OCEAN SPRINGS, Lynchburg, Miss.—The undersigned having leased for a term of years the newly improved and highly valuable Hotel property, will open it for the reception of visitors on the 1st of June.
They are located about five miles east of Biloxi, Miss., immediately on the sea shore, opposite the great attractive Ship Building, the sending sea air, fishing, etc., etc. They are easy of access at all seasons of the year by their new pleasure boats, which ply daily during the summer, starting from the Lake end of the Pontchartrain Railroad.
The analysis of the water, as made by Dr. J. Lawrence Smith, Professor of Chemistry in the University of Louisiana, proves, beyond a doubt, that the Springs possess mineral qualities of the highest order. Of this more hereafter.
The medicinal virtue of these waters is to be looked for more particularly in the oxide of iron and supiureted hydrogen, both of which are in so large quantities; and it is therefore apparent that these chronic diseases might be cured, or receive important alleviation from these waters. As a bath, it could be equalled only with much advantage. Accommodations of every description will be found on the place, at Hotel, capable of accommodating about three hundred persons, has been erected, and the improvement began the last year will be continued. Parties to New Orleans will be a sufficient guarantee that his guests will be properly cared for.
