NEW ORLEANS MARKETS.

COMMERCIAL SUMMARY.

Foreign Markets—per Africa.

Wright, Gandy & Co's Circular.]

Liverpool, October 22—Our circular advices of the 15th instant, were prepared for and forwarded by the Niagara. They reported our Cotton market as closing very firmly, with a spirited demand and sales of 15,000 bales at full prices. On Saturday the activity continued, and a similar amount of business transpired at full rates.

The Africa's advices based on Monday morning, tended rather to check the ardor of buyers, but there being a good attendance of the trade, and holders evincing no undue anxiety to realize, no change of moment resulted, and the sales of the day were estimated at 10,000 bales.

Tuesday's Cotton market yielding, and symptoms of giving way were apparent in some quarters, but with a cheerful trade report from Manchester fresh stimulus was imparted, and the day closed with a firm feeling and sales of 8000 bales.

On Wednesday the same causes influenced a more active inquiry and 12,000 bales changed hands at full prices. Yesterday a change of weather seemed to affect all operators, although the business of the day amounted to 10,000 bales, holders continuing to meet the demand freely, but rejecting offers at any concession from previous currency, excepting, perhaps, in isolated cases where a motive arises for realizing. Speculators continued their operations to a liberal extent, based on the encouraging state of trade in the manufacturing districts, the abundance of money, and possible casualties to the growing crop.

The total sales of the week amount to 34,879 bales, of which 26,236 bales American, 170 Pernambuc, 130 Bahia, 1180 Egyptian and 15,000 Surat, etc., have been taken on speculation and for export, and for the trade 21,000 bales.

The import for same time is 16,250 bales, of which 1378 are American.

PRICES TO-DAY.	Fair.	Middling.	Ordinary.
New Orleans	6½ in —	6 to —	4⅛ to 5¼
Mobile	6¼ to —	5⅞ to —	4⅛ to 5¼
Atlantic	6¼ to —	5⅞ to —	4⅛ to 5¼

There is no change to note in to-day's market. The sales are estimated at 12,000 bales (600 to speculators and exporters) closing steadily at extreme quotations.

The continued heavy operations in Cotton are now beginning sensibly to affect our stock on hand, by weekly reducing the figures forming the mass, and while it is evident must undergo further diminution before arrivals can augment it. This feature imparts confidence to and has doubtless much influence with all classes, nor does it appear that the advance in price has the effect of lessening consumption. An evil, which may increase, is manifesting itself in the shape of operatives turning out for advance of wages, and should this become more general, there is no doubt our market would feel the effect considerably by a more limited inquiry from the trade, and a suspension of speculative transactions which at all times infuses spirit to the business.

We allude to this characteristic more as affecting the future, than any fear of immediate interference with the present healthy state of affairs; a state materially improved by the continued ease in money matters, which promises to be lasting, for not only has the gold of California and Australia been sufficient to meet the increasing wants of our own community, but the foreign and continental loans negotiated in this country has given additional value to such securities, replaced a multitude for a paper currency, in many parts, and the exports of specie to other quarters have strengthened governments, added comforts to the mass, and enriched the world.

Favorable advices from the East, with a good home demand, has given fresh impetus to the inquiry for both Goods and Yarns in the manufacturing districts, and in many instances an advance on previous rates has been obtained, applicable more particularly to qualities suitable for India Spinners and manufacturers (with few exceptions) are well engaged ahead, but are supposed to hold more than sufficient of the raw material to cover their contracts.

Little variation has occurred in the position of our Grain market. Holders generally display great firmness, although there has been a want of activity, compared with previous business, on the part of the Trade.

The import of Wheat has been liberal, and buyers have the turn of prices in their favor, where importers desire sales.

Flour, on the other hand, comes forward in not moderate quantity, and full rates are readily obtainable for all descriptions of parcels. Secondary and sour are also in request at relative prices.

An improved demand for Indian Corn has been experienced, but the high pretensions of importers has served to check operations, and stocks on hand are very small, offers on estimation to prices, which are nominal.

