All articles in the Medicine line not mentioned in this catalogue will be supplied on equally favorable terms. my21 1y

DR. DAVIS'S SYRUP OF WILD CHERRY AND TAR.—In offering to the public this new and valuable remedy for CONSUMPTION, BRONCHITIS, ASTHMA, COUGHS, COLDS, etc. we append a few notices of the testimony of those who ... the medicine. Numerous testimonials may be seen in a pamphlet for distribution at the agency, which officers are invited to obtain. It may be proper to say that Dr. D. is an eminent practising physician of twenty years' standing, a graduate of the University of Pennsylvania.

FROM Mr. JOHN D. MORGAN, Druggist.

The Syrup of Wild Cherry and Tar has given great satisfaction to those who have used it. I know of one instance of a merchant cured of Asthma on a gentleman of Ohio. I think I shall be able to sell at least six gross a year.

FROM THE WESTERN EMPIRE.

Dayton, Ohio, July 23, 1847.

Mr. J. P. Hewitt:—Sir: It affords me much pleasure to say to you that my cough and severe attacks of the lungs has been entirely removed by the use of one-half bottle of Dr. Davis's Syrup of Wild Cherry and Tar, which you and others advised me to use. You can safely recommend the use of the above named Syrup for Coughs and Colds, as a most excellent remedy.

Respectfully yours, W. W. PHILLIPS.

FROM Mr. EDWARD ROBBINS, Druggist.

Bordentown, N. J. Jan. 9, 1847.

We have taken some trouble to introduce Dr. Davis's Syrup of Wild Cherry and Tar here, and have sold all we received from you. Dr. J. H. Cook has used it in his practice, he thinks highly of the medicine.

☞ Dr. Cook is one of the most eminent physicians in the United States, and was the attending physician of Joseph Bonaparte ex-King of Spain, during all his residence in this country.

☞ When we first offered this medicine to the public, it is our sincere expressed intention of publishing no certificate without good authority for the truth. To this rule we have adhered, preferring all other testimony for the authenticity of which we have not had the most reasonable guarantee.

The following was forwarded us by a respectable Druggist, Mr. Howells, of Canton, Ohio:

[Extract from a letter from S. W. Wilson, Merchant of Neutium, Beaver county, Pennsylvania.]

Newtown, 5th month 10, 1846.

A young man of my acquaintance has taken your Syrup and has been perfectly cured. He labored under the consumption for more than three years, and had a great many kinds of medicine, and was under the medical treatment of some of the most eminent physicians in this country, but received no benefit until he took Dr. Davis's Syrup of Wild Cherry and Tar, and immediately commenced getting better, and is now in perfect health.

This testimonial I received from himself; his name is Henry T. Gobright, Wayne township, Butler county, Pa. He is known all over the neighborhood as a most honest young man, and it cannot be doubted that the Syrup saved his life.

ANOTHER CURE.

Palpitation of the Heart and Consumption of the Lungs relieved by Dr. Davis's Compound Syrup of Wild Cherry and Tar.

PHILADELPHIA, April 3, 1846.

For four or five weeks at last winter I was troubled with a severe cough, attended with great lightness and pain in my breast, and a violent palpitation of the heart. The cough was so harassing as to prevent me from sleeping a great deal of the night, and weakened me to that degree that I was obliged frequently during the day to lay down to work to rest myself. My physician pronounced my lungs affected, and began to administer medicine accordingly, but I could not get well again. At this time, Dr. Davis's Syrup of Wild Cherry and Tar was recommended to me. In two or three days' use of it, the oppression and pain in the breast were greatly relieved, and by the time I had taken four bottles the cough was entirely cured, and my general health and strength restored. The palpitation of the heart, with which I had been severely troubled for six years, is almost gone, and I feel a little of it occasionally with one exception. The relief of the palpitation has been so great that I can confident one or two bottles more of the medicine would have entirely removed it.

WEAKNESS AND PAIN IN THE BREAST.

PHILADELPHIA, June 23, 1846.

I can highly recommend Dr. Davis's Syrup of Wild Cherry and Tar, from my knowledge of its virtues. My wife had been affected for a long time with weakness and pain in the breast; the use of this medicine in a short time entirely relieved her. The symptoms would, after a time, return, and on all occasions the relief was speedy as in the first place. It is now nearly six months since she has been free of the affection. I consider it and asthmatics it is a most valuable medicine. Its strengthening effect has been very great in addition to relief in the breast.

S. WADLOW, 19 Water street.

PHILADELPHIA, June 16, 1846.

