NEW ORLEANS MARKETS.

CRESCENT OFFICE,
Saturday Morning, July 16, 1853.

Except in the article of Tobacco, and within the last day or two, some movement in Flour and Grain, our market has presented an inanimate appearance during the past week. Cotton has been very quiet, but with a rapidly diminishing stock, without any material change in price. An impulse has been given to the demand for Flour by the last advices from Europe, reporting a failure of the crops in the South of France, and the renewed danger of war on the Eastern question. Provisions have continued dull, and Bacon has sold at low rates. Nothing of any moment has been done in Freights. Exchange has continued dull, without any alteration of moment in the rates. The Collins steamer Atlantic, with Liverpool dates to the 20th of June, arrived at New York on Sunday last, but, owing to an interruption in telegraphic communication, her accounts only reached here on Wednesday at noon. They reported an active demand in the Liverpool Cotton market, with sales for the four days preceding her departure of 31,000 bales, including 10,000 for speculation and export. Prices were quoted a fraction higher, as follow: Fair Orleans 6¾, Middling Orleans 6 1-16; Fair Uplands 6¾, and Middling Uplands 5 15-16@6 1-16 ₱ lb. Flour had advanced 1 6d@2s ₱ bbl, and Ohio brands were quoted at 25s. On Thursday noon the Arabia's advices reached here by telegraph, bringing up our dates from Liverpool to the 24 instant. The Liverpool Cotton market is represented by these advices to have continued rather active, but with some irregularity in the rates. Though holders generally are stated to have been firm, the quotations indicate an advantage to buyers in the rates which are given as follow: Fair Orleans 6¾@6⅞, Middling Orleans 5⅞@6, Fair Uplands 6¾, and Middling Uplands 5⅞@6 ₱ lb. The sales for the week ending July 1st were 6000 bales, of which 0000 had been taken for speculation and 0000 bales for export. Speculators had largely advanced, and Flour was quoted at 25s for Western Canal, and 25s 6d ₱ bbl for Ohio brands.

COTTON—We left the Cotton market, at the close of our last review, with a rather quiet appearance, the sales of Friday reaching barely 1400 bales, making up a total for the week of 9500 bales, mostly at full prices, indicating an advance of full ¼c for the same time. On Saturday the demand was limited, and the sales reached barely 500 bales, without change in the rates. On Sunday morning the America's accounts were published, reporting sales in the Liverpool market for the week ending June 20th of 57,000 bales at a slight advance in prices, the quotations closing at 6¾d for Fair Uplands, 6d for Middling Orleans, ⅛ for Fair Uplands, and 5⅞d ₱ lb for Middling Uplands. This seemed to produce no effect on our market on Monday, when the sales reached only 250 bales. On Tuesday, again, the demand was limited, and only about 750 bales changed hands; but on Wednesday two or three buyers came forward and took some 1500 bales, prices remaining without any change of moment. The market was again rather quiet on Thursday, and only about 700 bales were taken, and yesterday the demand was still more limited, the sales not exceeding 500 bales, making an aggregate for the week of only 4000 bales. Prices have been rather irregular, and in some instances, lower rates have been accepted by factors, though we do not find it necessary to change our quotations.

The receipts of the week are 1253 bales, against 2476 bales for the corresponding period last year, and in the total receipts at this port the increase, compared with last year, is 221611 bales.

TOBACCO—The movements in the Tobacco market continue unchanged, under the influence of further unfavorable accounts from the West, and prices have still maintained an upward tendency. A telegraphic dispatch, dated the 14th instant, published in our issue of yesterday, says that expectations about Canton, Ky., state that the Tobacco crop is almost a total failure, they say that if a good season should now commence, and continue favorable throughout the crop will not be either than a short crop.
