DAILY CRESCENT.

The Democratic State Convention of New Hampshire has nominated Col. Baker as the candidate for Governor by a vote of 173 out of 290. Mr. Burke introduced a resolution in the Convention censuring President Pierce for certain appointments, which created much discussion.

A treaty has been concluded between the United States and the Free and Hanseatic Republics of Hamburg, Bremen and Lubec, for the mutual extension of the jurisdiction of the consuls and vice consuls of the contracting parties. The treaty provides that the consuls, vice consuls, commercial and vice commercial agents of each of the contracting parties shall have the right to sit as judges and arbitrators in such differences as may arise between the masters and crews of the vessels belonging to the nation whose interests are committed to their charge, without the interference of the local authorities, unless the conduct of the crews or master should disturb the order or tranquility of the country; or the said consuls, vice consuls, commercial agents, or vice commercial agents, should require their assistance in executing or supporting their own decisions. But this species of judgment or arbitration is not to deprive the contending parties of the right they have to resort their return to the judicial authority of their own country. The treaty is to continue in force for twelve years from the date of its ratification, and after that period until a notice of twelve months shall have been given by one of the parties of desiring its abrogation. [Baltimore American.

Welcern from these in attendance on the young man Hay, who died a few days since at the Sisters' Hospital, from the effects of the discharge of a pistol in his own hands, that it was by no means his intention to take his own life, but the result of gross carelessness or recklessness on his own part, and in justice to himself and his friends, we deem it proper to give his own statement, which was substantially as follows:

"That while in the saloon under the Varieties Theatre, the conversation turned upon the merits of two pistols, the property of two different individuals present, he having carefully examined one in his own hands, (a six-barrelled revolver,) and finding five barrels loaded and one empty, recklessly cocked it, turned to an acquaintance, and asked if he ever saw a man blow his brains out, and immediately pointing it towards his own head, pulled the trigger, the fact not having occurred to him that the pistol would revolve when cocked, and confidently anticipating no other result than the explosion of the cap of the empty barrel."

The father of the unfortunate young man is a gentleman of high respectability and wealth in the city of Boston, upon whom the melancholy circumstances of his son's death will fall with a heavy blow, and it seems but justice that the above facts should be known, as reports have gone abroad in the various newspapers that it was a case of intentional suicide. NEW ORLEANS MARKETS.

COMMERCIAL OFFICE,
Saturday Morning, June 18, 1853.

Business in our market has been on a rather limited scale during the week. Tobacco being about the only article of importance in which there has been much movement and this mostly at lower prices. Cotton has been very quiet, few parties showing a disposition to operate upon the recent advices from Europe. Sugar and Molasses have been dull, and the latter has sell at still lower prices. Flour and Grain have been firm, with a moderate business owing to small supplies. Freights have continued without any material change, and with a limited number of engagements. Exchanges have been dull, and the rates for domestic bills have slightly declined. We have been in the receipt of accounts from Europe by two steamers during the week. The Pacific, of which telegraphic advices were published in the evening papers of Monday, brought dates from Liverpool to the 1st instant. A fair demand was reported to have prevailed in the Cotton market at Liverpool during the three business days preceding her departure, with sales for that period of 18,000 bales. The market had been unfavorably affected by the accounts from Turkey, which appeared to justify apprehensions of a war with Russia, but prices had continued without any change of moment. Fair Orleans was still quoted at 6¾. Middling Orleans at 6. Fair Uplands at 6¾, and Middling Uplands at 5 15-16 ⅌ lb. The Manchester market was unchanged, but the latter accounts, from India had been considered unfavorable for manufacturers. On Thursday the evening papers published the Asia's advices, bringing up Liverpool dates to the 4th instant. The demand for Cotton subsequent to the departure of the Pacific had been good, especially for speculation, and the sales of the whole week had embraced 50,000 bales, of which 10,000 were taken for speculation and 3000 for export. The demand is stated to have been freely met by holders, but without yielding on the market, and quotations were the same as by the Pacific. The Money market at London had been tighter. The rate of interest had advanced to 3¼ ⅌ cent., and Consols had closed at 99¼@99¾ ex-dividend. The quotation by the Canada was 100⅜ for money. Cotton at Havre was reported as having declined about 2 francs during the week, with sales of 8000 bales. The deficiency in Orleans was quoted at 50 francs, and Atlantic descriptions at 55 francs.

