KEYSER'S FURNACES for WARMING all kinds of buildings. The best in use as to quality of heat, simplicity of construction, and economy. Particular attention is asked to his new Hot Water Furnace, which will be warranted, as also his Franklin Range, House Furnishing Articles, Japanned Ware, Water-Coolers, Savory's Enameled Hollow Ware, &c. &c.
JOHN H. KEYSER, No. 306 Broadway, cor. Walker-st.

SWEENEY'S CELEBRATED HOT AIR and VENTILATING FURNACE.—THE NEW-YORK FURNACE Co. having purchased the entire right to manufacture and sell the above named FURNACE in the following States, viz: New Jersey, New-York (except the Counties of Niagara and Erie) and all of the Eastern States, are now ready to receive and execute orders from any portion of the above named Territory.
SWEENEY'S CELEBRATED HOT AIR AND SMOKE-CONSUMING FURNACE.
The Proprietors of this celebrated Hot Air Furnace, for Heating Churches, Public Buildings and Dwelling Houses, beg leave to respectfully represent a few of the testimonials which have been presented to them in favor of its superiority over all other Furnaces for heating purposes now in existence.
Extract of a letter now in possession of the proprietors from Jacob Siebold, Esq., wholesale Grocer, Main-st.:
"Being desirous of procuring a Furnace for heating my house, I had one of 'Culver's' and one of 'Kneeland's' Furnaces placed in, but found them both incapable of radiating sufficient heat to warm my house, it being one of the largest class dwellings, and situated on the brow of the hill overlooking the lake, and receiving the full lake winds.
"I employed Mr. Sweeney to take it out and place one of Sweeney's Hot Air and Smoke-Consuming Furnaces in their place, and my house has since been warm and comfortable, and I can regulate the temperature of the atmosphere in my house at degrees, varying from 50° to 100°, at a saving of at least 30 per cent. in the fuel. I cordially recommend Sweeney's Hot Air and Smoke Consuming Furnace, as being the best now in use.
"JACOB SIEGOLD."
Letter from E. Chevalier, President of St. Joseph's College, Prospect Hill, Buffalo:
BUFFALO, Dec. 13, 1852.
DEAR SIR: I cannot refrain from expressing myself exceedingly pleased with the results produced by Mr. Sweeney's Furnaces, which you have put up in our College. The effect produced by the ingenious inventor leaves nothing to wish for.
The main building, 60 feet by 42 feet, and the wing, 75 feet by 38 feet, are very comfortably heated. We have tested the degree of caloric that could be produced by the two Furnaces in very cold weather, and it was more than we were able to bear with. The indisputable superiority of this kind of Furnace consists, 1st, in the simplification of the Hot Air Conductors, whereby a considerable expense is saved; second, in the construction of a Fire Grate and Smoke-Consumer, which, by lessening the consumption of fuel at least one-third, produced double quantity of heat; and, third, in the singular advantage of regulating the temperature of the house even when the wind is unfavorable. I cannot but congratulate Mr. Sweeney on his most useful and interesting invention, and I hope that as partners you will meet with all the success you are so justly entitled to. I remain, dear Sir, yours respectfully,
E. CHEVALIER, President.
To J. B. COLLINS, Esq.
Copy of a letter from C. F. S. Thomas, Esq.:
BUFFALO, Feb. 3, 1853.
To J. B. COLLINS: I have used one of Sweeney's Smoke-Consuming Furnaces in my house during the past winter, and as a generator of heat I think it decidedly superior to any furnace I am acquainted with. We have had no difficulty, during our most severe weather, in thoroughly warming our house (which is rather a large one) with the use of but one Register.
The Sweeney Furnace, as now constructed, seems entirely simple, and not liable to get out of order, and is easily managed by any domestic of ordinary comprehension. Yours truly, C. F. S. THOMAS.
Letters of recommendation and testimonials have been received from the most respectable sources in Buffalo, Lackport Niagara Falls, Canada, Sandusky, &c., claiming its superiority for heating purposes over all other furnaces ever invented.
J. B. COLLINS, Buffalo, N. Y.
BUFFALO, January 3, 1853.
J. B. COLLINS:
Dear Sir—I beg leave most respectfully to represent my opinions as to the nature and utility of your Furnace, the invention of Mr. P. Sweeney, the so called Sweeney's Hot Air and Smoke Consuming Furnace. In the first place, I would remark that within the last five years I have had two furnaces set up in my store, one of which is known by the name of the Culver Furnace, the other of your own which was brought from New-York City by John B. Flagg, of the firm of Flagg & Pratt, of this city, and was set up by them. At that time my store was 96 feet deep by 21 feet wide, and four stories in hight. I found them both inadequate to heat it, and had them taken out some eighteen months since; since that time I have enlarged my store, making it 286 feet in length, and for the distance of 100 feet should 30 feet wide, and with one of Sweeney's Furnaces my store is kept exceedingly warm and comfortable. And, also, on the score of economy, judging from what I used in either of the stores, and what fuel I use now, I shall save at least ten tons of coal the present season. I most cordially recommend your furnace to those in want of the same.
Very respectfully, WM. GARLAND.
BALTIMORE, March 23, 1853.
PETER SWEENEY:
Dear Sir—I have had trial of your Furnace, and find that it acts well. I think it will heat my house (which you know is large) throughout in the coldest weather.
I have had three furnaces of others' make before yours, and none of them answered the purpose. Some would not heat, and others filled the house with gas. Yours is certainly free from gas, and there is plenty of heat. Yours, respectfully,
RICHARD FRANC.
NEW-YORK FURNCE Co.,
No. 5 Tryon-row, opposite the City Hall, New York.