I feel no hesitation in recommending Dr. Davis's Syrup of Wild Cherry and Tar, from my experience of its beneficial effects in my own case. I have been for some weeks past subject to attacks of spitting blood, attended with soreness of the throat and an incessant cough, which prevented my enjoyment with appetite symptoms. Last spring, having an attack of it, I was recommended by an acquaintance, who had been cured by Dr. Davis's Syrup, to try it. I did so, and was relieved by it in less than one bottle. Its apparent good effects were immediate.

JOHN F. OHAIL, Ladies' Shoemaker, 70 Race st.

☞ Merchants and others interested in the currency give the unsolicited testimony of the universal popularity and efficacy of Dr. Davis's Syrup, in their notices. A number of them, witnessing its virtues, have regularly bought it on the condition that if it did not give satisfaction, the price should be returned, and no one of them has had any application to return the money. This speaks volumes in favor of the medicine. We append a few extracts from orders, as samples of those we receive frequently, as well as of verbal accounts we frequently hear:

FROM Dr. VAUGHAN and BUSH, 5th Practising Physicians as well as Druggists.

MIDDLETOWN, Ind., June 1, 1847.

Dr. Davis's Syrup of Wild Cherry and Tar Gave off like hot coffee. We think that if you choose to give us a Wholesale Agency for this medicine, we can make it come off in the Northern Indiana.

FROM HARGRATT & McCWAN. LOCKNEY, July 20, 1846.

Your Wild Cherry and Tar Syrup gives general satisfaction. We have now sold it for some time, and thought we would not order any but it is almost daily inquired for, and we thought, perhaps, it would be best to order some.

FROM Dr. W. S. MACKINTOSH.

WILMINGTON, OHIO, January 29, 1847.

The article of Wild Cherry and Tar I find to be a valuable medicine, and use it considerably in my practice. I have sold and used nearly all that you have forwarded, and I would be pleased to have some more, as soon as the means of transportation will be open.

FROM Mr. JOHN BULL, Druggist.

PORT TAMPA, February 20, 1847.

Messrs. Robinson, Collins & Co.—I am happy to inform you that I find Dr. Davis's Syrup of Wild Cherry and Tar will take the lead up in my part of the country. There are at least a half dozen bottles ... I have been asked so often for Dr. Davis's Depurative Extract and Joseph Davis's Horse Liniment, that I have taken the liberty of writing for an agency for the above articles, if agreeable to you. If so please write me word, and send me the rates and terms.

Respectfully yours, SAM'L R. KEMPTON.

DAVIS'S SYRUP OF WILD CHERRY AND TAR.—We wish to call attention to the advertisement of this valuable medicine in another column. We have tried its medicinal effects have come under our personal observation, and we therefore can honestly recommend it to the afflicted. [Ed. Ch. Weekly Visitor and Temperance Sentinel, (Trenton,) Feb. 5, 1847.

FRESH MEDICINES.—Dr. Davis's Syrup of Wild Cherry and Tar, Brown's Lung Balsam, Hayes & Co.'s Bookseller and Stationers, No. 195 Market street, Philadelphia. ... 1847

Your Syrup of Wild Cherry and Tar is an invaluable remedy; it removed the worst cough with me. If you wish a certificate I will cheerfully give one.

FROM S. S. STEVENS.

VAUGHAN, Ky., June 8, 1846.

My stock of Cherry and Tar Syrup is now reduced to six bottles, and a regularly daily increasing. You would do well to send me an ample supply.

MILFORD, Perry county, Pa., October 1, 1846.

Messrs. Robinson, Collins & Co.—Sir: This is to inform you that I was afflicted for twenty years with a violent pain in my breast; so much so that I could hardly do a day's work at times. Cough attended, followed by consumption, and other decided symptoms of consumption. I applied to several eminent physicians, and took a great deal of medicine, without any relief whatever. I was advised to try Dr. Davis's Compound Syrup of Wild Cherry and Tar, of which I took two bottles, which entirely relieved me of my complaint; therefore I can, with confidence, recommend it to all who are in like manner afflicted, as a most valuable medicine.

JOHN TOOMEY

The authenticity of the above statement is vouched for by Mr. Isaac Murphy, a merchant of Milford, who knows Mr. Toomey and the circumstances to be correct. Mr. Eq. ... years of age.

DR. DAVIS'S CURING WHOOPING COUGH.—No Fear.—The following letter speaks a world for itself:—Dear Sir: Hear the lips of Mr. Hodges—without point or varnish, it speaks nothing. Will authors need such evidence?

HARRISBURG, September 26, 1847.