COTTON—The Cotton market has presented a quiet appearance during the whole of the past week, and the sales up to Thursday evening did not exceed 7500 bales. The accounts from Europe by the Pacific and Asia, to which we have referred above at length, seemed to produce no effect on prices, and we had no alteration to make in our quotations during the five days. Yesterday, again, the market was without animation, and only about 1500 bales changed hands, making a total for the entire week of 8500 bales. Prices yet remained without alteration, and we still quote as below.

The receipts of the week are 4942 bales, against 11,858 bales for the corresponding period last year, and in the total receipts at this port the increase, compared with last year, is 235,154 bales.

COMMERCIAL SUMMARY.

Domestic Markets.

REVIEW OF THE BALTIMORE MARKET FOR THE WEEK ENDING ON THE 13TH INST.

COTTON—The Cotton market is less firm this week, and prices may be considered a trifle lower. Sales since our last review of 517 bales Middling to Middling Fair Uplands and Gulfs at prices ranging from 10⅝ to 12c, six months. The demand is moderate. Part of the above was sold for export. This is rather a new feature in our Cotton market, the selling for export, which has taken place chiefly since the opening of the Baltimore and Ohio Railroad, and argues that the business in Cotton promises to increase. The stock at present on hand is 6000 bales.

COFFEE—The Coffee market has been dull and quiet. Sales limited. Holders, however are firm, but the tendency of prices is downward. We note sales in all of about 25,000 bags Rio at prices ranging from 8¾ to 9¼c, and 9¾c as to quality. Buyers are not now inclined to give these figures. Sales also of 300 bags Laguayra at 9¼@9½c. The stock at present on hand is about 43,000 bags. Imports of the week 4879 bags from Rio.....BACON—The market is quiet. Receipts light and sales small. Sales of 30 casks Shoulders at 6½c. Small sales of Sides at 7¾@8c. A sale of 30 tierces Hams at 11½c. We quote Hams at 10 to 12 cents, as to quality.....BULK MEATS—We note sales of 10,000 lbs Bulk Sides at 7¼@7½c. Also, 80 casks Shoulders at 6 cents cash.....PORK—Transactions moderate. Small sales of Mess at $15 75@$16 00—generally held at the last named figures. The Exchange opened with quotations of $4 62½@$4 75 for Ohio, St. Louis and Indiana, and on Tuesday 500 bbls sold at $4 56¼, and 900 do at $4 62½. PHILADELPHIA, June 9, P. M.....FLOUR—The Flour market remains dull, and only about 1000 bbls found buyers, in small lots, at $4 50 for standard.....WHEAT—There is but little Wheat offering, and prime lots are in demand at former quoted rates. Sales of 3 to 4000 bushels are reported, mostly Pennsylvania White, on private terms, including 1600 bushel of Delaware Red at 100c.....CORN—Is better demand, and holders are firmer. Sales of 6 to 7000 bushels, mostly good southern Yellow, having been disposed of at 60c; inferior lots are unsaleable.....OATS—Nothing doing.....WHISKY—Scarce, and further sales of Bbls at 22½c. Drane holders are more. Hhds are selling at 22c.

MONEY MATTERS, TRADE, ETC.—The New York Evening Post of the 9th inst. says: "One of the most obvious and certain signs of an easy money market is to be found in the fact that though this is the month in which the controller will call for a quarterly statement of the condition of the banks, no excitement is felt. How different was the state of things in March and December last, which were the two preceding quarters. This is the end of the quarterly statements; and from this wise provision, we hope to escape any trouble in September, which would ensue if the banks were not thus prevented effectually, by an irresistible appeal to their daily standing, from undue expansion.
