ZINC PAINTS, Manufactured at Newark, New-Jersey, by the
NEW-JERSEY EXPLORING AND MINING CO.
This Company is prepared to furnish a supply of their valuable
ZINC PAINTS,
which have been found, after several years' trial, both in Europe and in the United States, to retain their original beauty and protective properties, superior to any other Paint whatever. Their
WHITE ZINC PAINT
is purely an Oxide of Zinc, and is warranted free from all adulteration whatever. It has no poisonous properties so objectionable to the health of families and workmen in some other kinds of pigment.
IT WILL NOT TURN YELLOW
when exposed to sulphurous or mephitic exhalations, or even when shut up in a close room, nor is it affected by pictures hung on walls coated with it. As an outside Paint, it withstands the changes of weather better than any other, not being liable to turn chalky or to crumble and rub off. It may be worked with any color, or with water and oil, or with varnish instead of oil, thereby giving the justly celebrated porcelain finish.
The Company also manufacture BLACK AND COLORED ZINC PAINTS, which are beyond question without any equal for coating roofs, ships, outhouses, fencing and all iron or other metallic surfaces. They are of pure
METALLIC OXIDES,
and are unaffected by salt water or other exposure, less than any other paints within our knowledge.
Iron and other metals do not oxidize when coated with them, and they are remarkable for their fire-proof properties.
Dealers supplied on liberal terms by
S. T. JONES & CO., Agents for the Company,
jy21 3m 53 Beaver-st., N. Y.

WHITE ZINC—Invented by Edmond Jean Leclaire, in Paris—Patented by the VIELLE MONTAGNE COMPANY in Europe and the United States. Has been generally introduced and thoroughly tested for the last five years in the most expensive public and private edifices in Paris, London, &c.
It is unalterable, and preserves its superior whiteness and brilliancy. Sulphurous exhalations and gases common to cities, do not affect it. It is free from poisonous effects, as painter's colic, &c.
This paint is cheaper to the consumer than white lead, as it weighs less and lasts much longer.
The qualities for sale by the Vielle Montagne Company are Snow White and Silver White, also Gray Zinc for common work, as metals, fences, walls, roofs, &c.

INDIA RUBBER.

NOTICE TO THE PUBLIC.—We have noticed an attempt on the part of Day to involve ignorant men in his law suits, by a publication in which he has the daring to intimate that the caution published in behalf of the Shoe Association against dealers in Day's Shoes, is unauthorized. We can only say, in reply, that those who so deal and doubt will have their doubts speedily removed upon proof of their implication with Day in his infringements, by purchasing or by selling the pirated article. When Day's services are required in newspaper publications for us, due notice will be given.
In behalf of N. I. R. Co., Ford & Co., L. Candee, Hayward Rubber Co., and others. jy19 tf

A SHORT ANSWER to WM. JUDSON and the RUBBER COMBINATION.—For the past month the papers have teemed with a fresh supply of false and malicious attacks against H. H. Day and his business, all emanating from Wm. Judson, the agent, partner and counsel of the Rubber Monopolists. A legal opinion from such a source is of course not worth answering, and his abuse is equally contemptible.
Failing in this, he now assumes to speak for the "Combination" of Rubber Monopolists, and threatens to prosecute my customers if they dare to buy goods from Day. This is too old a trick to be patented, and the public can't be gulled any longer. The best goods will command the market, and if the "Combination" do really make their goods according to "Goodyear's Patent," all their threats will not make their goods sell, or prevent my customers from buying my goods which are *not* made according to Goodyear's glue and molasses patent.
For the past four years these wholesale monopolizers of the rights of the people, who stave off competition by threats of the law, have daily given out that Day's time had come—that he could n't stand it any longer; and yet he is on hand ready and able as ever to maintain his rights. In the only case which the Combination ever dared to bring to trial, they were beaten and Day got a verdict; but he has not heard yet that they have paid the *costs*, for which their sureties are liable.
Let them bring their actions to trial, and I promise them law and justice to their heart's content.
Let them come into Court if they dare. Their puffs of their own goods and their threats against my customers are equally vain. The public are tired of such humbug.

TO THE PUBLIC.—INDIA RUBBER SHOES.—Our attention has been called to an advertisement by Horace H. Day, published in the New-York Herald of July 11, 1851, and the Courier and Enquirer of same date, in which, after much unmerited abuse of our attorney, Wm. Judson, Esq., he asserts that *we dare not charge him with pirating Goodyear's Patents* under our own names; and that he does not infringe Goodyear's Patents in the manufacture of shoes.
We have purchased our license for the manufacture of India Rubber Shoes under Goodyear's Patents and paid our money, and are daily paying a tariff for the same, and any other person might have done the same, if disposed to do so rather than parade upon Goodyear's Patents. We think it more just to purchase a right to use a valid patent than to infringe it. Mr. Day, after having been prosecuted, acknowledged Goodyear's rights, made a settlement, and agreed in future not to infringe his patents. He is now attempting not only to infringe said patents but to injure us also, who have for a large consideration purchased our licenses and now work under them, and we charge *Mr. Day directly, and that over our own signatures*, with pirating upon Goodyear's Patents in the manufacture of the shoes which he is offering to the public; and we give notice that he and all who are concerned with him in purchasing or vending his shoes made in violation of said patent right will be prosecuted. New-York, July 12, 1851.

BRILLIANT DISCOVERIES.—"The Decapitation of Thos. Fairbank, Esq., Commissioner of Patents, by the executive, "was one of Day's most wonderful discoveries, "in honor of which" he gave a "Select Dinner" in Washington last Winter. This discovery, however, was inaccurative merely.
The payment to Goodyear in 1847 of $5,000 for a license to work under Goodyear's Patent, which Day has only lately discovered is of no use, is a great discovery, but made too late to benefit him.
Day's offer of $50 reward for the conviction of infringers on Goodyear's Patents, on which he himself had been the chief, and is now the only infringer, was a brilliant conception of Day's and undoubtedly original with him.
Day's discovery of Goodyear's great secret of vulcanizing Rubber a full year before his application for his Patent therefor at an expense to Day of only $66 paid to a man who had learned the secret in Goodyear's factory, was a brilliant exhibition of inventive genius and affords a striking proof of how closely one Inventor will sometimes follow upon the heels of another. jy15 tf

CAUTION TO THE PUBLIC.—All vulcanized white Rubber, as well as black and other colors not stamped by Horace H. Day, "GOODYEAR'S PATENT," according to his covenant in his license from Goodyear, is an infringement on Goodyear's Patents, and all dealers in, or purchasers of these goods, are equally liable as trespassers upon Goodyear's acknowledged rights with Horace H. Day himself, the Maker of such goods, and will be prosecuted accordingly. Day has a license from Goodyear to make Shirred Goods only, and a few small articles, by paying a tariff to Goodyear of three cents per yard, equal to about two mills on each pair of Congress Boots, while Day himself charges ten cents per pair for the use of Goodyear's Shirred Goods in Congress Boots to the hard-working shoemakers. All the India Rubber shoes now made by Horace H. Day, are an infringement upon Goodyear's Patents, and all dealers therein render themselves liable in damages to Mr. GOODYEAR, the Patentee.