I have been subject for the last three years to weakness of the lungs, cough and hectic fever, and very frequently had to go to bed during the day, with distressing night sweats and hard and left side, with night sweats. Last April I had a violent attack, which lasted for three months, it appeared to me that my whole lungs were diseased; I took quite a deal of medicine. I took a great many medicines that were recommended to me, as well as a number of prescriptions from eminent physicians, without any benefit. At last I was persuaded to take Dr. Davis's Compound Syrup of Wild Cherry and Tar, which is the most happy and salutary effect on my disease. Before I had taken the bottle, my cough gave way, my night sweats were relieved, the pain left my side and breast. I now consider that I am entirely well, except a very slight pain that I am occasionally afflicted with on one side of my breast.

JAMES GILDA GROSS, Tuesday street.

☞ A gentleman of the city of Baltimore has been troubled with debility of the urinary organs for several years, which at times became so extreme trouble to him, day and night, was recently cured by taking one bottle of Dr. Davis's Compound Syrup of Wild Cherry and Tar. But his great satisfaction was to find, were taking the medicine, that the more serious affection was also spoiling. It has now been some time since he has ceased taking the medicine, and the irritability of the bladder is entirely removed; and he can use the better in health. He has recommended it to many who have used it with cold—and he has anything and expressing effects of this valuable medicine. Its efficacy in the cure of inflammation of the kidneys or liver, palpitation of the heart, nervous affections, etc. To any one similarly afflicted, who will write a responsible reference, his name will be given, and we cover, as people are so often deceived by advertised medicines, that we frequently refer those who are good and free of quackery.

(We are acquainted with the gentleman to whom the above statement relates. He is a fellow craftsman, a respectable master-painter.—Editor Keystone.)

☞ The following statement is from a worthy and well-known citizen. Mr. Miller has been for several years a Director of the Public Schools, and has held various offices of honor and responsibility:

PHILADELPHIA, September 19, 1846.

A few weeks since I was attacked with an obstinate hacking cough, which prevented me from rest at night, as paregoric, squills and other sedatives failed to relieve me. Dr. Davis's Compound Syrup of Wild Cherry and Tar relieved me in a few doses, and three bottles of it completely cured me. My mother, who is troubled with a hacking cough, and has been regularly taking squills and paregoric, has been taking Dr. Davis's medicine for a few days past, and says her cough is not half so bad as before she commenced using it.

THOMAS MILLER, 41 Sassafras st.

☞ Sold wholesale and retail by the General Agents for the United States, J. WRIGHT & CO., 151 Chartres st., New Orleans.

☞ Sold wholesale and retail by the General Agents for the United States, J. WRIGHT & CO., 151 Chartres st., New Orleans. ... Where all orders must be addressed.

A. DELAGRAVE & CO., 71 Magnolia street.

MEDICAL.

JOHN BULL'S FLUID EXTRACT OF SARSAPARILLA.—This invaluable remedy has already cured ... the hearts of thousands, and is daily giving unequivocal testimonials to the efficacy that could be afforded by all the world in the cures of California and the world combined. It is put up in full quart bottles, and contains the strength of six ounces of the crude root. Compare Sarsaparilla as any similar preparation made in America.

Price—$1 per bottle, or six bottles for $5.

It has been a well established fact for many years that Sarsaparilla, when pure and properly prepared, was the only true medicine for all disease originating from an impure state of the blood. The use of mercury, drinking drinks, cell blocks in youth, harassment, etc. We boldly assert that JOHN BULL'S FLUID EXTRACT OF SARSAPARILLA is the only preparation before the public that is properly prepared on the scientific principles of chemistry and of uniform strength. The Sarsaparilla is purchased without regard to price, and every pound, before being used, is subjected to a process of chemical tests, and the genuine extract obtained before being used.

Bull's Sarsaparilla also contains the virtues of several other valuable medicinal roots, together forming the best compound and producing the greatest curative agent in the known world.

GOOD TESTIMONY.

The Ohio State Journal, Columbus, Ohio, thus speaks of Bull's Sarsaparilla:

"It has no equal. The unprecedented sale of Bull's Compound Fluid Extract of Sarsaparilla in this city, where it has been introduced for the past two months only with the very gratifying effects produced upon all who have tried it, warrants the assertion that as a purifier of the blood it can be equal. This is a bold assertion, but it can be substantiated by ample testimony in this city."

Bear with us, reader, a little longer, and be convinced that Bull's Sarsaparilla is the

WONDER OF THE WORLD!

and that it will cure you, no matter how long you may be suffering. What Dr. Owen, Druggist and Apothecary of several years standing, says about Bull's Sarsaparilla!

LOUISVILLE, May, 1848.

