Her Husband's Story

"My name is E. J. Spreng, and my address is 18 Boodman Block, Troy, N. Y. I want to tell how thankful I am that my wife's health has been restored to her. About a year ago she caught a dreadful cold, which settled in her bronchial tubes and lungs. She certainly had bronchitis, and I think consumption, too, and we despaired of her life. She had a tightness and soreness in the chest, and it was difficult for her to breathe. There were darting, sharp, dull and heavy pains, with constant coughing and expectorating. Each day she was worse than the day before. I was advised to get Acker's English Remedy, and did so, but my wife only shook her head and said: 'Another dollar thrown away.' She took the Remedy, however, and said the effect was magical. In less than an hour there was a remarkable change. She got better at once, and in a short time she was entirely well and strong again. The cure was permanent and there has been no relapse. I don't know what Acker's English Remedy is made of, but I am sure it contains something that fortifies the system against fevers attacks. My wife is in better general health now than ever, and you can't imagine how happy she is for her recovery. She tells everybody about Acker's English Remedy, and so do I, for I believe it to be our duty to the public to help every sufferer who has throat and lung troubles. My neighbors say it is a sure specific for croup, and has saved the lives of hundreds of little ones around in this vicinity alone."

Sold at 25c., 50c. and $1 a bottle, throughout the United States and Canada; and in England, at 1s. 2d., 2s. 3d., 4s. 6d. If you are not satisfied after buying, return the bottle to your druggist, and get your money back.

We authorize the above guarantee. W. H. HOOKER & CO., *Proprietors, New York.*

To The Deaf.

A rich lady cured of her deafness and noises in the head by Dr. Nicholson's Artificial Ear Drums, gave $25,000 to his institute, so that deaf people unable to procure the ear drums may have them free. Address No. 19940, The Nicholson Institute, 780, Eighth Ave., N. Y.

Remarkable Tumors.

Some remarkable records of tumors are given in The Lancet. The largest known is a uterine tumor that weighed 195 pounds, described by a doctor of Bucharest. Hunter removed one weighing 143 pounds from a woman whose weight without the tumor was 95 pounds. The largest solid tumor of this class weighed 100 pounds. The record for ovarian tumors is held by a Chinese patient, who had one weighing 169 pounds; without it she weighed 71 pounds. There is a New York one of 149 pounds and a German one of 146. For mammary tumors a case is on record where the growth in one breast weighed 64 pounds and in the other 40 pounds.

Didn't Know His Boss.

John I. Blair in his earlier days owned a western railroad along the route of which he established a series of lunchrooms, at which employees of the road were to be charged 50 cents and all passengers 75 cents. Mr. Blair once dined at one of these places and, concluding his meal, laid down a half dollar.

"Hold on!" cried the cashier. "You don't belong to this road!"

"I know that," replied Mr. Blair. "The road belongs to me."

Gotham's Millionaires.

At the present time there are between 500 and 1,000 men in New York who are worth $1,000,000 or more. In 1815, when New York had a population of 110,000, there were only 10 men who were assessed at $100,000 or more, and the highest assessment was only $200,000.

The cost of keeping up the drinking fountains and cattle troughs in London is $8,500 per annum. A single trough in a busy thoroughfare costs $250.

Humors Come to the Surface in the spring as in no other season. They don't run themselves all off that way, however, but mostly remain in the system. Hood's Sarsaparilla removes them, wards off danger, makes good health sure.

Dapepsia Can Be Cured By using Acker's Dyspepsia Tablets. One little tablet will give immediate relief or money refunded. Sold in handsome in boxes at 25c. J. A. Kinnear & Co.

A Cheerful Liar.

"I have followed trout streams ever since I was a boy," said a Providence crank, "and have tried to solve for many years the cause of the apparent decrease in brook trout. Recently I think I discovered the cause of the extermination. I was fishing along a brook near Oakland Beach, R. I., when I saw a large snake with a half masticated trout in its mouth. The action of the snake interested me, and, standing quiet, I studied the snake closely.

"On the end of the snake's tail was a sharp bony growth shaped like a hook. After a few moments my watching was rewarded by seeing the snake glide over to some bushes growing along the bank and catch a grasshopper in its mouth. The snake then placed the grasshopper carefully on the hooklike thing on the end of its tail.

"By this time my curiosity was thoroughly aroused," continued the fisherman. "The snake crawled up on a log that extended from the bank into the brook and let its tail hang into the water. In a moment up came a trout and snapped at the grasshopper. It was short work for the snake to transfer the fish from its tail to its mouth, and I had solved the problem of the extermination of brook trout."—Cleve. Plain Dealer.

How to Cure the Grip.

Remain quietly at home and take Chamberlain's Cough Remedy as directed and a quick recovery is sure to follow. That remedy counteracts any tendency of the grip to results in pneumonia, which is really the only danger. Among the tens of thousands who have used it for the grip not one case has ever been reported that did not recover. For sale by J. P. Byron.

Notice to Patrons.

A Horrible Outbreak.

"Of large sores on my little daughter's head developed into into a scald head" writes C. D. Isbell of Morganton, Tenn., but Bucklen's Arnica Salve completly cured her. It's a guaranteed cure for Eczema, Tetter, Salt Rheum, Pimples, Sores, Ulcers and Piles. Only 25 cents at J. P. Byrons.

Life Guards.

