THE SPRINGS.

ALWAYS ILL, FROM HIS BIRTH.—So common are certain words in the human subject, that it is taken for granted that the mere mention of the Bitters called Dr. Tobias Venner's Tonic Vermifuge Wafers, will suffice, in view of so dangerous a malady, to make use of the proper remedy. D. A. FAUCHERAUD, Agent for the Proprietors, 108 Gravier street, corner of Perdido, New Orleans.

PEUGHKEEPSIE, N. Y., June 30, 1853.

This is to certify that I have given my boy, seven years of age, a bottle of DR. TOBIAS VENNER'S VERMIFUGE WAFERS, like to pass TWENTY-TWO WORMS, so large that they filled a pint measure. I may add that the child was in the time he was ailing, subject to many other worse maladies, so over was exhausted until I applied the above named medicine. It may suffice to say, I have never had to be a safe and certain remedy. (Signed) JAMES E. LEWIS.

It is delightfully shaded by tall, majestic oaks. The salt water bathing is very good, and the shore bathing unsurpassed, in consequence of the absence of those poisonous decoys of peopling the summer months where disease is never known. Ample arrangements have been made by accommodation, such as fishing, sailing, bathing, ten-pin alleys, billiards, pistol galleries, etc., etc. The house will be under the management of Mr. Elias Beach, formerly of Pelican Hotel, New Orleans, and has been furnished with Mr. Willard Friedman, under the style of Friedman and Co., who will see that the comfort of the visitors, the patronage of the public and their respectfully solicits a share of patronage.

COPPER-FACED TYPE.

THE NEWTON COPPER TYPE COMPANY, is giving notice of their removal from No. 8 to No. 1 North William street, (Barclay Place, No. 14 Park row,) and to ask the particular attention of Printers to the great improvements they have recently made in our work.

Wherein, she has not only greatly increased durability in Copper-Facing Type, Stereotype Plates, Cuts, etc.

A new feature is in the business, which we have to our aid, Southern Books of the original Type Founders in the United States, for the inspection of Printers. It is believed that this will prove a great convenience to Printers, by saving their time and trouble, in not calling them to see at a glance, and compare the various styles, from the numerous Specimen Books of different parties. Orders for type can be given through the company, or directly with the foundries.

One of the stockholders of the company resides in London, and carries the interest of Dr. Newton's patent there, and will give no peculiar facilities of getting type from there, should any of our patrons desire it, at moderate prices.

The experience of Printers in this city and elsewhere for the last three years, in the use of Copper-Faced Type, seems to leave it quite unnecessary to dwell upon its merits. Suffice it to say, our large experience, or the comparative merits of copper, and type faced with the face of printing type. By Copper-Facing, types are made (even less than a dollar per pound) to last, and to retain their sharp and clear impression, no less than, and facilitate composition, by rendering the letters in the alphabet more easily distinguishable.

Owing to the difficulties we have met in having our work properly done, away from us, as they have, (for the present,) closed all our agencies, and this is the only place in the United States where you can now be Copper-Faced.

The Patent, and all persons are cautioned not to infringe and Patent, or other Copper-Facing Type, or selling that Copper-Faced by others than this Company.
