CITY ITEMS.

THE BLACK MARIA.—Once more this beautiful team rattles out Lafayette and down Rampart street, to the great comfort of modest pitizens and to the ineffable felicity of Bernard, the driver. Bernard is now a picture of good humor and triumphant joy, such as any painter might envy for a model; for he rejoices not only that he has his pet turn-out in hand once more, but that at the last sale of S. H. was purchased by proxy that school teachers, policemen and other creditors, may henceforth sigh after it in vain. Great is the Black Maria; joyful is the driver; and long may they wave.

A NOVEL ENTERPRISE.—A company has been organized for the purpose of seeking hidden treasure, supposed to have been buried by pirates, and guided by a negro fortune-teller, who directs them where to dig into the bowels of mother earth. The Street Commissioner yesterday found a gang of laborers employed by the company aforesaid, who had made an excavation of considerable extent and about seventeen feet deep, in the gentilly Road, near the race-track; and, as that officer had little faith in the undertaking, and considered it to be an interference with his jurisdiction over the public highways, he ordered the parties to discontinue their work, and had them cited to explain to the competent authorities as to the utility of their proceedings, so far as they were operative on the public grounds.

ACCIDENT.—When the steamer S. F. J. Trabue left the levee last evening, her parting salute was fired before she was a proper distance out in the river, and, in consequence, the wadding of the gun hurled a negro man on the levee, injuring them so seriously that they had to be taken to the hospital. One of them, named Denis Dugan, had an eye put out and his face otherwise badly hurt, and the other, Patrick Carley, was somewhat damaged in the side. The boat, of course, went on; and when she returns it is probable her officers will be called upon to explain the matter if they can.

DEFAMATION.—Recorder Ramos yesterday issued his warrant for the arrest of a Mr. Cahn, accused by Recorder Bright of talking about her disrepute behind her back, and injuring her reputation with the community in general and her neighbors in particular. Mrs. B. resides on St. Ann street, between Prieur and Johnson.

DISCHARGED.—The following parties, after due examination, were yesterday discharged by Recorder Bright:

Charles E. Doeny, charged with being accessory to the robbery of Frederick Freitay of $740 and other articles, on Dryades street, on the night of the 16th inst.

Philip Conners, charged with stealing $15 from a vest pocket in the room of Ann Ryder, at the corner of Bartholomew and Magazine streets, on the night of the 12th inst.

Thomas Wasson, charged with attempting to rescue a prisoner from officer Barney, on the 17th inst.

Joseph Bell, alias Campana, charged with assaulting Margaret E. Hewett, and dragging her along the street by her hair and shoulders, on Saturday last.

AMAZONIAN.—Ann Bothwick was yesterday arraigned before Recorder Bright, on a charge of having attempted to kill Catherine Joyce, on the 10th inst., in a house on Lafayette street, and on her plea of "guilty and surrender," by stabbing her in the right shoulder with a bowie-knife. She furnished bail of $600 to appear on the 22d.

UNGALLANT.—Charles Dasher was had up yesterday on a charge of family abusing Josephine Ballinger, in St. Mary's Market, on Tuesday afternoon. He was ordered to find bail or his appearance on the 22d.

A B'HOY.—A boy named Owen Roper was up before Recorder Bright yesterday, on a charge of having struck Patrick Burns on the head with an iron bolt, on Monday last, on Theresa street, between St Thomas and Tchoupitoulas, and of having bricklatted him at the same place, on the 8th inst. Owen furnished bail to appear on the 22d.

COMMITTED FOR TRIAL.—*Perjury*.—Henry Wende, residing on Baronne street, between Julia and St. Joseph, was examined yesterday on a charge of having committed willful and corrupt perjury in swearing before Justice Genas, on June 5, that he had never received any money on a note of Philip Bayer, for $71, and that he actually received every dollar of it. The charge was fully proven, and Wende sent before the First District Court without bail.

ASSAULTS, ETC.—The following parties were arraigned before Recorder Bright yesterday:

Leonard Hipp, charged by John Ermon with tampering with his slaves during the last six or eight months, and with having, on the 15th inst., renewed his interference with the said slaves, in Ermon's presence, in such a way as to incite them to insurrection, and render them ill-mannered and insubordinate to him. Refused bail, and sent to prison.

Robert Burns, charged by officer Seguin with raising a row at the steamboat landing, on Tuesday evening. Case fixed for the 22d; in default of bail sent to prison.

John McKenna, charged with beating Mary Mullen at No. 63 New Levee street, on Tuesday evening. Case fixed for the 22d; in default of bail sent to prison.