Mr. JOHN BULL—*Dear Sir:* I have been for several years severely afflicted with a Mercurial Headache and a dull heavy pain in my Loins. I used almost all the remedies of the day, especially those advertised by different persons, but all to little or no advantage, until I chanced to meet with yours, three bottles of which gave me more relief than all the others combined.

I therefore take pleasure in recommending your Sarsaparilla to the afflicted community as a superior article.

Very respectfully, J. H. OWEN, M. D.

RHEUMATISM.

☞ Let sufferers who are suffering under the agonizing tortures of Rheumatism read the following and see what also may be done for them, if they will use this infallible remedy:

Mr. JOHN BULL—*Dear Sir:* For the last three years I have been afflicted with Rheumatism of the severest character. I was at times in the greatest agony of pain; I tried every remedy at my command for the disease, but found no permanent relief until I was induced to use your preparation of Sarsaparilla, which has entirely cured me of Rheumatism and generally improved my general health. I have recommended it to several others, and they have been free of pain for several months, and have not taken the cure a permanent, and I confidently recommend it to being the best medicine in use for Rheumatism.

ISRAEL MUNGER,
Uniontown, Union county, Ky., May 15, 1848.

FROM DR. WM. T. PRENTISS.

Mr. BULL—In regard to your Sarsaparilla, I will say that I have used it to some extent in consumptive affections of long standing, as Tissue Capsule, Lupus, Prurigo, Scabies, Syphilitic Cachexia, and in other cases where the indication of cure seemed to require a thorough course of modification of the fluids of the body, with considerable success, in conjunction with local treatment. I think we should be able to say other preparation of Sarsaparilla is one, and any physician will admit its value upon learning the substances that enter into its composition.

W. T. PRENTISS, M. D.

Lexington, Ky., December 4, 1847.

NOTICE TO FEMALES.

John Bull's Sarsaparilla is one of the greatest Female Medicines in existence. In those numerous cases where the constitution is debilitated, the nervous energy is unstrung, when the efforts of nature are weak and sufficient, or are profuse or overwrought, when the face is pale and adorns the strength feeble and yielding, the spirits depressed and gloomy, the health broken, mind shaken, and consequently the happiness destroyed, then Bull's Sarsaparilla is a most invaluable remedy. It assists nature in the performance of her duty, throws the whole system, renews permanently the natural energies, removes obstructions, checks excesses, creates pure and healthy blood, and restores to health and happiness. Were ladies generally to adopt the use of this medicine, we would see far less suffering, disease and unhappiness among them than now exists. Health would take the place of disease, and cheerfulness would expel the pallid hues; we should have smiles instead of tears, and perhaps a few less children. Let all who are afflicted with any complaint arising from a confined suffering and oblation. At the critical period termed the "turn of life," which is often attended with so much danger, Bull's Sarsaparilla is found to exert a most happy influence. Let all approaching this critical period be supplied of this medicine.

A BEAUTIFUL CLEAR SKIN.

How we all admire a clear, beautiful white skin, and a smooth, delicate! How often do we see persons not possessing this desideratum, so devoutly to be wished, resorting to cosmetics, paints, powders and coloring materials, to restore to them a semblance of that which disease has deprived them of, and that, too, often times, with manifest injury to the skin! The fact is, Bull's Sarsaparilla is the best cosmetic known. It makes the skin clear upon the correct and only true principle, not by coating the surface with poisonous or deleterious matter which serves to close the pores and thus cause disease, but it does it by removing every particle of bilious, morbid and diseased matter from the blood, making the same pure, healthy and generous, and giving to every muscle, nerve, and changing the pallid, yellow, sickly and sallow complexion to the bloom and freshness of youth. If the indications of health be approached and combined, this fluid will be found to be the best of all patent mixtures and lotions, and the only effectual remedy. "A word to the wise is sufficient," and a word is enough for the ladies.

BETTER TESTIMONY THAN WAS EVER OFFERED IN FAVOR OF ANY MEDICINE.

FROM Mr. JAMES M. MOORE.

Mr. JOHN BULL—I have no hesitation in saying that I believe your Sarsaparilla to be the best article I have ever manufactured for the cure of Scrofula, Syphilis, and many other cutaneous and glandular affections, having used it with entire success in a number of cases. Yours, etc.

JAMES M. MOORE.

LOUISVILLE, December 20, 1847.

MORE TESTIMONY FROM DR. MOORE.

Mr. JOHN BULL—I am daily receiving from my general new cases of Scrofula, and with happy effect. I am now confident it is one of the most efficacious medicines that can be made for that disease.

Worcester, Ky., Feb. 1, 1848. JAMES M. MOORE, M. D.

