The first Bessemer steel made in the South was made at Chattanooga last week.

Democratic Postmasters have been appointed by the President for Covington, Ky., and Brooklyn, L. I.

The Mississippi rose here at Helena, Ark., broke a few days, causing a great loss of property and life.

The Mississippi River at Helena Arkansas, was higher last week than in 1882, and did much damage.

Capitalists have begun the organization of associations for the purpose of fighting more effectually the labor organizations.

Capitalists all over the country are beginning to form protective associations, to combat the combined action of the labor organizations. They have a perfect right to do so, the object being mutual protection, the same as that which moves the Knights of Labor and various trades unions. But while each may organize for mutual protection, the result will be mutual oppression. Harmony between employer and employe is necessary to their well-being.—Capital.

The Aim of the Knights of Labor.

Grand Master Workman Powderly, of the Knights of Labor, was a witness last week before the Special Committee of the House at Washington to inquire into the labor troubles. In response to a question from the Chairman, Mr. Powderly said:

"The aim of the organization of the Knights of Labor is to benefit the laborer, and to secure a better feeling between him and his employer. All our methods are peaceful. We never counsel anything of a violent nature. A member of the organization may, once in a while, commit acts of violence. We can not help that. It is a matter beyond our control, because, when men feel that have endured wrong, there is no law which can properly restrain them."—Commonwealth.

Political Parties in Kentucky.

Democrats will note with interest the movements of Kentucky Republicans. There is every reason to belive the Republicans will organize for the approaching August election, and counting upon dissensions in the Democratic party hope in a vigorous contest to make decided gains. Whether or no they will realize on these hopes depends greatly upon the action of the Democrats. If they put up bad men for office, encourage their newspapers in adverse criticisms upon the conduct of the Administration at Washington, and keep up a wrangling, factious spirit, the Republicans will come out of the contest largely the gainers.—Commonwealth.

Labor demonstrations were made throughout the country yesterday. Chicago was the strike center, and a survey of the situation gives the industries of Lake City a blue tinge. Beginning with the freight handlers the epidemic spread from one industry to the other, and by nightfall all the wheels had ceased to revolve. The general demand was eight hours a day but full pay. Some of the manufacturers determined to resist, and organized for that purpose last night, but the railroads are in a hole, and have no recourse but to yield or get the best terms possible. New York, Pittsburg, St. Louis and other points had a touch of the eight hour fever, but it was insignificant compared to the developments at Chicago. No disorders were reported from any point.—Courier-Journal.

Eight Senators.

The terms of eight Senators expire with this Congress. They are Hale, of Maine; Edmunds, of Vermont; Dawes, of Massachusetts; Aldrich, of Rhode Island; Hawley of Connecticut; Miller, of New York; Sewell, of New Jersey; and Mitchell, of Pennsylvania. They embrace all the old free States of Ohio, except New Hampshire. These eight Senators are all Republicans.

Do the Democrats expect to capture any of these prizes next winter? It is not so very long ago when all these States, except Vermont and Massachusetts, were represented in the Senate by Democrats. Add New Hampshire to the list, thus increasing it to nine, and it is but a short time since five of these States were among the Democratic strongholds of the country.

Do the Democrats of to-day propose to abandon this ground to the Republicans, and allow them to elect the eight Senators to the next Congress? It would almost seem so. As the time draws near for the adjournment of the legislatures of these States, the drift of the talk on all sides appears to be as to whom the Republicans will send to Washington. Except a few feeble kicks now and then about the remote possibilities of getting Democratic Senators in Connecticut, New York, and New Jersey, the whole eight are audaciously claimed by the Republicans with scarcely a protest from their opponents.

Do the Democrats, after a quarter of a century's exclusion from power, hope to resuscitate their party and rebuild it on solid and enduring foundations by a pusillanimous policy, and by declining to grapple with the Republicans anywhere, and on all occasions?

Has President Cleveland no conception of the importance of these things to the Democratic party?—New York Sun.

A Kentucky Captain.

There lived prior to, and for sometime after, the war, on George's Creek, in Lawrence county, Ky, a man by the name of Allen P. Hawes.

Well, Allen was a pretty clever sort of a fellow, and led by a patriotic love of his country, he enlisted in the Thirty Ninth Kentucky Infantry, and came out of the war unhurt, but bearing a Captain's commission.

Some years later, as reports have it, when slightly boozy he fell from his horse and hurt one of his legs, upon which he applied for, and obtained, a pension.

In the same neighborhood in which Allen lived, that pesky old jade, Madame Rumor, says there lived a widow woman entitled to a pension, and when her check came our gallant Captain sold her a farm to which he had no title, and went West to grow up with the country. The widow lost her land, and immediately there came letters from the West, that instead of growing up, the aforesaid Captain had died.

The next move was to show to the officers of the Mutual Aid Association of Ashland, of which he was a member, that said Allen was dead sure enough. Proof was made and certified to by the proper officers, duly filed in the office at Ashland, and an assessment made upon the death of Captain Allen P. Hawes, in which he was styled, as is usual with that Association, "Brother."

But a hint was dropped in the ear of Joseph Ferguson, and acting upon which he instituted an investigation, and, lo! and behold! the aforesaid Captain Allen P. Hawes is living, in the enjoyment of good health, and hence missed, only by a hair's breadth, the more than seventeen hundred dollars, which the members of the Society would have most gladly paid, had his death been confirmed.

Here is our hand, Captain, shake!—Catlettsburg Leader.

USE

HALL'S Vegetable Sicilian HAIR RENEWER.

It is a medicinal preparation, and, at the same time, an elegant and cleanly toilet article. Its action upon the scalp is healthful. It nourishes the glands which support the hair, and causes thin, dry hair to become thick, soft, and vigorous. It restores the color of youth to locks which have become faded with age or disease; and relieves and cures itching, caused by humors of the scalp. Dr. George Gray, Nashua, N. H., writes: "It gives me pleasure to testify to the wonderful effects produced by Hall's Vegetable Sicilian Hair Renewer, as observed by me in very many cases. IT WILL CERTAINLY RESTORE THE HAIR TO ITS ORIGINAL COLOR. It cleanses the head of dandruff, and leaves the hair soft, glossy, and beautiful." F. T. Sandhein, 1519 Spruce st., Philadelphia, Pa., writes: "After unavailingly trying a number of preparations to prevent my hair from falling out, and, realizing that I was fast becoming bald, I tried, as a last resort, Hall's Hair Renewer. I have used only four bottles of the Renewer, and am perfectly satisfied that it is the best preparation in the market for checking the falling out of hair, invigorating the hair roots, and promoting a new growth."

Buckingham's Dye FOR THE WHISKERS

commends itself to all who have occasion to use a dye for the beard or mustache. It will change gray, faded, or sandy whiskers, to a beautiful brown or black, as desired. The colors produced are natural and lasting. It cannot be washed off, contains no destructive ingredients, is cheap, safe, convenient to use, and effectual.
