STAMMERING CURED—ELOCUTION TAUGHT—Dr. COMSTOCK'S VOCAL GYMNASIUM, Philadelphia, which has been in successful operation for more than twenty years is designed for the Promotion of health, the Cure of Stammering, and the correction of Lisping, and other Defective Articulation, as well as for Improvement in Elocution. Address

A. COMSTOCK, M. D., No. 102 Mulberry-st. Philadelphia.

PHONETIC WORKS.—Dr. COMSTOCK is the author of the American Phonetic Alphabet, the only perfect alphabet that has been given to the world, because it is the only alphabet that has a distinct letter for every articulate sound, and signs for accent, inflection, and intonation. Dr. C. has published, in this alphabet, his System of Elocution, $1; the New Testament, $1 50; the first book of Pope's Homer's Iliad, with copious notes, 50 cents; My Little Geography, 25 cents, and a number of other works.

YOUNG LADIES' INSTITUTE.—Rev. H. D. WARD and Mrs. WARD having removed into their new and commodious house, No. 38 West 25d-st., between 5th and 6th ave., will reopen their Boarding and Day School there 15th Sept.

Machinery, &c.

CAUTION.—The ORIGINAL SEWING MACHINE is for sale at No. 365 Broadway, where all persons interested can see forty in constant operation upon CLOTHING, CAPS, SHIRT-COLLARS, BOSOMS, SHOES, LIGHT HARNESS, &c.; and thereby judge for themselves, without comment from interested persons as to their utility. All persons having licenses from me to sell their improved Sewing Machines, will exhibit them duly executed, and from them the public may freely purchase.

I have recently obtained AN INJUNCTION AGAINST SINGER'S Machine, (so called,) or which a certified copy from the records of the United States Court may be seen at my office, and have now a suit pending against the Two Needle Machines (so called) for infringing my original patent. And all persons making, selling, or using any of the Sewing Machines now known to the public, without a license from me, will be prosecuted to the fullest extent of the law.

KEYSER'S FURNACES for WARMING all kinds of buildings. The best in use as to quality of heat, simplicity of construction, and economy. Particular attention is asked to his new Hot Water Furnace, which will be warranted, as also his Franklin Range, House Furnishing Articles, Japanned Ware, Water-Coolers, Savery's Enameled Hollow Ware, &c. &c.

JOHN H. KEYSER, No. 298 Broadway, cor. Walker-st.

SWEENEY'S CELEBRATED HOT AIR AND VENTILATING FURNACE.—THE NEW-YORK FURNACE Co. having purchased the entire right to manufacture and sell the above named FURNACE in the following States, viz: New-Jersey, New-York (except the Counties of Niagara and Erie) and all of the Eastern States, are now ready to receive and execute orders from any portion of the above named Territory.

SWEENEY'S CELEBRATED HOT AIR AND SMOKE-CONSUMING FURNACE.

The Proprietors of this celebrated Hot Air Furnace, for Heating Churches, Public Buildings and Dwelling Houses, beg leave to respectfully represent a few of the testimonials which have been presented to them in favor of its superiority over all other Furnaces for heating purposes now in existence.

Extract of a letter now in possession of the proprietors from Jacob Sleight, Esq., wholesale Grocer, Main-st.:

"Being desirous of procuring a Furnace for heating my house, I had one of 'Culver's' and one of 'Kneeland's' Furnaces placed in, but found them both incapable of radiating sufficient heat to warm my house, it being one of the largest class dwellings, and situated on the brow of the hill overlooking the lake, and receiving the full lake winds.

"I employed Mr. Sweeney to take it out and place one of Sweeney's Hot Air and Smoke-consuming Furnaces in their place, and my house has since been warm and comfortable, and I can regulate the temperature of the atmosphere in my house at degrees, varying from 50° to 100°, at a saving of at least 50 per cent. in the fuel. I cordially recommend Sweeney's Hot Air and Smoke Consuming Furnace to building the best now in use.

Letter from E. Chevalier, President of St. Joseph's College, Prospect Hill, Buffalo:

BUFFALO, Dec 15, 1852.

DEAR SIR: I cannot refrain from expressing myself exceedingly pleased with the results produced by Mr Sweeney's Furnaces, which you have put up in our College. The effect produced by the ingenious inventor leaves nothing to wish for.

