The work must be commenced within sixty days after the signing of the contract, and be finished within the term of two years—the contractor to lay 2,100 metres of said block per month, and 2,100 metres of sidewalk. The price of the 50,000 metres of paving is set down at $4.65 per metre, payable by the City Council in municipal bonds, with seven per cent interest per annum, amortizable in ten years and paid when due to the holder. For this purpose these bonds will be delivered to the contractor as the acceptance of the work executed, which will be done monthly, the coupons there of being received in payment of the municipal taxes, and the City Council will devote yearly in their budget, as obligatory expenses, the sum requisite for the payment of the interest and amortization of the capital.