The Life Guards are two regiments of cavalry forming part of the British household troops. They are gallant soldiers and every loyal British heart is proud of of them. Not only the Queen's household, but yours, cure, every body's should have its life guards. The need of them especially great when the greatest foes of life, diseases, find allies in the very elements, as colds, influenza, catarrh, the grip and pneumonia do in the stormy month of March. The best way that we know of to guard against these diseases is to strengthen the system with Hood's Sarsaparilla—the greatest of all life guards. It removes the condition in which these diseases make their most successful attack, gives vigor and tone to all the vital organs and functions, and imparts a genial warmth to the blood. Remember the weaker the system the greater the exposure to disease. Hood's Sarsaparilla makes the system strong.

A CONFIDENTIAL CASE.

It Brought Out an Honest Confession About a Stolen Hog.

"It has long been a matter of argument," said the old lawyer, who was in a reminiscent mood, "whether a lawyer should defend a man that he knows to be guilty. There is an argument on both sides, and I do not suppose it will ever be settled to the satisfaction of all.

"A good many years ago I had a case that set me to thinking, and I haven't yet determined what my duty was in the matter. At that time I had a small practice in a little town in the western part of the state. Upon my return to the town one day, after having been away a few days on a matter of business, I was called upon to defend a worthless character who had been arrested for hog stealing.

"At that time every one kept at least one hog to be killed in the fall and salted down for use in the winter. One of my neighbors had butchered a hog a few days before, and the party that I was called upon to defend had been charged with theft of it.

"The case was about to be called when I arrived, and I asked for a little time in which to consult with my client. This was granted, and taking him to one side I said:

"'Now, see here, the best thing that you can do is to make a clean breast of the affair to me, and then I will know just where I stand. Whatever you may confess to me I will treat as sacredly confidential, and I will do my best to clear you.'

"'I didn't steal his hog,' protested the prisoner.

"'Then where did you get the carcass that was found in your possession?' I demanded.

"'From your back porch, boss,' he answered with a grin.

"Then I remembered that just before going away I had left orders to have my hog killed, and I could only gasp. However, I went to work and cleared my client of the charge he was under and took the carcass of my own hog as payment for services rendered, but I had hard work treating what he told me as sacred and confidential."—Detroit Free Press.

A Piece of Pure Luck.

The discovery of the famous Trojan mine in Calaveras county, Cal., is curious as an illustration of pure luck and doubtless has heartened many a discouraged miner. In January, 1865, Henry Becker, a German, and John L. Trimmer, a Connecticut man, two poor, ragged, discouraged mining prospectors, went into the mountains of Calaveras county to cut oak wood for fuel. They expected to make something like $30 or $40 each per month during the winter by the sale of the wood. They made their home in an old abandoned miner's cabin. A heavy fall of snow had covered the ground to the depth of two or more feet.

One day the two men built a great bonfire of brush. The heat melted the snow and left an area of hot earth. Becker determined to make an oven out of the hot ground, and, securing a haunch of deer meat, he began the digging of a hole in which to bake it. At the depth of two feet he came upon a bed of rock. He had been a prospector too long to resist the temptation of examining the rock, and, accordingly, before placing the meat in the hole he broke off a piece of the rock.

Then, after the venison was buried and roasted, he examined the broken bit of rock carefully by the light of his cabin candle. To his very great astonishment, it proved to be what miners call live rock, assaying $600 to the ton. For several months Becker and Trimmer kept their great find a secret, in the meantime gathering information concerning the dip angle and length and breadth of their new discovered ledge. Within a year from its discovery this mine had made Becker and Trimmer rich.—Philadelphia Times.

Knew a Thing or Two.

When a boy at school, the late Mr. Spurgeon took a prominent part in answering all questions put to the class.

One cold day, however, the teacher noticed that he was so very backward that he remained the whole time at the bottom of the class.

This went on for some time and puzzled the teacher until he noticed that the fire was near the bottom of the class. He immediately changed the class about, making the bottom the top.

He then had the satisfaction of hearing all his questions fully answered by Spurgeon and that young hopeful keeping the same seat, the only difference being that he was at the top of the class instead of the bottom.—Spare Moments.

SORES AND ULCERS.

Sores and Ulcers never heal so slowly as when the blood is in poor condition—is sluggish, weak and unable to throw off the poisons that accumulate in it. The system must be relieved of the unhealthy matter through the sore, and great danger to life would follow should it heal before the blood has been made pure and healthy and all impurities eliminated from the system. S.S.S. begins the cure by first cleansing and invigorating the blood, building up the general health and removing from the system all morbid, effete matter. *A CONSTANT DRAIN UPON THE SYSTEM.* When this has been accomplished the discharge gradually ceases, and the sore or ulcer heals. It is the tendency of these old indolent sores to grow worse and worse, and eventually to destroy the bones. Local applications, while soothing and to some extent alleviate pain, cannot reach the seat of the trouble. S.S.S. does, and no matter how apparently hopeless your condition, even though your constitution has broken down, it will bring relief when nothing else can. It supplies the rich, pure blood necessary to heal the sore and nourish the debilitated, diseased body.

Mr. J. M. Talbert, Lock Box 42, Winona, Miss., says: "Six years ago my leg from the knee to the foot was one solid sore. Several physicians treated me and I made two trips to Hot Springs, but found no relief. I was induced to try S.S.S. and it made a complete cure. I have been a perfectly well man ever since."

SSS is the only purely vegetable blood purifier known—contains no poisonous minerals to ruin the digestion and add to, rather than relieve your sufferings. If your flesh does not heal readily when scratched, bruised or cut, your blood is in bad condition, and any ordinary sore is apt to become chronic.

Send for our free book and write our physicians about your case. We make no charge for this service.