The main building, 80 feet by 42 feet, and the wing, 75 feet by 35 feet, are very comfortably heated. We have tested the degree of calorie that could be produced by the two Furnaces in very cold weather, and it was more than we were able to bear with. The indisputable superiority of this kind of Furnace consists, 1st in the simplicity of the Hot Air Conductors, whereby a considerable expense is saved; second, in the construction of a Fire Grate and Smoke-Consumer, which, by lessening the consumption of fuel at least one-third, produced double quantity of heat; and third, in the singular advantage of regulating the temperature of the house even when the wind is unfavorable. I cannot but congratulate Mr. Sweeney on his most useful and interesting invention, and I hope that as partners you will meet with all the success you are so justly entitled to. I remain, dear sir, yours respectfully,

E. CHEVALIER, President.

To J. B. COLLINS, Esq.

Copy of a letter from C. F. S. Thomas, Esq.:

BUFFALO, Feb. 3, 1853.

To J. B. COLLINS: I have used one of Sweeney's Smoke-Consuming Furnaces in my house during the past winter, and as a generator of heat I think it decidedly superior to any furnace I am acquainted with.

We have had no difficulty during our most severe weather, in thoroughly warming one house (which is rather a large one) with the use of but one Register.

The Sweeney Furnace, as now constructed, seems entirely simple, and not liable to get out of order, and is easily managed by any domestic of ordinary comprehension. Yours truly, C. F. S. THOMAS.

Letters of recommendation and testimonials have been received from the most respectable sources in Buffalo, Lockport, Niagara Falls, Canada, Sandusky, &c., claiming its superiority for heating purposes over all other furnaces ever invented.

J. B. COLLINS, Buffalo, N. Y.

BUFFALO, January 8, 1853.

J. B. COLLINS:

Dear Sir—I beg leave most respectfully to represent my opinions as to the nature and utility of your Furnace, the invention of Mr. F. Sweeney, the so called Sweeney's Hot Air and Smoke Consuming Furnace. In the first place, I would remark that within the last five years I have had two furnaces set up in my store, one of which is known by the name of the Culver Furnace, the other was one which was brought from New-York City by John B. Flagg, of the firm of Flagg & Pratt, of this city, and was set up by them. At that time my store was 16 feet deep by 21 feet wide, and four stories in height. I found them both inadequate to heat it, and had them taken out some eighteen months since; since that time I have enlarged my store, making it 20 feet in long ft, and for the distance of 100 feet about 40 feet wide, and with one of Sweeney's Furnaces my store is kept exceedingly warm and comfortable. And, also, on the score of economy, judging from what I used in either of the stores, and what fuel I use now I shall save at least two tons of coal the present season. I most cordially recommend your furnace to those in want of the same.

Very respectfully, WM. CARLAND.

BALTIMORE, March 23, 1853.

PETER SWEENEY:

Dear Sir—I have had trial of your Furnace, and find that it acts well. I think it will heat my house (which you know is large) throughout in the coldest weather.

I have had three furnaces of others' make before yours, and none of them answered the purpose. Some would not heat, and others filled the house with gas. Yours is certainly free from gas, and there is plenty of heat. Yours, respectfully, RICHARD FRANC.

NEW-YORK FURNCE Co.,

No. 5 Tryon-row, opposite the City Hall, New York.

N. B.—The Furnaces can be seen at Messrs. Shannon & Kimball's No. 203 Water-st., or at E. D. Tucker's, No. 11 South 7th-st., Williamsburgh, L. I.

SEWING MACHINES.—The Avery Sewing Machine makes beyond question the best and strongest stitch of any sewing machine yet invented. The stitch is practically very similar to the "lock stitch" in hand sewing and will not rip although every other stitch be cut. It is simple in its construction, not liable to get out of order, and no danger of breaking the needle. It is the only original in its construction, and is any other machine to infringe. We believe the Avery Sewing Machine is beyond comparison the best machine yet invented for tailors and other cloth sewers. The public are respectfully invited to call at the Company's office, No. 291 Broadway, corner Murray-st., and examine and thoroughly test the accurate and durability of the work done by these machines.

Prices for machines $25 and $40; table and treadle, &c., $15 and $20.

