Typewriter Gives Business Standing

The small town merchant, the rural business man or the farmer who uses a typewriter has the advantage over the man who does not. The typewriter not only saves time in writing letters and making out bills, but it adds prestige and reputation to the user.

The L. C. Smith & Bros. Typewriter is especially adapted to use in rural districts because it will stand more wear and does not require an expert operator. By following the instructions we will give you, you will have no trouble learning.
