Special Notices.

☞ **Grand Temperance Demonstration.**—JOHN B. GOUGH will deliver a Lecture on Temperance (and the necessity of a law prohibiting the liquor traffic) in the Jane-st. M. E. Church on FRIDAY EVENING, June 3, 1853. Tickets of admission 12½ cents, which can be procured from Mr. Dengan, No. 120 Amos-st; Mr. Williams, No. 65 Vandam-st; Mr. Edmunds, at the office of the City Prison; Thos. Edgerly, at the Organ Office, and at the door of the Church on the evening of the Lecture. The public are respectfully invited to attend.

☞ **Rally for the Charter Amendments,** and secure substantial city reform. On TUESDAY, the 7th of June, the People are to adopt or reject the amendments to the City Charter, passed by the Legislature at its recent session. The Committee have deposited tickets in favor of these amendments at the places stated below, being at least one in every election district. As it is well known that the men who are growing rich upon the corruptions of the City Government, are making arrangements to destroy all the tickets in favor of the amendments which they can reach, the Committee earnestly request every voter to supply himself with tickets previous to the day of election. They also request every man whose associations give him influence beyond his own vote, to take pains to distribute tickets among all he can induce to aid in the good cause of Reform. Remember that the taxes of 1852 amounted to $3,390,511 05, and that for the present year they have increased to $5,174,952 79, and that this increase of $1,791,291 54, in one year, more than 50 per cent., is in addition to a large increase in the permanent debt of the city. The adoption of these amendments will do much to roll back this increase.

The burden of taxation falls upon every man who supports himself. Those who can only hire part of a room, and procure but scantily the necessaries of life, have to bear a share of the load as well as those who live in large houses and indulge in luxuries. The men who receive and spend these increased taxes are organizing to defeat Reform. If the people who pay increased taxes in increased rents, wish to secure Reform, they must vote.

Tickets procured at either of the places can be voted in any part of the city.

☞ **The Directors of the Association for the Exhibition of the Industry of all Nations** give notice that the Exhibition will be opened on the 15th day of July.

In making this announcement, the Directors avail themselves of the opportunity to state that the Building, which they have erected, and the Exhibition which they have prepared, will, they believe, fully meet the just expectations of the Public.

It is proper that it should be known that, in order to afford ample scope for the inventive talent and skill of our Countrymen in machinery and agricultural implements, we have increased the size of the Building by adding nearly one-fourth to its area, beyond what was originally contemplated, so that we have now for the purposes of Exhibition, two hundred thousand square feet, or nearly five acres.

Not limiting their plans to a display merely curious or attractive, the Directors have organized a Department of Mineralogy and Geology in which some of the best scientific talent of the country has been employed; and the foundation is thus laid of a most valuable national collection of the mineral resources of the Country.

The Directors had hoped to open the Exhibition at an earlier period, but the novelty and intricacy of the style of construction and the high standard of architectural beauty, which it has been the object of the Association to attain, have produced delay, and it has been impracticable for the Directors, notwithstanding their utmost vigilance, and their most earnest desire, to announce the opening at an earlier day.

In regard to the general character of the Exhibition, the result promises to be most gratifying and not unworthy of the confidence manifested toward it by the Government of the United States, a confidence which has elicited a cordial response from the Governments of foreign countries. It will, unquestionably, be the most attractive and interesting collection of the works of art, the results of science and the productions of industry that has ever yet been made in this country, and will tend to increase the active emulation of the age in every branch of intellectual development.

The sole charge of the interior of the building, its division, arrangement, classification and police, has been confided to two officers of the Navy of the United States, Captains S. F. DUPONT and C. H. DAVIS; and the sanction of the Government gives to the appointment of these gentlemen, who have so much distinguished themselves in the special services in which they have been employed, affords proof of the confidence reposed and the interest felt, by the highest authorities of the country, in the general objects of the enterprise.

These gentlemen have organized their Department as follows:

J. M. BATCHELDER—Secretary of the Superintendent;
SAMUEL WEBBER—Arrangement of Space and Classification:
Prof. B. SILLIMAN, Jr.—Mineralogy and Chemistry;
B. P. JOHNSON—Agricultural implements;
JOSEPH F. HOLMES—Machinery;
EDWARD VINCENT—Textile Fabrics;
FELIX PIATTI—Sculpture.

The Directors have sensibly felt the confidence reposed in them by their fellow-citizens, in all parts of the country, and they will continue to make every effort to satisfy their just expectations.

This great work is at length issued COMPLETE. It is pronounced by the London Press one of the greatest fictions since "Ivanhoe." Its publication has created in England a strong and powerful sensation. Books like this appear only once in a generation.

The present is the ONLY complete and unmutilated edition of this great work now before the public. Any one can satisfy himself of this fact by examining the various editions in the market. The work now offered contains EIGHTY-TWO chapters, being SIXTEEN chapters MORE than are embraced in any rival edition.

90,000 COPIES IN ONE MONTH—THE KEY TO UNCLE TOM'S CABIN. By Mrs. H. B. Stowe.

We have published 90,000 copies of this unanswerable book of Mrs. Stowe, in one month. This is without a parallel in book publishing. The newspaper press is almost unanimous in its verdict, touching the ability and truthfulness of this great work. Read a few extracts:

The facts here gathered, from sources wholly undeniable, are stronger than fiction. [Watchman and Reflector, Boston.

An overwhelming mass of evidence. [Portland Eclectic.

Mrs. Stowe has fully sustained her world wide fame, in her Key. It is a most triumphant vindication of the truth of Uncle Tom's Cabin. [Sabbath Recorder, N. Y.

A terrific revelation. No wonder John Wesley called slavery "the sum of all villainies." [Cincinnati Journal.

Mrs. Stowe's Key is a volume of truths, strong as Holy Writ. [Detroit Daily Advertiser.

Everybody that reads this book will come to the conclusion that facts are stubborn things. [Buffalo Christian Advocate.

We beg every man to read this book candidly and carefully. [Congregationalist, Boston.

It possesses a terrible interest, and will command an immense circulation. [Zion's Herald, Boston.

The Key is a book among books, and will do a world of good. [True Democrat, Cleveland, Ohio.

This volume possesses a profound interest. [N. Y. Tribune.

The London Literary Examiner thus speaks: It is a book which most certainly will not weaken the impression that exists among thousands of readers, of the humanity or the genius of the author of Uncle Tom's Cabin. While it contains scenes of Mrs. Stowe's actual experience, as pathetic as humorous, as deeply tragic as the most celebrated scenes of her novel, it presents also from other sources, such details of terror and misery, such appalling and irresistible evidence of what slavery really and undeniably is, and which no humanity or kindness can ever make other than it is, that the effect produced by the novel (the Cabin) cannot but be inferior to that which may be expected from its successor; it takes the vividness of the impression at first produced, most certainly in the intensity and duration of the final emotions produced.
