je20 3t*

PENNSYLVANIA COAL COMPANY—$300,000 SEVEN PER CENT COUPON MORTGAGE BONDS.—Sealed proposals will be received at the office of the Company, 31 Wall-st. in the City of New-York, until Wednesday, the 25th inst., at 3 P.M., for the loan, at not less than par, of the whole or any part of $300,000, on the bonds of the Company, payable at their office, in the City of New-York, on the first day of August, 1861; the proceeds of said loan to be received in four equal instalments of twenty-five per cent. each, on the first day of July, August, September and October next, or the same may be paid in full at any time, at the option of the holder. These bonds are issued by virtue of an Act of the Legislature of Pennsylvania, which is as follows:

"SEC. 5. That it shall be lawful for the President and Managers of the Pennsylvania Coal Company, from time to time and at all times, to borrow or to obtain on loan, such sums of money, and on such terms, as they may deem expedient for the use of said Company, and to pledge and mortgage all or any part of the estates' improvements privileges' effects and assets whatsoever, of the said Company, for the repayment of said sums of money so borrowed, at such times as may be agreed upon."

The Bonds are for $1,000 dollars each, with coupons for the payment of interest, on the 1st day of February and August in each year, at the office of the Company, in the City of New-York. Interest will be allowed from the time of payment of the several instalments. The bonds are specially secured by mortgage to William F. Havemeyer, Robert B. Minturn and Moses Taylor, Trustees, for $600,000, upon the privileges of the Company and their two lines of Railroad, with its appendages, such as branch-tracks, engines, cars, canal basins, docks, workshops, storehouses, &c., now completed and costing in cash, $1,657,160, and upon which there is no other mortgage or Lien.

The Company's two lines of Railroad are about 47 miles long each, extending from the Delaware and Hudson Canal, at Hawley, in Wayne County, to Pittston, on the North Branch Canal and the Susquehanna River, in the County of Luzerne, where the principal and large Coal deposits of the Company are located. The Company have received:

On Capital Stock	$2,267,220
On Bonds held by Stockholders, and convertible into Capital Stock	600,000
And have yet to receive on Capital Stock	132,780
Making an aggregate of means, of	$3,000,000
Of which they have expended upon the road and its equipments, as before stated	$1,657,160
For 279 Canal Boats, 125 tons each, and opening mines	448,114
For coal and other lands	632,864
Making an expenditure for lands and permanent improvements of	$2,738,135

The Company are now producing from their mines and bringing to the New-York market by their Railroad and the Delaware and Hudson Canal, at the rate of 300,000 tuns of Coal for the business of the present year; and the Loan of $300,000, for which proposals are now invited, is chiefly wanted to provide additional canal-boats and other improvements, required for the large increase of business contemplated for the ensuing year; and the residue of the Bonds, for which the mortgage provides, will be issued hereafter, if required, to facilitate and further extend the business of the Company, to meet the capacity of their works. Proposals will be indorsed, "Proposals for loan Pennsylvania Coal Company."

Any further information may be obtained on application to either of the undersigned, or at the office of the Company.

je18 1y7 J. E. WILLIAMS, Cashier

WILMINGTON and MANCHESTER RAILROAD—$300,000 seven per cent. MORTGAGE BONDS.—Sealed proposals will be received by the subscribers until THURSDAY, the 10th day of July next, for three hundred thousand dollars of the first and only Mortgage Bonds of the Wilmington and Manchester Railroad Company, bearing interest at the rate of seven per cent. per annum, principal and interest redeemable in the City of New-York; the principal on the 1st June, 1866.

The Bonds are in sums of $1,000 each, with coupons payable at the Merchants' Bank, New-York, on the 1st December and 1st June in each year, convertible into the capital stock of the Company, at the option of the holders.

They are issued under acts of the Legislatures of North and South Carolina, secured by a Mortgage, or Deed of Trust, to Edward Sandford, Esq., of New-York, in trust for the holders of the Bonds.

The Deed of Trust covers the entire line of the Road complete and to be completed from Wilmington, in N. C., to Manchester, in S. C., a distance of 162 miles, extend, when completed, than heavy T rail and equipped, $1,200,000. The extraordinary adaptedness of the country to the construction of a railway accounts for this low cost.

The Trustees is empowered, in case of default in payment of principal or interest, to take possession of the entire line of Road, with its equipments, stations, income, franchise, &c., the same to sell at his discretion to the highest bidder for cash, to pay arrears of principal or interest.

The whole amount of bonds authorized to be issued by vote of the stockholders at a meeting called for that purpose in April last, and an order of the Railroad Board, is $600,000 to raise means to pay the residue of the iron rails and equipments, only $200,000 of which are now offered for sale.

The Company will owe no other debt when the road is completed.