SEWING MACHINES.—The Avery Sewing Machine makes beyond question the best and strongest stitch of any sewing machine yet invented. The stitch is practically very similar to the "back stitch" in hand sewing, and will not rip although every other stitch be cut. It is simple in its construction, not liable to get out of order, and no danger of breaking the needle. It is entirely original in its construction, not like any other machine now in use. We believe the Avery Sewing Machine is beyond comparison the best machine yet invented for tailors and other cloth sewers. The public are respectfully invited to call at the Company's office, No. 251 Broadway, corner Murray-st., and examine and thoroughly test the strength and durability of the work done by these machines.
Prices for machines $25 and $40; table and treadle, &c., $5 and $10.
AVERY SEWING MACHINE Co., Office No. 251 Broadway.

STEAM and GAS PIPE.—JOSEPH NASON, (of the late firm of Walworth, Nason & Guild,) No. 28 Broadway, manufactures Wrought Iron Pipe for Steam, Gas and Water, Valves, Cocks, Fittings, and every description of Steam and Gas Work, Steam Boilers, Boiler Plates, Feed Pumps, Coils, and Evaporators. Steam Vacuum, and Water Gauges, and numerous other Steam Boiler and Engine Mountings. He also constructs a great variety of Steam and Hot Water-warming and Gas-Lighting apparatus, and refers to examples of his work in nearly every section of the country.

"THE NEW-YORK GAS REGULATOR COMPANY" Office No. 262 Broadway.—Cheap Gas Light.—A saving of twenty-five per cent. The perfect success which has attended the operation of this valuable Machine at the Metropolitan, Astor, Irving, New-York, Union-place, Clarendon and Delmonico's Hotel, and in other prominent public places, added to the testimonials of its value awarded by the Press of New-York, (with whom it is in almost universal use,) make it unnecessary to recommend the "Regulator" for its economical qualities; for it is a valuable property of producing a more even, and agreeable light, at a reduced cost. The merits of the apparatus are so evident, both in an economical point of view and as producing a better light, that the slightest examination cannot fail of satisfying every consumer that in KIDDER'S Gas Regulator has been discovered the means by which the best of all lights, can be reduced to half the cost of oil, or the dangerous compounds of spirits and camphene.
Pamphlets containing the opinions of Professors Torrey, (Prof. of Chemistry College of Physicians and Surgeons,) Professor Wm. H. Ellet, Professor Wolcott Gibbs, (of the Free Academy,) who have given the "Regulator" a through scientific examination; of Curatio Allen, Esq., of the Novelty Works; of Chas. Roome, Esq., Engineer of the Metropolitan Gas Works, and others who have given the Machines the most thorough practical trial, can be had by applying at the Office of the Company, personally or by post. S. T. CLARKE, Secretary.
The Company invites a personal examination of the Regulator at the Experimental Room in Broadway.

ALBERT H. NICOLAY, Auctioneer.

PEREMPTORY SALE of ABOUT $300 BEAUTIFUL AND CHOICE BUILDING LOTS AT FORT HAMILTON, AT AUCTION.
ALBERT H. NICOLAY will sell on WEDNESDAY, August 17, 1853, at 2 o'clock P. M., on the ground, about 300 beautiful and choice Lots and Villa Sites, situated at the romantic village of Fort Hamilton.
These villa sites are 50x125 feet, and are located on high ground, having a splendid and panoramic view of the Atlantic Ocean, New-York Bay, the Narrows, Staten Island, &c., &c., which cannot be surpassed within 10 miles of the City Hall.
The streets and avenues are all opened and properly graded, and no expense will be spared to ornament and beautify the ground. A permanent ferry is now established, which, in connection with the stages, and the contemplated railroad from Brooklyn, will render Fort Hamilton as easily accessible as could be desired.
The Third-ay from Brooklyn is opened and beautifully graded to the Hamilton Hotel, on which this property, which affords a most delightful carriage ride thereto, is the space of about 30 minutes. Steamboats Economy and Bayonne leave Pier 3, North River, at 10 and 11 A. M., and 1, 2½, 4 and 6 o'clock P. M., daily; also, the Kayport boats, from the foot of Chambers-st., at 9 A. M. and 4 o'clock P. M.; also, stages from South Brooklyn.
A large portion of the purchase money can remain on bond and mortgage for a term of years, and the title is unquestionable, of which a printed abstract will be furnished gratis to every purchaser.
Should it rain on Wednesday, August 17, the sale will not take place until the first fair day, at the same hour and place. All persons desirous of attending the sale will be furnished with steamboat tickets free of charge.

ALBERT H. NICOLAY, Auctioneer.

PEREMPTORY SALE of 100 SPLENDID LOTS at the beautiful Village of WHITE PLAINS, Westchester Co., at Auction—ALBERT H. NICOLAY will sell on TUESDAY, Aug. 16, at 2 o'clock P. M., on the ground, 100 beautiful Lots and Villa Sites, situated at the healthy Village of White Plains. These lots are 50 by 100 feet, and are located on high ground, directly on a line with the Harlem Railroad, and within 12 minutes' walk of the depot. The soil and water are unsurpassed. The streets are graded to fill up, no cellars to dig out, and no assessments to pay as the streets all to be opened and graded free of expense. There are 12 daily trains that stop at White Plains; the commutation is only 16 cents per day, and the Harlem Railroad Co. will build a depot immediately on this property as soon as required. This village is well calculated for private residences, and stands already celebrated for its first-class residences, churches and good schools, and bids fair to become one of the most fashionable places to Westchester County.
Terms easy and title perfect.
Should it rain on Tuesday, Aug. 16, the sale will not take place until the first fair day, at the same hour and place.
For maps and full particulars apply to the Auctioneer, No. 40 Wall-street. (411)
