ZINC PAINTS.—The New Jersey ZINC CO., having enlarged and completed their works, are prepared to supply from the Company's warehouse, their white and colored Zinc paints, at the following reduced prices:
No. 1 White ground in oil 9 cts. per lb.
No. 2 White ground in oil 8 cts. per lb.
No. 3 White ground in oil 7 cts. per lb.
Brown and Black ground in oil 5½ cts. per lb.
Dry white of Zinc 6 cts. per lb.
WHITE ZINC PAINT,
after several years trial in Europe and the United States, both as inside and outside paint, has been found to retain its original beauty and protective properties longer than any other paint; and for whiteness and brilliancy it stands unrivaled; and as the same weight will cover from 40 to 50 per cent more surface than the same weight of lead paint, it is really much cheaper to the consumer. It is warranted free from adulteration, and no stronger evidence can be afforded of its superiority than is derived from the fact that the French Government, after long continued experiments, has adapted its use in all its buildings and public works. It has no poisonous properties, like other pigments, so injurious to the health of workmen and of families occupying rooms recently painted. As an inside paint, it will not turn yellow, even when exposed to the sulphurous gases of coal fires or the foul air of ships. Their White Zinc ground in varnish produces the porcelain finish. Their
BROWN AND BLACK ZINC PAINTS
have peculiar drying properties, which in a few hours form a hard and solid metallic coating upon wood, brick, iron and other metallic surfaces, remarkable for their fire-proof properties. They are well adapted for marine purposes, having been found to resist the corroding action of salt water, so destructive to other paints. Dealers supplied on liberal terms by MANNING & SQUIER, Agents, No 45 Dey-st, N. Y. 9f tf