This road will prove an important link in the great chain of railroads from Boston, New-York and Philadelphia to New-Orleans, connecting at Wilmington with the Raleigh and Wilmington Railway, now in successful operation, at Manchester with the great South Carolina Railroad leading from Charleston in the direction of Montgomery, Alabama, now in the receipt of near a million of dollars annually from its business; will avoid the present disagreeable sea voyage from Wilmington to Charleston, shorten the travel to New Orleans one day's time, facilitate the mails, and will bring the South in more immediate and direct communication with the North.

The position of this Road, its connections North and South, its easy grades, (none over thirty feet to the mile,) freedom from curves, and cheap construction, is such as to put it beyond the competition of any other line of road, for the immense inland travel between the North and New-Orleans.

The greater part of this Road traverses the most populous and fertile portions of South Carolina, producing cotton, corn, &c. in great abundance. Its local business alone will support it handsomely.

The census of 1850 shows that the district of country which will be tributary to this Road, and dependent on it for transportation to market, produced in 1849 seventy thousand bales of cotton, of an average weight each of 450 lbs.

The Company has one million of available stock subscribed, most of which has been paid in and applied to construction, to which can be added at any time at the option of the Company, $200,000, subscribed by the State of North-Carolina on certain conditions.

It is estimated that the net annual profits will reach 12 per cent. per annum.

About one-half of the entire line has been graded and bridged, the cross-ties being in the course of delivery, and will be ready for the iron rails immediately.

The entire line is under contract for grading and bridging and in a forward state, toward completion.

Six thousand two hundred tuns iron rails, T pattern, have been purchased and are in the course of delivery.

About $700,000 has already been expended in construction, including payment for the rails purchased.

It is expected that about 90 miles from Manchester East will be completed and in operation in the Fall of this year, and the entire line to Wilmington early next year.

The management of this Road is in highly respectable and competent hands. No work in the South undertaken or projected meets with more public favor than this.

For further and more particular information we refer to a printed "Exhibit" giving full details of the Road and its affairs, which contains a Map of the line with its many connections, copies of the Bond and Mortgage, opinion of Counsel, &c., prepared by Gen. W. W. Harller, President of the Company, which may be obtained on application at the office of the Company at Wilmington, N. C., or of the undersigned by mail or otherwise, with any other information desired.

We deem the security a desirable one. The States of North and South Carolina, and the various corporations chartered within their limits, which have been borrowers of money, have uniformly and under the most adverse circumstances promptly met their pecuniary engagements. Public sentiment in those States has always taken high ground in regard to punctual fulfilment of public and private pecuniary obligations.

The $200,000 will be disposed of absolutely and without reserve to the highest bidder.

Sealed proposals, for any amount not less than $1,000, will be received at the office of the undersigned until 3 o'clock on the 10th of July next.

Proposals to be addressed to WINSLOW, LANIER & CO., 52 Wall-st., New-York, endorsed "PROPOSALS FOR W. & MANCHESTER RAILROAD BONDS."

Parties whose bids are accepted will be required to pay twenty per cent. upon the amount awarded to them upon being notified of the acceptance of their bids, and the remainder in equal amounts on the first days of September, October, November and December next, but any party will be at liberty to pay in full at once if desired. Interest will commence from the day of payment.

BAIN'S WORM KILLER.—More children annually die from worms than from all the causes combined. These "little citizens" can be saved and made healthy.

BAIN'S WORM KILLER

removes the worms and makes the little patient perfectly well. It never fails. It kills or stupifies the worms and drives them from the system without the least injury, and always does good. It is the only infallible Worm Remedy ever made. It is a pleasant syrup that all children will gladly take, and ask for more. It contains no mercury. It is the cheapest and best worm destroyer in the world. The bottles are large, and sell at only 25 cents. Read the symptoms of the worms:

Pain in the joints and limbs, offensive breath; picking at the nose; grinding of the teeth during sleep; and at times a paleness about the lips, with flushed cheeks, bleeding at the nose, a gnawing sensation in the stomach, flashes of heat over the surface of the body, slight chills or shiverings, headache, drowsiness, vertigo, torpor, disturbed dreams, sudden starting in sleep with fright and screaming; sometimes a troublesome cough, feverishness, thirst, pallid hue, fits, bad taste in the mouth, difficult breathing, pain in the stomach or bowels, fatigue, nausea, squeamishness, voracious appetite, leanness, bloated stomach or limbs, griping, shooting pains in various parts of the body, a sense of something rising in the throat, itching of the anus toward night, a frequent desire to pass something from the bowels, and sometimes discharges of slime and mucus.

