NO. 676.—*Resolved*, That the Comptroller ... notice, after sixty days' notice in the official journal, the contract for the supply and delivery, within the Third District, of thirty-five thousand yards of square block paving stones, for the paving of the public road from Esplanade to Louisa street, agreeably to specifications on file in the Surveyor's Department. The sale to be subject to the approval of the Common Council. [Signed] FRANS. ALFUENTE, President Board of Assistant Aldermen. [Signed] W. C. C. CLAIBORNE, President Board of Aldermen. Approved 8th March, 1853. A. D. CROSSMAN, Mayor. [Signed] COMPTROLLER'S OFFICE, Cour de Nouvelle-Orleans, March 8, 1853. } ☞ Notice is hereby given that on MONDAY, the 16th day of May, 1853, at 10 o'clock m., I will adjudicate, at my office, the above contract. O. DAUNOY, Comptroller. mh11 4d

Specifications for the furnishing and delivery within the Third District of the City of New Orleans of 35,000 yards of Square Block Paving Stones for the Paving of the Public Road from Esplanade to Louisa street.

These Paving Stones shall be of the best hard granite, not in any respect inferior in quality to the granite obtained from Rockport. They must be oblong in shape, not less than 11 to 14 inches wide, and not more than 11 to 16 inches long.

They shall vary in thickness as follows, viz.: one-fourth of the above quantity of stone shall be 5 inches thick; one-fourth nine inches thick, and one-half 10 inches thick.

The said stone must be well quarried, having parallel and square sides and ends, so as to make tight joints, and the tops shall be dressed fan, and free of burrs.

One-twentieth of the whole number of yards shall be prepared as per diagram, (for figure see plan) that is to say, one stone in twenty shall cut at an angle of 45 degrees with the side, so as to be laid diagonally from the curb stone towards the gutter, and one-twentieth to be taken out of the stone eight inches thick.

The stone shall be delivered as follows, and in equal proportions of each size in each delivery:

¼ of the whole amount by the 1st of January,		1854,	
¼ do.	do.	1st of April,	1854,
¼ do.	do.	1st of July,	1854,
¼ do.	do.	1st of November,	1854.

Security in the sum of $25,000 shall be required for the faithful performance of the contract.

The Stone to be subject to range measurement, when laid.

World's Safe Company.

THE attention of the public is called to the utility and superiority of these Safes over all others. Our Safes are made on an entirely new principle. Upon the first form a case cured strongly made from the best quality of iron plates or bars, around which is composition of cast-iron lapus, chilling the liquid metal, and making it impregnable to all attempts at cutting or breaking the interior of the doors or sledge. To the scientific, it is only necessary to say, "Nature's composition," the leaves no hollow or always, rivets or screws, for the cutter to take hold of, and consequently, with perhaps more effort than was required to put them together. Neither can the burning element make an impression on the solid mass, lined as it is with a fire-proof well.

We hesitate not in saying, that these Safes, secured with LILLIE'S EMPIRE BRILL AND POWDER PROOF COMBINATION BANK LOCKS, are the most really secure and reliable Safes now in use, besides. We say further, there is but little security in any of the popular Safes or Bank Vaults now in use. They are all the work of mechanics, often broken into, as experience has demonstrated.

The Company is now prepared to furnish at short notice SAFES and BANK VAULTS, of various sizes, for Banks, Institutions, Merchants or Firms and individuals—all of which will be warranted Drilled Powder Proof, when secured with Lillie's Bank Lock.

A sample of the above Safes and Locks, together with Day & Newly's Patentoptic Bank Lock, can be seen at the office of W. W. WHITE, No. 1 Commercial Place, or of J. C. PETTWEE, Agent, 84 Camp street.

B. ANTOGNINI, Manufacturer of BILLIARD TABLES AND PATENT INDIA RUBBER CUSHIONS OF THE UNITED STATES.

14 Conti street, between Chartres and Levee streets.—B. ANTOGNINI begs to inform his numerous customers and gentlemen, that he has just received an extraordinary excess in the manufacture of Billiard Cushions. These Cushions are made of a India Rubber Compound, which is superior to all other kinds of Cushions, and superior to all Cushions hitherto used both on account of their durability and the precision of the ball. Mr. Antognini will deliver, to whomever buys a Billiard Table in his establishment, a certificate warranting for the time fixed by the purchaser, the durability of his Table and Cushions,
