DAILY CRESCENT.

Success.—We ought always to make choice of those of such worth and honor for our friends that, if they should ever cease to be so, they will not abuse our confidence, nor give us cause of fear them as enemies.

Queen Victoria intends to visit the Lakes of Killarney this summer. She will be the guest of the Earl and Countess of Kenmare.

Old Bull intends to give a treat on the 4th of July to his numerous friends at Oneana, his colony in Pennsylvania. He has had a concert room 100 feet long erected for the purpose.

The 4th July is to be celebrated in Boston by a grand military and civic procession, and a dinner for 10,000 persons at night.

The season for ever-crowding emigrant cars is about to be made the subject of legislative action in New York.

The 4th July, according to the Philadelphia Inquirer, will be generally thronged this season.

There are $150,000 worth of strawberries in New York this season.

WINER'S CANADIAN VERMIFUGE, A CERTAIN REMEDY FOR WORMS.

IT IS A FACT, established beyond the shadow of doubt, by the experience and testimony of the most eminent physicians, more than three-fourths of the diseases with which children are afflicted are caused by Worms, and thousands of children die annually from these diseases, when the cause is either not known or attributed to something else. Various are the preparations which have been recommended and remedied. Worms, but experience has proved that in all more or less ineffectual; the one and however has at length been attained, and a remedy found which has never failed to destroy Worms, wherever they have existed. This is a fact, which is attested by the testimony of the most eminent physicians and respectable individuals in the country. The remedy is

WINER'S CANADIAN VERMIFUGE, WARRANTED PURELY VEGETABLE.

It is safe in its operation, and may safely administered the youngest child. Some of the symptoms which manifest the existence of the Worms in the bowels are as follows: The countenance is generally of a bloated and sallow hue, with occasional flushes; the eyes are heavy and dull, the breath fetid, large upper lip, the nostrils are frequently in motion, which the patient to pick his nose; the sleep is disturbed, the patient often awakening in great fright, and is liable to startling and grinding the teeth; the appetite is capricious, being sometimes voracious, other times, and in sometimes it is depraved.

World's Safe Company.

THE attention of the public is called to the quality and superiority of these Safes over all others. Our Safes are made on an entire new principle. We first form a case or rack of wrought iron, which we place alternate layers, around which a composition of cast-iron is run, chilling the liquid metal, and making it impenetrable to fire and water. We have had ample opportunity of testing the merits of our ledge. To the scientific, it is only necessary to say, "Nature is no Mechanic," who leaves no nails or screws, rivets or screws, for their use have long ago to remove, with perhaps less effort than was required to put them together. Neither on the burning element make an impression on the solid mass, Hood as it is with a fire-proof wall.

We have on hand a variety of Safes, and Locks, together with Day & Newell's Patentable Bank Lock, can be seen at the office of W. W. WHITE, No. 110 ... L. C. PETTEES, Agent, 84 Camp street.