All those miserable feelings are banished by Bain's Worm Killer. Trust no other medicine or the child's life may be lost. Sold at 106 Nassau-st., corner of Ann, by S. TOUSEY, sole general agent for the proprietor. my29 1m.*

REV. Dr. STICKLAND'S American FAMILY PILLS are most undoubtedly the best vegetable compound ever discovered for the cure of Liver Complaints, Jaundice, Piles, Costiveness, Dyspepsia, Sallow Complexion, Sick Headache, Bitter Taste, Dropsy, Kidney Affections, Gravel, Rheumatism, Intermittent Fever and Ague, Influenza, Colds, &c. Being in strict accordance with the unalterable laws of creative Providence, and a knowledge of Anatomy and Physiology, the Doctor is convinced that the same Allwise Being has created in the vegetable world a remedy for every disease that flesh is heir to. Anatomy teaches that the human body contains many important organs called glands, each of which is employed in secreting from the blood its own appropriate fluid, the chief of which is the Liver, Kidneys, Salivary and Mesenteric bodies connected with the pores of the skin. The Liver and Salivary Glands secrete from the blood those fluids that carry on the work of digestion, and thus promote the healthy action of the bowels. The kidneys and skin secrete from the blood those deleterious impurities which, if obstructed, will produce many diseases, and health be entirely impaired. Now, this vegetable compound attacks the liver, stimulates it to action, removes its diseases, corrects the bilious and digestive organs, causing the kidneys to act, and opening the pores of the skin. Hence the "Purification of the Blood," whereby perfect health is restored. For convincing proof of the above the Doctor requests a perusal of his pamphlet, setting forth most fully the philosophy of their action, with full directions and certificates of unparalleled cures. Office 153 Fulton-st., New-York, and sold by venders of medicine generally. m29 3mMW&F

BATCHELOR'S Liquid HAIR DYE. Batchelor's Liquid has become so celebrated and successful, that it is exciting the cupidity of a host of imitators. The public must be careful to get the genuine at BATCHELOR'S Wig Manufactory, 4 Wall-st., where it is sold wholesale and retail, or applied. This Dye has been in successful operation for the last twelve years. my23 1y*

VERY MANY GENTLEMEN are afflicted with a tenderness of the skin in shaving, and to such GOURAUD'S ITALIAN MEDICATED SOAP must prove invaluable, as it makes a rich lather, even with hard or salt water, allays all cutaneous irritation, removes every pimple and every roughness, and renders the skin soft and smooth. It is, moreover, the very best shaving compound ever used. To ladies Gouraud's Soap is recommended as possessing almost marvelous power in the creation and conservation of a transparently fair skin; under its influence the best of cutaneous disfigurements known as Salt Rheum, Scurfiness, Ringworm, Eruptions, Spots, Blotches, Sunburn, Freckles, Tan, Sallowness, Redness, Roughness, &c., disappear, and reveal the natural beauty of the complexion, which they have served to hide. GOURAUD'S POUDRES SUBTILES, deemed for the total extirpation of superfluous human hair from any part of the body, are sui generis; no lady need, hereafter, endure the mortification of wearing a mustache—an appendage only properly belonging to a bearded, brother or lover. GOURAUD'S LIQUID HAIR DYE is perfect; free from all reservation, it can be relied on to change a gray hair to a beautiful brown or black, the natural tint, without staining the skin. GOURAUD'S HAIR RESTORATIVE, or CIRCASSIAN GLOSS, not only restores Hair, but makes harsh and wiry hair rich, silky and glossy, cures dandruff, itching, and diseases of the scalp, and is the softest, most efficacious preparation for usage on children's heads. GOURAUD'S LIQUID ROUGE and LILY WHITE are equally prized by the ladies. Bear in mind, that Dr. FELIX GOURAUD'S celebrated Toilet preparations can only be obtained genuine at his Depot, 67 Walker-st., first store from Broadway.

SIGHT RESTORED.—The subscriber has obtained a patent for a simple instrument, made upon philosophical principals, by which the sight is restored after having declined by age, and also to prevent decline if used occasionally by those whose sight first gives evidence of failure; my own necessity induced the experiment, and my success in its use has caused my presenting it to the public. The application is simple, and without the loss of time or expense. Agencies will be established, and dealers supplied at low prices at wholesale, throughout the country.
J. BALL,
To be had at the office of the subscribers, corner of Center and Reade sts., and at the principal Drug Stores in the city. [may26 1m*] J. BALL & CO.

Morse's Compound Syrup of YELLOW DOCK ROOT.—We feel prompted by every principle of humanity, to make known to the world the wonderful efficacy of this extraordinary preparation. Thousands have been relieved of a great amount of suffering, and many lives saved by the use of it. It is acknowledged by the best judges of medicine to be the most elegant, scientific and salutary preparation now in use, and as a depurative remedy, seldom if ever equaled. It stands unrivalled for the cure of Erysipelas, Salt Rheum, Canker, Scrofula and all the various diseases arising from an impure state of the Blood. Also, all Bilious complaints, and is used with unprecedented success in all cases of Female Weakness and general debility, strengthening the weakened body, giving tone to the various organs, and invigorating the entire system, and also for the cure of the Liver Complaint, Catarrh, Dyspepsia, Headache, Dizziness, Coughs,
