THE PERFECTION of MECHANISM.—AMERICAN IMPROVEMENT IN WATCHES.
These WATCHES are manufactured on the same system that has made American firearms the best in the world. It substitutes the precision and rapidity of machinery for the skill of handicraft. The factory consists of a complete series of machines, devised and made expressly for this establishment, each of which works true to the thousandth part of a hair, turning out its own particular part, so as to be an exact fit in any one of a thousand Watches. High skill with good luck may equal such work, now and then, but must fail generally, and always be dearer. The ease of repair is obvious, because the manufacturers have always on hand parts to replace any that may be damaged. Their simplicity and stability of structure render these watches the least liable to get out of order, and they are confidently recommended as superior in every respect, and especially in the correctness of their TIME, to imported Watches of the same price. As soon as their merits are known, people will no more think of importing Watches to get good ones, than they now do of importing clocks or pistols with that view.
Each movement is engraved APPLETON, TRACY & Co., Waltham, Mass., and is accompanied by a certificate of genuineness and perpetual warranty. APPLETON, TRACY & Co.

WATCHES—VERY LOW.—The subscriber, in business in Wall-st. for the past nineteen years, is selling all descriptions of GOLD and SILVER WATCHES, at wholesale and retail, at less than the usual prices.