Patrick Dolan, charged with cowardly cutting the nose of Edward Johnson, on Front street, between Girod and Notre-Dame, on Tuesday evening. Case fixed for the 22d; in default of bail sent to prison.

FURIOUS DRIVING.—Three dray-drivers named Wm. Dooley, Robert Porter, and Patrick Donnelly were arrested on Annunciation street, on Tuesday evening, by Sergeant Morrill, for furious driving. Yesterday Recorder Bright sentenced them to pay fines of $10 each, and go to the parish prison for thirty days. This is the way to do it. There is more or less furious driving in all parts of the city; and if other officers of the police would pay as much attention to it as Sergeant Morrill does, a handsome revenue would pour into the city coffers from the purses of those drivers who are so reckless of their animals, comfort and of their fellow beings' bones.

BORING A ROOM-MATE.—A man named Frederick Meyer was arrested by officer DeGlorey on Tuesday night, charged with attempting to bite his room-mate, in the house of Mr. Keller, on North Market street. He is in jail, awaiting a hearing.

DANGEROUS AND SUSPICIOUS.—James Clark and John Sneldon, who landed in the Fourth District on Tuesday, having come down from Natchez in a skiff, were immediately arrested by Sergeant Forno as dangerous and suspicious characters, and locked up to await examination.

BRUTAL ASSAULT.—Thomas Anderson awaits a hearing in the Fourth District, on a charge of having tried to kill Ophelme Molier on Tuesday, by beating and choking her.

TO MECHANICS, MANUFACTURERS, FOUNDRYMEN, ETC.

MEMPHIS

Navy Yard Grounds

TO BE LEASED!

ON THE FOURTH MONDAY, being the 26th day of November, 1855, will be offered to the public, on a lease of

TWENTY-FIVE YEARS,

the grounds formerly occupied by the Government of the United States, known as the Navy Yard in the city of Memphis, and containing about 50 acres.

These grounds have a front on the Mississippi and Wolfe rivers, of three thousand feet on the West, and a depth of nearly twenty-five hundred feet on Chickasaw street, and are divided into three equal parts by Poplar and New Navy streets, extending through from North to South.

The division which lies between Chickasaw and Poplar streets, will be subdivided as soon as may be into lots of 40 by 140 feet, fronting entire on the river, and have access to the Hope Walk, engine and boiler house, measuring several thousand feet in length, and supplied in all respects with the finest collection of machinery in the Union. All the buildings are nicely adapted to Foundries, Machine Shops, and Manufactories of every description, and the extensive front on the river is regarded as the most favorable of any place on the Mississippi or its tributaries for the establishment of a steamboating and repairing yard.

The unprecedented rise of fine timber in our vicinity, convenience to iron, copper, coal, and all the material necessary for such purposes, the demand for locomotives and cars for the twelve hundred miles of railroad now progressing in connection—for engines, furniture, machine forging and tools, and cordage—and the unexampled growth of our city, render this, in the judgment of all, most eminently fitted to the great purposes aimed at. Memphis is a central point, between the extreme limits, if at the head of navigable navigation, and is regarded as the proper point of the great Mississippi Valley, for manufacturing purposes. Her facilities for transportation, and her advantages, such as never before been presented, for sale and profitable investment.

Proposals for leases upon the property will be received and acted upon at any time until the 26th day of November, at which time the sale will be publicly leased, which shall be duly advertised of before that time.

For further information, address the undersigned.

A. H. DUGGANS, Mayor.

COMMERCIAL MATTERS.

New Orleans Money Market.

CHRONICLE OFFICE, NO. 70 CAMP STREET,
Wednesday Evening, September 19, 1855.

The letters by the steamer Africa, from Liverpool, of the 31st ult., were received by this day's mail. The contents generally are of a very satisfactory nature. We append below the usual weekly Circular of markets. The accounts, both commercial and financial, are deemed highly satisfactory. There is but little in our market at this moment on which advices for a short time to come can have much influence, as there is not expected to be much variation. All our Cotton factors have made up their minds regarding this year's crop, and as the chief part of their responsibilities do not mature for weeks, and many for months to come, they will not be forced to place their stocks on the market. The nature of the political intelligence from Europe cannot by much more unfavorable for the Allies, consequently any influence arising from the effects of operations in the Crimea cannot be otherwise than favorable for American interests, so far as commerce, trade and finance are concerned.

