NEW ORLEANS MARKETS.

CURRENT OFFICE, Saturday Morning, June 11, 1853.

There has been a rather better feeling shown in most departments of our general market during the past week, though the amount of business doing has been moderate. The movement in Cotton and Tobacco, however, has been considerably increased, without any alteration of moment in prices. Flour, Corn and Provisions have been very firm, with an upward tendency in prices, the receipts generally having been small. Freights have been dull, especially for foreign ports, and most of the improvement noticed in our last review has been lost. The shipping in port not cleared yesterday morning comprised fifty ships, seventeen barks and twelve brigs. Exchanges have been dull most of the week. Advices from Liverpool to the 26th ult., received by the Cunard steamer Canada, were published on Tuesday afternoon. They represented a firm market at Liverpool, with a slight improvement in the rates for the middling qualities. The sales of the week were stated at 50,000 bales, including 5000 for speculation and 50,000 for export, leaving about 38,000 bales for the trade. Fair Orleans was quoted at 6¾. Fair Uplands at 6¼, and Middling Orleans and Uplands at 6d ⅌ lb.

COTTON—We left the Cotton market at the date of our last review, with a quiet appearance, closing up a business for the entire week of barely 10,000 bales, mostly at a reduction of ¼c on the middling and lower grades. On Saturday the market opened with rather more spirit in the demand, but still the sales of the day did not exceed 3500 bales, prices remaining without further alteration. On Monday there was some inquiry for speculation, and about 5000 bales changed hands, but on Tuesday only a few buyers appeared, taking some 3500 bales for the English market at previous quotations, the Canada's news producing no visible effect. On Wednesday the demand improved again, and 5500 bales were taken at steady prices, but on Thursday barely 3000 bales found purchasers. Yesterday, again, the market was without much activity, the sales being limited to 3000 bales, making a total for the week of 25,500 bales. Prices were steady, and our quotations are without change.

The receipts of the week are 4782 bales, against 3504 bales for the corresponding period last year, and in the total receipts at this port the increase, compared with last year, is 250,610 bales.