At to-day's market there was a fair attendance, and Wheat was in improved request at full prices. Flour was not so active, but prices were firmly supported. Indian Corn was in increased demand at advanced prices, and a fair business transpired. We quote Tennessee and Philadelphia Wheat 8s 4d@8s 6d; mixed 8s 1d@8s 3d. Indian Corn, yellow 35s 3d; white 31s 9d@32s; mixed, 30s 6d@32s. Flour—Ohio superfine 22s 3d@23s 6d; Philadelphia and Baltimore 22s 9d@23s; Western and Canadian 21s 6d@23s6d; Infirior and Sour 19s@20s6d.

Tallow continues full prices, with heavy transactions in P V C at 45s@45s per cwt. No American here.

Lard—In the absence of supplies there are no sales, and price is nominal, 60s@62s per cwt.

Rice is much wanted, and would readily sell at 22s to 30s per cwt in bond.

Oils—No sales of Lard or Whale—Sperm commands £80 10s per ton, and is in good inquiry.

Cotton Market, Friday Evening.—Opens quietly this morning. The sales will probably reach 6000 to 10,000 bales.

Havre, October 22—Cotton—We closed on Tuesday with a decidedly improved feeling, and a very active demand, which continued yesterday, and the sales of the week have been of a very satisfactory character, and at prices which have advanced 1/16 to 1/8 c. Yesterday the market was at a standstill, both buyers and sellers waiting to see the effects of the advices, of which more accurate calculations were yesterday in the hands of the trade, and were considered as very favorable for the new arrivals.

To sum up, the sales of the week amount 10,000 bales, against no imports, so that our stock is reduced to 33,000 bales, of which 11,000 bale United States, and 14,000 to 15,000 bales on speculation. Our brokers in establishing last Friday's price current added fractions 1/8 to 1/4, as their Louisiana lot is now at 72c and non-existence at 67c, which prices are still current for the Louisiana qualities.

Coffee—We have had an active demand principally for export, the trade only fulfilling their usual pressing orders. Sales 4000 bags Rio washed and unwashed at 4½ to 5c; 1000 bags Santos at 5c to 5¼; 1500 bags St. Domingo at 4c to 5c, and 150 bags Bahia at 5c to 5c per lb. In bond, 150 bags Hayti, damaged, at public auction, were run off at 50c to 52c, my at very mild prices, duty paid.

Rice—We have had an animated market for this article and sales have been important. Yesterday within the last few days the demand has increased, but our prices are well supported. Sales 50 tcs Carolina at 2¾ to 3c; 497 bags from Antwerp at 2¾ to 3, 3000 bags from the Coast of Coromandel, by Salsons and Dagnay-Trouin, at f17, it is said, and 800 bags Bengal damaged 50 50 to f19 50 per 100 kilo, duty paid. We continue to receive importunate inquiries from the Northern ports, my 3450 bags Bengal from Antwerp and Ostend.

Tallow and Lard—We have only to notice the sale of 25 cks Tallow (Sunday and old) at f 55 per 50 kil., duty paid. Our stock is reduced to almost nothing.

Cotton—In Cotton the transactions have been very limited, comprising about 1000 bags St. Domingo and 3600 bags Brazil, for which former sales have been obtained. Sugar is in regular demand. The values of No. 12 yellow Havana is now 61½c. A small cargo No. 11½ is reported to have been disposed of at 61¾c. The demand for refined is steady. Cotton is in active demand at higher prices; 600 bales Upland sold at 32½ to 33½ per half-kilo. The market for Hides remains firm, and the sales during the week comprise 1400 dried and 1500 salted Buenos Ayres.

Domestic Markets.

New York, November 5—Cotton—The market is very firm with a good inquiry at 10¼ for Middling Orleans, 10¼ a10¾c for do. Mobile, and 10¾c for do. Uplands. The sales yesterday were 2000 bales, and to-day 1500 bales.

On the 4th instant, the Courier and Enquirer reports as follows:

Cotton—The Africa's advices gave this morning a fresh impulse to the demand. The sales of the day reached 2500 bales, at very full prices, on the basis of 10¼c for Mobile Uplands, and 10¾c Mobile and Orleans. The trade accounts from Manchester are very favorable, and speculation in Liverpool continues largely. The estimate of the crop adopted as the basis of operations in Liverpool is 2,800,000, many believing it a much smaller quantity. This we have from undoubted authority, and will in time the effect on prices of the estimates now current on this side, 3,000,000 and upwards.