Testimony like the following renders superfluous all further commendation of Bull's Sarsaparilla:

FROM DR. L. P. FANDRE, PROFESSOR OF CHEMIST. IN THE LOUISVILLE MEDICAL COLLEGE.

I have looked over the list of testimonials in favor of John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that the form a safe compound, and one that promises well in chronic diseases, in which it is applicable.

L. P. FANDRE, M. D.

Louisville, June 6, 1848.

Wind Dr. Dyne, Physician by appointment of the Louisville Marine Hospital, says of Bull's Sarsaparilla:

LOUISVILLE, March 20, 1849.

I have examined the prescription for the preparation of John Bull's Sarsaparilla, and believe the combination to be an excellent one, and well calculated to produce an salutary impression on the system. I have used it both in public and in private practice, and think it the best extract of Sarsaparilla now ... R. D.

Buffalo, N. Y. Sept. 1, 1848.

This Medicine is daily grappling with disease through the Western country restoring to blooming health and youthful vigor the sick and afflicted, and thus they are giving it the best recommendation.

Certificates so teeming from all directions from men of the highest moral standing, placing it from its intrinsic worth, its very best all remedies ever before the public.

Sold wholesale and retail, by JOHN BULL, at his Principal Office, 81 Fourth street, and by the agents generally in the city and country.

☞ Druggists wishing to accept an Agency for the sale of Bull's Sarsaparilla, will please address JOHN BULL, 81 Fourth street, Louisville, with references.

☞ The principal Agents in New Orleans for the sale of John Bull's Sarsaparilla, wholesale and retail, are

J. WRIGHT & CO., at their Patent Medicine Warehouse, 151 CHARTRES STREET.

DALLEY'S MAGICAL PAIN EXTRACTOR.

THE ORIGINAL AND ONLY GENUINE.—No Compound has ever been discovered that possesses the healing virtues of this wonderful remedy. Almost daily we hear of new and hitherto unknown values discovered by its application to some distressing case. It is a remarkable fact that many of its cures are known only from accident or report. Not so does the boast the science of Mr. HENRY DALLEY, limits, but, by unimitable the combination of its properties, it is found to be called on almost every ailment to which the frame of man is subject. Let us enumerate some of its peculiar qualities:

Sore—I SHOREN LIMBS, when all other means failed, it has in the future, no inflammation, Swelling or Pain can occur, and the bones only and tendons remain with a healthy vigorous.

Seventh—When the Bowels are painfully inflamed, the EXTRACTOR, if well rubbed upon them, will afford relief and cause a movement, even in cases Cathartic Oil, Jalap and all other means have failed.

Eighth—It is in perfectly safe in all cases—it never can do harm—the system will absorb it as more than is necessary temporarily. It will not conflict with any medicine that may be taken internally.

We have not space in this publication to enumerate all the diseases cured by DALLEY'S PAIN EXTRACTOR, but we shall hereafter give testimonials of its value, selected from the thousands in our possession, from all parts of the country.

PILES.

It may be confidently stated that there is no case of PILES which may not be cured by the PAIN EXTRACTOR. It is a certain remedy, and removes at once the pain and soreness.

John Williams, a resident of Hamilton county and city of Cincinnati, feel in a solemn duty bound, I owe to the community, and to the sufferer, to state that I have been troubled with the PILES for thirty years, during which time I have suffered such acute pain and loss of operations of that time by confinement to my bed, and have expended several hundred dollars, but to no purpose; I continued to grow worse. Meanwhile, I was persuaded, and finally yielded to the use of DALLEY'S MAGICAL PAIN EXTRACTOR, for the awful complaint; and to my utter amazement, I am as well and hearty as ever, and to the use of two bottles of this precious Ointment. I have not had a return of the PILES, and willing to affirm to, should it make the statement of an old resident of my neighborhood.

JOHN WILLIAMS, Cincinnati, 4th month, 1847.

ERYSIPELAS.

For Erysipelas the PAIN EXTRACTOR is unfailable. Otherwise it may make the disease disappear for a time, but it will return in a day and will to appear in the same or more other place. The Pain Extractor, however, draws out and completely removes the cause of the disease and effects a thorough cure.

ALBANY, May 8, 1848, 84 Jackson st.

I was one year under medical skill in the cities of New York and Albany, labouring under the most intensely Erysipelas, which left my left side inflammation of the Kidneys, and with bleeding Piles, finally ulcerated in large lumps, of the size of hens' eggs, protruding, and have been covered my body. The urinary secretions stopped for days, when my disease became intolerable. My doctor advised me to have the Piles cut, but I spurned