AVERY SEWING MACHINE Co., Office No. 291 Broadway.

BOSTON PIANOS.—T. GILBERT & Co., the celebrated Manufacturers of Piano-Fortes and owners of the Æolian Patent Right, in order to better accommodate their Southern and Western customers, have made arrangements with HORACE WATERS, No. 333 Broadway, New-York, the large and extensive publisher of Music, to supply the trade, wholesale and retail, at the manufacturers' prices. In consequence of the increased demand and unrivaled popularity of T. G. & Co.'s pianos, the subscriber has been obliged to make the large and spacious warerooms above named in connection with his store, the whole of which he has occupied for the past two years. This enables him to keep the largest assortment of Pianos to be found in the city, and also to supply the trade. These Pianos have the metallic frame, and will stand any climate. T. G. & Co. have recently put upon a new scale to their Pianos, which is superior in power and depth of tone and elasticity of touch, to anything that has ever before been presented to the public. Every instrument warranted to give satisfaction, or the purchase-money refunded. Second-hand Pianos at great bargains. Prices from $40 to $150. Music at wholesale and retail. Dealers supplied on the most liberal terms. Pianos to let. Also, a 7 octave Grand Piano to rent or for sale at a bargain.

GREAT AUCTION SALE of REAL ESTATE at CLEVELAND, Ohio, on THURSDAY, Sept. 1st.—350 CITY LOTS.—The subscriber will offer for sale, through Messrs. O. CUTLER & SON, Auctioneers, on THURSDAY, the ninth day of September, on the premises, 350 Lots in his all-street in the City of Cleveland.

This property fronts on First, Second, Third, Fourth, Fifth, Harrison, Canal and Commercial-sts., and on the Ohio Canal, and is nearer to the center of the city than any other tract of land of equal extent now occupied, it being only five squares distant from the Court House, City Market, and Public Square, and but 10 minutes' walk from the principal Hotels. One hundred of the Lots are on high ground, and are so valuable for residences as any in the City. The Canal front being about 1750 feet, has been docked and filled in, and is now ready for occupancy, and can be brought into immediate use for docks, coal, stone, and lumber yards, and for other business purposes. The balance of the lots, being in the center of the property, are suitable for stores, dwellings, machine shops, factories, mills, &c., &c. There are several large and valuable Springs in the property, which can be brought up at great expense, and the water thrown into reservoirs, with the intention of supplying every lot in the plat with pure spring water; and it is believed that there is ample water for that purpose, and also to supply such machinery as may be erected.

Arrangements are being made for the extension of Canal-st. through to the Pittsburgh-st. Plank Road; when this is done, there will concentrate upon this property the travel from two important thoroughfares, one leading into the City from the direction of Pittsburgh, and the other from the South and West, through University Heights.

All the streets in the plat are to be graded at the expense of the proprietor and according to the grades established by the city authorities. The work is now progressing, and will be nearly completed by the day of sale. Two streets of easy grades (not exceeding 3 deg.) will run from the Canal front to the heights. Many of the lots have already been ornamented with thrifty young forest trees, and the coming fall trees will be planted by the proprietor in front of all the lots that will be likely to be occupied for residences.

The undersigned has great confidence in recommending this property to the notice of capitalists, manufacturers, laboring men, and all others who are desirous of becoming interested in Cleveland real estate, and does not hesitate to say that the property must soon rank among the best and most valuable in the city.

Terms of sale as follows—Auctioneer's fees to be paid by the bidder at the time of the bid; one-fourth the purchase money to be paid down at the time of signing contract, and the balance in nine equal annual payments, with annual interest at 7 per cent. and taxes on the land and on the unpaid purchase money.

Parties paying a greater amount than one-fourth down will be allowed 5 per cent. on the excess.

Persons bidding off one or more lots on time will receive a contract from the undersigned, to which will be attached a stipulation from Leonard Case, Esq., who holds the title to the land, in which he will obligate himself to give a warranty deed for such land on the fulfillment of said contract; and parties paying in full for their lots will receive deeds directly from Mr. Case.

Maps of the property can be procured at the counting room of Messrs. CUTLER & SON, and at the several land offices in the city, and maps will be mailed to the bidders on the day of sale.

Should the weather prove stormy the sale will be postponed till the next fair day.