Stocks, etc.—The business at the Board this morning was light, and generally at lower prices. Harlem Railroad declined ¾ as compared with the first Board yesterday; Niagara Transit Company ¾; Cumberland Coal Company ¼, and Erie Railroad ¾. Hudson River and Long Island Railroad closed at yesterday's prices. Pennsylvania Coal Company advanced ½, and Reading Railroad ¼.

A small sale of government stocks of 1867 was made at 119¾. Indiana State fives brought 89¾. In the new Pennsylvania fives there were large transactions, amounting to upwards of a million dollars, at 103¾, ¼ decline on yesterday. Sales of Hudson River first mortgages at 107¾, and second at 102¾.

The Tobacco Trade—Hunt's Merchants' Magazine, for November, contains a paper on the Tobacco trade, the statistics of which are exceedingly interesting to American merchants, particularly in showing the comparative productions of each State—some increasing and others falling off—and further showing the fact that the annual value of this product, for no greater than that of twenty, thirty or forty years since. It would seem from this summary that the lowest (average annual) prices obtained for Tobacco were, in 1813, 8 cents; 1845, 4¾ cents; and that it reached and exceeded 10 cents only in the five following years, viz: 1836, 15¾ cents; 1837, 12¾ cents; 1838, 10 cents; 1839, 10¾c; 1839, 10¾c.

The total value of the exports have varied, (except in the embargo year, and during the war with Great Britain) from $21,000,000 (in 1811) to $19,858,000 in 1826, $12,578,000 in 1844, and the highest sum yet realized, $12,808,000 in 1816.

The leading States for production have been as follows:

	1840.	1850.
Connecticut lbs.	471,800	1,334,500
Indiana	1,820,062	1,935,000

Other States	1,642,000	2,912,000
Total	219,163,000	199,832,000

No other State has produced, at these periods, beyond 1,000,000 pounds.

The total export, total export value, and average value of the leaf for some years, are as follows:

Years.	Export.—Hhds.	Total Value.	Val. per hhd.

Boston, November 4—Flour—No change to notice; receipts taken by the trade at full prices; some few parcels for shipment at $4 87½@5 12½, 4 months, for good Southern qualities. Genesee, extra, $5 25@5 16; Ohio and Michigan, fancy and extra, $4 87½@5 12 per bbl. The sales of Corn have been at 80c for yellow flat, 78c for mixed, and 74c for white per bushel. Oats—Northern 50c; other kinds 45@46c per bushel. White Beans, 1 75@2 per bush. Pork—Sales of 300 bbls Prime Mess, to arrive, at $18.

Philadelphia, November 5—Corn is rather firmer, in consequence of the favorable tenor of the steamer's advices, but the sales have been limited.

In Breadstuffs there is not much doing; 2000 bbls good brands sold for export at $4 75 per bbl, and some extra at $5. The sales for city consumption are limited within the range of the same quotations. In Rye Flour and Corn Meal no sales have been reported.

Grain—The demand for Wheat is less active, but prices are unchanged. Small sales of good red at $1 04, and of Pennsylvania white at $1 06 per bushel. Corn is scarce. Sales of 1000 old yellow at 73c; about. Oats are steady at 38c per bushel. In Groceries and Provisions there is no change to notice.

Whisky commands 25c in bbls, and 24½c in hhds.

Baltimore, November 6—Corn—We note the sales this week of 906 bbls ordinary to fair Virginia and Georgia, at from 3¼c cash, to 11¼c six months, one half of which was bought for a neighboring market. Manufacturers here are now buying to supply immediate needs. Prices for Georgia are the same as last week, but for Virginia ¼@¾c lower. No New Orleans or Mobile in market. They would command ¾c more than Upland. The Imports of the week are 929 bbls from Charleston, 325 bbls from Savannah and 5 bales from Sea Isld. Stock on hand about 1000 bbls.

Tobacco—In the beginning of the week the market was rather heavy, but wants the last day or two have been decidedly improved, and the sales have been quite large for the season of the year. The receipts are rather light, but the demand for the lower grades of the re-
