherever this medicine is introduced, it at once attains that high reputation which it so richly deserves. What can stop its sale, when on every hand can be witnessed its wonderful cures? The worst cases of Asthma, recent but dangerous coughs, and also those that are of long standing, bronchitis, and consumption in its early stages, are always cured by this remarkable medicine.
Be not deceived by impostors—the public should be careful to get the genuine article, as the imitations and counterfeits being put up by those who know nothing of medicine, or of the diseases of the human system, are entirely unsafe and dangerous.

RHEUMATIC AND PARALYTIC REMEDY.—These Powders are one of the most valuable preparations known for Rheumatism; their operation and action appear to be aspectic, if not infallible. They are also highly recommended for Paralysis, and those who have friends afflicted with this complaint, may call on the preparer of this medicine, who will refer them to a number of persons who are now being benefited by the use of these powders.
Extract of a letter from Providence, R. I. Mr. E. has taken six powders, he is decidedly better, his memory and articulation are much improved.
Mrs. Low, 63 Vandam-st has been confined to the house the past sixteen years of Paralysis, or Hemiplegia, which deprived her of the use of her left entire side, from the head down; and during her illness of sixteen years, she could not sit at the table and take her meals with the family. In consequence of the food falling from her mouth. She now sits at the table with the family, and partakes of her meals with pleasure, and, moreover, chews her food on the left side in preference to the right side, which she has not done before to the past sixteen years; in fact, the muscles of the tongue and of the mouth are restored to their natural motions, and likewise the muscles of her arm and leg perform their functions, so that she steps in her food and places her arm, which she has not done during her illness, until within the past month.
The friends of persons who are afflicted with the sort of disease mentioned in this advertisement, may call on Mrs. Low, and judge for themselves of the wonderful curative properties of these Powders. Mrs. Low commenced taking these Powders Nov. 3, 1850.
Mrs. Eliza Gurnsey, 100 Delancy-st is now almost cured of Paralysis by these Powders, after having made trial of many other remedies to no purpose.
Bridget McGin, 7 Attorney-st was cured by these Powders, after having been afflicted eight years with Rheumatism in the head, and during this time she was obliged to have her head shorn, and wear flannel caps; she has now a fine head of hair, and enjoys the best of health.
William Clark, 293 Delancy-st. was severely afflicted several years with Rheumatic lameness in the legs, and was effectually cured by these Powders.
Mrs. Sheppard, 57 Beekman-st. was severely afflicted several years with Rheumatism in the legs, and was cured by these Powders.

GREAT COUGH REMEDY.—AYER'S CHERRY PECTORAL for the cure of Coughs, Colds, Hoarseness, Bronchitis, Whooping-cough, Croup, Asthma and Consumption. Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven, beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following opinions of eminent men, and refer further inquiry to the circular which the Agent below named, will always be pleased to furnish free, wherever it is not yet established and indisputable proof of its virtues.
From the President of Amherst College, the celebrated Professor Hitchcock.
"James C. Ayer—Sir: I have used your Cherry Pectoral in my own case of deep-seated Bronchitis, and am satisfied from its chemical constitution, that it is an admirable compound for the relief of laryngial Bronchial difficulties. If my opinion as to its superior character can be of any service, you are at liberty to use it as you think proper.
EDWARD HITCHCOCK, L. L. D.
With such assurance, and from such authority, no stronger proof can be adduced, except that found in its effects upon trial.

DR. FELIX GOURAUD'S ITALIAN MEDICATED SOAP—This admirable emollient is now by common consent, rated A No. 1, as a remedy for blotches, chaps, chafes, cracks, pimples, pustules, scurf, tan, freckles, sunburn, all kinds of eruptions, and every species of discoloration and disease of the skin. All competition has been completely distanced by this invaluable preparation, the demand for which, within the last six months, has increased more than five hundred per cent, and is still increasing. The clearness and freshness which its use imparts to the complexion have rendered it proverbial as a beautifier of the skin; and no dressing room can be considered furnished with a proper toilet that lacks
GOURAUD'S ITALIAN MEDICATED SOAP.
It is also a delicious compound for shaving, and can be used in hard or salt water, and is a sovereign and instantaneous remedy for the bites of insects. If beauty be, as it is asserted, only skin deep, it is the more important that the thin covering in which loveliness resides should be kept in its present and most attractive state.
Dr. G. might go on amplifying the merits of his Italian Medicated Soap, but he thinks that the number of certificates which have been published throughout the Union, at a cost of several thousand dollars to the Doctor, from eminent Physicians, Clergymen, Members of Congress, Captains of Ships, Officers of the Army and Navy, and a host of distinguished ladies, the original of which testimonials can always be seen if required, are, the Doctor thinks, sufficient to convince any one not willfully blind. If there be any such, the Doctor might apply to them the language of Scripture, and say, "If ye believe not Moses and the prophets, neither would ye believe though one rose from the dead."
GOURAUD'S POUDRE SUBTILE positively extirpates superfluous hair from any part of the body.

DR. BRUNETT'S UNIVERSAL REMEDY.—In offering this preparation to the public as a Universal Remedy, the proprietor, after seventeen years' experience with it, is certain it will be found such by all who take it, no matter what the name, character, or locality of the disease may be. Testimonials corroborative of which are herewith appended. Being purely vegetable in its composition—and these of the most innocent character, yet so united in that happy proportion as to have the most decided and charming effect—it may be taken with the utmost safety by the cradled infant, the man of vigorous years, and him that's bent with age. For sale, wholesale and retail, at 207 South Second-st; 148 North Fourth-st. near Vine; Broad-st. near Brown, below the church; 193 Fulton-st. New-York, and by Agents generally throughout the United States and Canada.
As attempts have been made to counterfeit it, none is genuine unless with the signature of J. BRUNETT painted over the cork. All communications addressed to LOGIN BROOKS, 158 Fulton-st. west of Broadway, will receive prompt attention. 27f 1meod

RHEUMATISM, PAINS, and Stiffness of the Joints, Swelling of the Muscular Substances near them, and other distressing symptoms too well known to need description, may be effectually removed by the use of Ring's Compound Syrup of Hydriodate of Potassa, Sarsaparilla and Yellow Dock Root. It is recommended in full confidence as being a specific, and needs but a trial to convince the most incredulous of its surprising properties. Prepared and for sale by C. H. Also, in the event of the assured at any time not requiring to continue the policy, on its surrender one-half of the annual premiums will be returned by the Society.