The Money Market to-day presented a very easy position. The offerings in two of our largest Banks were only $206,000, of which $128,000 was in the Canal Bank, and the most remarkable occurrence is that the Managers considered every dollar good and passed the whole amount. It is very seldom in the course of trade that we can chronicle an instance of the kind. The State Bank had about $9,000, and passed all considered good or safe.

The amount of paper in the hands of brokers is so restricted that quotations may be considered nominal. Lamp street was really dull to-day; we would not give an eagle for all the brokerage to the credit of profit and loss.

There is but little inquiry at this moment for exchange for remittance. The fact is, there is very little money due northward from this city. We learn some shipments of gold have been made in New York for this place. This will prove a losing business at this time, and rather a "green speculation," though if there is a surplus of gold in New York we have no objections to its coming this way for a market.

We learn of some Sterling Exchange with bills of lading being sold yesterday at 108; this is a low figure, and presents a great contrast with 108¾. Clear Bills are without change, though our largest buyers do not seem inclined to pay over 9¾; whilst for direct remittance 9¾ to 9¾ is paid. New York funds are without change. Our quotations of this evening conform to those of yesterday:

Sixty days on London, clear bills	108 @ 108¼
Sixty days on London, with bills lading	108¼ @ 108½
Sixty days on Paris, direct	5 @ 5¼
Sixty days on Paris, through London	5¼ @ 5½
Sixty days on New York, at par	¼ @ ½ prem.
Sixty days on New York, guaranteed	½ @ ¾ prem.
Sight on New York	¾ @ 1 prem.
Checks on New York, bank notes	¾ @ 1 prem.

The schooner Red Fox, from Tampico, to-day brought $28,525 in Mexican dollars. The demand, though not brisk, sustains our last quotations, say 103¾ to 103¾. A slight improvement has taken place in Europe, which sustains our highest quotations. New York quotations are 104¼ to 105. To deal in coin, however, requires skill and learning, and almost a regular apprenticeship to the business.

The arrivals of vessels in our port has created more competition in engagements. As many more vessels will soon be due, it is not expected that present rates of freight can be sustained. The ship William Witherspoon and Northern Chief have been chartered in New York, to come to this port and load with Cotton for Liverpool, at ⅝d sterling. We also are informed that 500 barrels cement was shipped in New York for this port at 15 cents per barrel. Some vessel wanting ballast perhaps.

We gather but little from our exchanges to-day, and quote the following as rates of interest in New York on the 12th inst:

Loans on call, stock securities	4@6
Prime commercial paper, 60 to 90 days	10@8
Do 4 to 6 months	8@9
First class mortgage securities	10@12
Giltedged bills	12@18
Names less known	20@30

Commercial Intelligence.

Per Africa!

LIVERPOOL, August 31, 1855.

The favorable change in the weather has created a more active demand for Cotton in the last few days, and selling holders fully to recover what they had lost in the early part of the week, and the market generally closes firmly at the extreme quotation of our last Circular, whilst in Middling classes of American a slight advance has been obtained.

The business for the week ending last evening reached 54,470 bales, speculators taking 5,500, and exporters 5,700 bales. To-day it is estimated at 1,200 bales, with about 500 speculation and export. The following are our quotations:

Fair Orleans	7½d	Middling	6 7-16
Fair Mobile	6¾d	Middling	6 3-16
Fair Uplands	6¾d	Middling	6 1-16
Ordinary to good ordinary	5⅝ to 6¾d.	Inferior	4 to 5¾

	Bales	Bales
Total Stock of Cotton in this port	507,000	Amer. 367,000
do do same time last year	405,000	288,000

There was a good demand for Yarns and Goods yesterday in Manchester, at an advance of ⅛d per lb. in the former, and at the full quotations of last week for the latter.

The Corn Market has been dull, with a limited inquiry for Wheat and Flour at last week's price, whilst Indian Corn has declined 1s per quarter; White Wheat 11s 9d to 12s 6d; Red 10s 6d to 11s 3d per 70 lbs. Western Canal, 36s; Philadelphia, 40s; Baltimore, 40s to 42s; Ohio 42s to 43s; Canada 40s to 41s; Sour Rye 30s to 31s; White Indian Corn 54s; Yellow 38s 6d to 39s; Mixed 38s 6d per quarter.

The sales of Rosin for the week reach fully 6,000 bbls, at 4s 4d to 4s 6d for Common up to 7s 6d per cwt. for fine quality. Turpentine in limited demand at 7s 3d to 8s per cwt.

Yours, respectfully,
BROWN, SHIPLEY & CO.
